Clubfoot & Harlow's Creek Canal.

A COMPANY has recently been formed, and incorporated by act of the Legislature of North Carolina, for compleating a communication between the waters of Neuse and Newport rivers, in the Eastern section of this State. This company called the "Clubfoot and Harlow's Creek Canal Company" is desirous of contracting with some person or persons who will undertake and give ample security for speedily performing the following work. A Canal is required to be cut and opened from the head of Clubfoot's to the head of Harlow's creek, of the following description, viz: the Canal shall contain from one end to the other a depth of water not less than four feet at ordinary tides, free from stumps or other obstructions, it shall be 14 feet wide at bottom and increase at least one foot in width for every foot of perpendicular rise from bottom to top: the earth dug from said Canal shall be removed at least ten feet from the edges thereof; the Canal shall have four lie-by bays (at convenient distances from the ends of the canal, and from each other) which shall be as deep as the canal, sixty feet long at bottom and twelve feet in width exclusive of the width of the canal, and increasing in length and width in the same proportion to their perpendicular rise as the width of the canal; the channels of the said creeks to be cleared out from the heads to the mouths respectively so as to contain the same depth and width of water free from obstructions, as are required for the canal: the inconvenient crooks in said creeks are to be straightened, a ditch or ditches cut from end to end of the canal, and kept open inside of the banks, adequate to receive the water flowing from the adjoining country and to convey it into the creeks without injury to the canal; and substantial gates or locks erected at each end of the canal, competent to prevent the too rapid flow of the water through it

It is believed by the company, and on that principle they have settled with the representatives of the former proprietor, that at least one fourth of the required work has been done.—The length of the canal is about two and a half miles—The country through which it passes very level, and of a favorable soil for digging. Perhaps few better opportunities of profit can be presented to the enterprizing and industrious than this undertaking holds forth.—Letters addressed to the President and Directors of the company, care of William Gaston, Newbern, N. C. will receive early attention.

By order of the President and Directors,

JOSEPH BORDEN, President.

Come and Pay your Accounts.

WE have some time since urged the necessity of an immediate settlement of all accounts due us, yet we find many delinquents; and it should not be expected that we can any longer keep a young man employed on high wages to wind up a cash business We therefore hope that no impropriety can result from saying, that all debts due us can be settled without cost until the first day of July next—afterwards the law will be enforced without discrimination.

ALL persons indebted to the above firm are earnestly desired to make payment without further delay. Any surplus monies received on account of the Star, from those who continue to be subscribers, will be paid over to Thomas Henderson, jun. if desired and his receipt therefor returned. Mr. Robert Stamper, on whose fidelity and correctness perfect reliance may be placed, continues in his capacity of Agent to settle the business of the late company, and may at all times be found at my office, near the Star Printing Office.
