

THE DAILY PROGRESS.

VOL. VI. RALEIGH, SATURDAY, JULY 22, 1865. NO. 212.

For Telegraph see Fourth Page.

Our Fourth Page this morning is filled with a record of the important events of the day, obtained by telegraph, press and otherwise.

John H. Gibbon is the new Assayer of the Mint at Charlotte, North Carolina.

The sum subscribed to build the Lincoln National Monument at Springfield, Ill., now amounts to thirty-five thousand eight hundred dollars.

The heirs of President Lincoln own 160 acres of land Iowa, conferred upon him for services rendered in the Black Hawk war.

W. H. Wallace, of Idaho, has been appointed Governor of that Territory, vice Caleb Lyon, of Nevada, resigned.

Preparations are being made at Heart's Content, N. C. to receive the American end of the Atlantic cable.

Seventy-Thirties were sold on Saturday to the amount \$10,331,200.

Another delegation from Florida arrived in Washington to oppose the appointment of Judge Marvin as Provisional Governor of that State; but the appointment already been made.

The total number of National banks is 1,440—39 of which were established last week with a capital of nearly \$100,000, and nearly \$1,500,000 of currency issued.

Reverdy Johnson has gone to Richmond, having been employed as counsel for a number of citizens whose property has been libeled for confiscation.

The legal limit of three hundred millions of National Bank circulation is nearly reached, and the creation of new comparatively few additional institutions under that limit will be authorized.

The Exchange National Bank of Richmond, Virginia; National Bank of the Commonwealth, New York, and the Ocean Bank, New York, have been created national depositories. The American National Bank of New Hampshire has been discontinued as a depository.

A correspondent of the Richmond Bulletin writes that General Pemberton, late Secretary of State of the Confederacy, has reached Paris. Ex-Quartermaster General Myers has also reached that city.

Major General Hooker has promulgated his first official order, in which he announces that he has assumed command of the Department of the East, relieving Major General Dix. The order specifies the territory included in the Department, and designates the members of the Departmental Staff.

Governor Pierpont of Virginia has issued a proclamation appointing a special election to be held in the city of Richmond on the 25th inst., to choose a Mayor, Aldermen, Councilmen, and various other municipal officers.

Governor Pierpont, in his letter to President Johnson, estimated the number of Virginians who acquired the right of pardon under President Lincoln's proclamation, prior to the 29th of May last, at ten thousand.

On Tuesday last General Forrest, of Fort Pillow, was shot, had both of his shoulder-bones broken by an accident on the railroad near Senatobia, Miss. The car in which Forrest was seated was thrown down an embankment to a considerable distance.

There are now at Johnson's Island, Lake Erie, only 150 prisoners, all above the rank of Major; and as all of these have made application to be released, it is expected that they will soon be discharged. It is presumed that the rest will be abandoned.

The story that Jeff. Davis is to be tried immediately by a military commission has again been revived and is being widely believed. It is only necessary to repeat that nothing is to be confirmed in this report, and that those who are likely to be informed in regard to it assert it has not yet been decided how or when this trial shall take place.

Denouncing the arrest of Emerson Etheridge, and other outrages, by order of Brownlow, as revolutionary and lawless.

Smart Pike has been in New York city several days. He is very grey, but is as stout and strong as in the days when the Hoosier said to him, "Stranger, I reckon it would take as much beef and brandy to run you as a steam-engine."

The Commissioner of Internal Revenue has decided that a person keeps a horse, the use of which is necessary to the prosecution of his business, the expense of keeping the horse, including food, &c., may be deducted from his income. When the horse is partly used for business for producing income and partly for pleasure, a portion of the expense for keeping him as is clearly referable to productive labor may be deducted.

There are but four revolutionary prisoners living: Samuel Cook, born in Connecticut, Sept. 10, 1769; Samuel Downing, born in New York, Nov. 21, 1761; James Barlow, birthplace unknown, May, 1764; William Hastings, born in Maine, 1764. Abram Day, a revolutionary pensioner, one hundred and ten years old, died at Gorham, Maine, June 14.

The New Orleans Picayune has this paragraph: "Gen. H. W. Thompson is desirous of forming a business association with an experienced or established cotton or other commission house in the city of N. O. He will receive communications through the Post-office. We presume there are few men who could add more business to the books of any house in this city than this gentleman."

Mr. Edward Atkinson started to a meeting of teachers and freedmen, which was held in Boston on Thursday, to discuss the case of the merchants of that city were taking measures to bring a case before the Supreme Court of the United States, in order to get a decision of the question whether the clause of the constitution authorizing the States to fix the qualification of voters gave power to make such a qualification. It was a question with many whether it was constitutional to prescribe a qualification which every citizen could not acquire.

The Quebec News of Saturday says: "The hotels in this city are beginning to be crowded with American tourists. Most of these visitors will do the Saguenay river, they return westward, taking passage on the Quebec Magnet, or on the Arctic, which leaves tomorrow morning for Tadoussac, returning on Monday forenoon."

The long talked of international bridge at Buffalo has been realized. Two million five hundred thousand dollars has been pledged for the work, which will consist of a durable and elegant iron bridge to span the Niagara at that point, as well as for the construction of a grand union depot building, and the seven miles of railway around the city to connect the eastern lines with the bridge. The contract has been let.

General Howard is organizing a general intelligence bureau in Washington for freedmen seeking employment and for employers.

Trains run regularly to Richmond via Alexandria—The Express will be put on the road when the Rapahannock bridge is finished, probably next Friday.

THE CITY.

Meeting of Stockholders R. & G. R. R.—We have delayed mention of the meeting of the Stockholders of the Raleigh and Gaston Railroad, which took place Thursday afternoon, in the expectation that the official report of their deliberations would be handed in yesterday evening. But, as the probability is that the Secretary has not completed the work, we have to say that virtually nothing was accomplished. It was found upon examination that the charter made it requisite for a majority of the stock to be represented, and that under ruling of the Provisional Governor, Mr. Holden, only those stockholders could act who could range themselves under one or another of the heads of the 14 accepted clauses of Johnson's proclamation. This defeated the real object of the convocation, we presume, though such a decision was actually required. An adjournment, at all events, was effected to the 4th of August next.

We learn that no changes were made in the old officers of the road. In Monday's paper we hope to print the proceedings at length.

The Liquor Traffic—In a Good Humor.—It is surprising to note the different effects produced by the ardent when freely imbibed. Yesterday we saw our jocular soldier, that

"As simple as o'er the flowery hills he strayed, sang, in spite of his blue jacket, with perfect gusto, 'the bonnie blue flag,' evidently feeling that real peace had been established between the North and the South. Another, much less like a gentleman in appearance, swung from one side of the street to the other; another was so bellicose as to have eaten vengeance to his best friends, while others could only locomote when sustained on either flank by sober companions.

These sights are not unfamiliar to people who promenade Fayetteville or indeed any other street. And yet we are gratified to believe that they are not dispensed here in unlicensed quantities as a month since. Its total suppression is esteemed an impossibility—indeed, unless as a matter of volition, we are opposed to compulsory measures against the appetite except in so far as its freedom jeopardizes public peace and order. It will be quite enough for the thanks of the community if the military succeed in confining its use so that decency and individual rights may not be violated.

Enterprise and Business.—Raleigh begins to show some signs of vitality in a business point of view. Improvements in the capacity of her stores is not the only feature in which we see the evidence of advancement; it appears to be at last recognized that there is such a science as taste and internal beauty, and accordingly many of the foremost men in the community in mercantile pursuits are giving attention to such ornamentation. But the expansion of business is not less promising. We know of one firm who, in a few weeks, will open in this city a stock of goods of \$10,000 value, and the probability is strong that there are others here who, not willing to be outstripped, may determine upon like increase of their facilities for trade. At all events, the future is bright in promise, and it may be that our place will have in the to-come a higher property than heretofore. It will be so if we are only true to our own interests.

The tide of immigration from country to city was perhaps never so general as at this moment. Yesterday not only was the regular market space occupied by the carts and other vehicles of our "country cousins," but a pourpousure was made on Fayetteville street, north and south. It is one of the "straws" which show how the political winds blow and unmistakably indicate that the people, weary of politics, have acquiesced in the new order of things, and are turning from inclination as well as necessity their attention to the practical affairs of life.

Prices are still coming down. Yesterday beef was offered at 10 cents, and heavy at that price; Irish potatoes sold at 75 cents per bushel; Eggs 25 cents per dozen; Butter 25 cents per pound; Short 15 cents per pound; and so on ad infinitum.

Watermelons, peaches, apples and the like, were abundant and at such prices as not to forbid any class of our people from purchasing.

Bank Meeting.—The annual meeting of the stockholders of the Bank of North Carolina is to be held in this city on the 25th inst., next Tuesday, and in referring to the fact, the Charlotte Democrat remarks that there "ought to be a full attendance of the stockholders in person, and that some conclusion should be arrived at speedily as to what the Bank shall do. If it cannot commence business, let it go into liquidation without incurring further expense. The stockholders are peculiarly interested, and if possible should attend the meeting on Tuesday next."

We do not object to the suggestions made, but merely wish to say that there is every prospect of a full attendance of the stockholders, who will undoubtedly show both wisdom and prudence in the course they may deem it best to adopt.

Provost's Sanctum.—Although the office was crowded during nearly the whole day, nothing of much importance to the public generally was acted upon. A negro boy drew a revolver, one of the ancient pepper box order, on two boys who were imposing on him, and in consequence was committed to the barracks.

Allen Johnson, first cousin of a man by the name of Andrew Johnson, subscribed to the oath yesterday, or rather made his mark, as he was unable to write.

A negro man had his knife and tobacco stolen, but could not find the criminals when furnished with a guard.

The heat of the weather not only depressed the officials, but repressed many visitors whose complaints were not of sufficient import to induce them to encounter the melting rays of old Sol.

Break Down.—Mr. Benj. Sherwood, of August, Ga., who has been sojourning here for a month past, met with an accident last evening on the Hillsboro road, which nearly cost him his life. Driving in a buggy at rather a rapid speed, one of the wheels came off, throwing him and Miss Jennie H. Morris from the seat into the road. The young lady, who is a Virginian, was considerably bruised about the shoulder and face, but no limbs were broken. Mr. S. had the skin rasped off his hands and face, and considers himself fortunate. He has had his limbs broken or suffered a worse fate. The gentleness of the animal driven alone, perhaps, saved the party.

The Dippers.—The Philadelphia Press says there are five hundred barrels of yellow snuff stored at Greensboro for the females in South. We simply wish to say that but a small portion of the lot will find consumers in Raleigh. Not one of ten of our ladies are accustomed to indulge in the elegant practice of mop and tin-box.

THE CITY.

Attack and Retreat.—John Rhodes, a colored boy and employed in this city, was attacked by two soldiers about noon last Thursday, in the vicinity of Garrison's old hotel. They were drunk and only administered to John a few blows before recognizing that discretion is the better part of valor, he retreated in good order and thus saved his bacon. There is a perfect antipathy to the blacks on the part of many of the soldiers, and they not infrequently display it by physical demonstrations with fist and stick. Others, however, denounce them in an equally offensive manner.

Raleigh still Behind.—The neglect of returning Confederate soldiers by the citizens of Raleigh is provoking unpleasant commentary even from parties connected with the Federal Government, and firing a stigma upon us in the estimation of every body and every where. At Salisbury and elsewhere in the State the citizens attend the depots and provide for the needy ones in all respects. It ought to be so here. Is there not enough city and State pride in our midst to wipe out the stain of past neglect?

Postponed.—The meeting of the stockholders of the Wilmington and Weldon Railroad has been postponed to Tuesday, the 1st day of August next.

Personal.—We are glad to see that Col. Tod R. Caldwell, Gov. Holden's Private Secretary, is on duty at the Capitol.

Home Home.—Col. David Coleman, of the 39th N. C. Regiment, passed through this city a few days since from Texas, and is now at home in Buncombe county.

Broke Down.—The down freight train for Goldsboro, yesterday, broke down at some point on the road and as a consequence no mail reached here from the South last evening, the obstructions preventing the passing of the up passenger coaches.

At Blumenthal's Soda Fountain, on Fayetteville street, Thursday, the thermometer ranged as follows:

FRESH SUPPLIES OF THE PUREST Medicines, Chemicals, Wine, Brandy, Porter, (Choice Brands), Cigars, Tobacco, Window Glass, Paints, Oils, Brushes, Dye Stuffs, and the Latest and most Fashionable and Splendid Toilet Articles, Soaps, Perfumery, &c., &c., &c. at

Pescud's Drug Store. (Established January, 1844) THROUGH THE KINDNESS OF FRIENDS! HAVE been enabled to resume business, and have just returned from the Northern cities, and am now receiving a well selected and most desirable stock of all the articles usually found in a Drug Store, to which I ask the attention of old and new friends.

Having to buy exclusively for CASH, and relying alone upon the proceeds of sales to keep my stock renewed, I shall expect the cash, and hope no one will ask for credit, as I am not able to give it. In special cases satisfactory arrangements will be made.

A New Enterprise. I have also accepted an agency from one of the largest Importing and Jobbing Houses in the Union, and am prepared to issue to dealers, at the lowest Northern prices of all that they need in the Drug business, and will forward their orders, receive and forward their invoices for a small commission. CASH must invariably accompany the order.

Thus all Druggists, Physicians and Dealers in Drugs, or anything in the Drug line, need not go North, but can save time, trouble, and a handsome percentage by sending me a list of their wants, which I will price so that they may know what amount to remit.

Bill under \$200 I can furnish as heretofore, at the usual profit, at my Drug Store. I hope to receive and merit a liberal patronage. P. F. PESCU. jy 10-tf

WATCHES. A LARGE IMPORTING HOUSE, CLOSING THEIR business, offer a fine assortment of Gold, Silver and Composition Case Watches at cost.

To returned soldiers wishing employment, speculating men, traders, regular dealers wishing to replenish their stock, or to any one desiring a single or a thousand Watches this presents a great opportunity.
