BY J. L. PENNINGTON & CO.

THE NEWS.

-The following severe sentence has been passed upon Colonel Louis Schirmer, of the Fifteenth New York artillery, and duly approved by the Presi-

"To be cashiered and dishonorably dismissed the service of the United States, forfeiting all pay and allowance now due, or that may hereafter become due, and that he may be fined the sum of ten thousand dollars, and be confined at hard labor at Fort Warren, in Boston harbor, for the period of three years; and also that he be forever disqualified from holding any office of honor, trust or profit under the Government of the United States.

Among the charges against this officer were the

ollowing: "Embezzlement and misapplication of money held in trust and belonging to enlisted men." "Drunk-enness on duty." "Wilfully causing arm to be destroyed belonging to the United States," and Knowingly making false musters of men, and wilfully signing muster-rolls wherein such false musters were contained." The regiment of which he was formerly colonel has been mustered out, and will leave for home in a few days.

-A correspondent of the Hartford Journal thus approuse the withdrawal of Horace Greely from the Tribune :

"It has been unofficially announced that Mr. Horace Greely has ceased to control or even to conduct the New York Tribune. It is said the fact will be officially announced in a few days. The causes that lead to this action are only guessed at I am of opinion that he has been crowded out by outside influences. He originally owned the entire property of the Tribune, but in an evil hour transformed it into a joint stock company. He retained, however, control of the paper by contract, but what does a contract amount to when one of the contracting parties enter into it for the sole purpose of accomplishing its ultimate vacation? The present controllers of the Tribune are not known to he public.

-The Chronicle, the Washington Chronicle, speaking of the mendacious Raleigh correspondent of the Associated Press at Raleigh, N. C., says :

"Will somebody let the World know who is this correspondent of the Associated Press? If he is the same who, during the war, became infamous as a manufacturer of bogus news from Newbern, no one will be surprised at anything that may emanate from that quarter. Let us have his name.

-The doctors specially devoted to the care of cholera patients, have tried a curious experiment, the object of which is to ascertain whether that disease is caused by a peculiar state of the outward ir, as has been supposed. They sent up two baloons, one from a village as yet untainted by the pidemic, and the other from Alexandria. A quarr of fresh beef was suspended to each balloon, hich was allowed to float for a certain time in the ir. On making these balloons descend the mest which had floated over Alexandria was completely utrified, whereas that which had been suspended over the healthy village was perfectly fresh. The warters of beef had been cut off the same animal.

-On Monday, flour commanded in Richmond, ry fair prices. Family sold at \$12.50 to \$13: perfine \$10 to \$10.50; Extra \$11 to \$11.50-all Schmond inspection. Brands of Baltimore and ew York Inspection were held at lower figures.

-Rev. G. W. Langhorne, an eminent and popur divine, of the Methodist persuasion, is preachng regularly every Sabbath at Liberty Hall, Alex-

-It is stated in military circles that five thouand of the troops are now on duty in the departnent of Virginia, are to be mustered out of service ight away.

-The Philadelphia Press (radical) illustrates its heory of freedom of elections by saying: "Does ny one suppose that Etheridge would be allowed o enter the Capitol as a member, no matter how reat the majority that returned him. Undoubtedy not."

-The result of the election in Kentucky is four Republican and five Democratic members of Conress. The Legislature is Democratic, thus securng a Democratic United States Senator.

-The seats of four Republicans elected to Conress on Monday last, in Kentucky, are to be con tested by their opponents upon the grounds of gross and flagrant frauds, and the alleged manner in which the election was conducted.

-The Administration intends to let Maximillian alone, and thus keep out of a war with France.

-Paul Morphy, the champion chess-player, has returned to New York, and is preparing an annotated volume of his games. The rumor that he was on Beauregard's staff is stated to be untrue.

The Springfield Republican s ays there is an unsual scarcity of servant girls in that city, and ecommends the Freedmen's Bureau to send colored irls to supply the deficiency.

-M ajor Howard, A. A. General on the staff of Lajor General Hartsuff, has been promoted to a Lieutenant Colonelcy.

-Canadian traders complain bitterly of the "silver nuisance." and call on the Government to put duty on it-make the banks receive it as legal tender to any amount, or do something to relieve them of the quantities of the "stuff" they are compelled to take instead of bills. Poor Canadians.

-The Shelbyville (Tenn.) Union of the 5th of August, says: "The clerk of our county court issued during the month of July, 422 marriage licenses. The number issued to white persons 16; o colored 406. He issued as high as 106 in one ay. Is there a county in this State can beat this?"

-The Boston Herald says Major General Hocker soon to proceed to St. Louis for the purpose of leadng to the alter in marriage a wealthy and beautifu ridow of that city.

-Generals Schofield and Wherry, U. S. A., were Willard's, in Washington, Thursday.

-The American House and the handsome residence Mrs. James E. Iglebart, at Annapolis, Md., were estroyed by fire on Monday morning last.

PROGRESS

VOL. VI. RALEIGH, SATURDAY, AUG. 19, 1865.

NO. 236.

STATE ITEMS.

HEALTH OF WILMINGTON -The health of Wilmington is said to be good. The Herald of the 15th

One of the most prominent merchants of this town now traveling through the State on business, writes back that ne is everywhere met by the people with the belief that our city is overrna with yellow fever. Investigation into the origin of this bell t has shown him in several instances that agents of Newbern commercial houses have passed along just shead of him and used this malicious report to entice business from its accustomed channels. The result is that a very general alarm prevails in the agricultural districts, and people are positively afraid to come here to do business. Il Newbern proposes to ouild itself up on such mendacity as this, it will assuredly fail. Such 18sorts avail usually for a short time, but in the end recoil with redoubled effect upon those who make use of

Once more we make the assertion that not only is there now none, but there has not been a case of yellow fever in this town this season. Wilmington was never more healthy at this season of the year at any former time. Nobedy has any occasion to feel the slightest alarm in coming here to transact business, and we hope the people of the interior will not be frightened away by the bugbears of jealous and aprincipeld rivals.

A wife of sixteen, married fifteen months, has had her husband bound over to keep the peace before Justice Connelly at Wilmington. Husband sober and industrious, but the spouse says is jealous as the old scratch.

All the liquor saloons where dead shot was dealt out by the glass, have been closed in Wilmington, but low grogeries do a smart business on the sly.

We are happy to announce the fact, says the New bern Times in connection with the return of this excellent officer, that the most amicable good feeling and harmony exists between the Military and civil authorities here. The rumors about a change of government, that have been flying over the city, are baseless. The military are determined to leave the civil authorities free control over the affairs connected with the municipal government, and will render every assistance to prevent lawlessness and rioting.

Policeman Feltiss, who was shot by the guard at Craven street jail in Newbern on Monday night, will probably have to suffer the amputation of his left arm, at the shoulder. The ball in passing through the wounded man's shoulder fractured the neck of the kemurez. He is suffering very much.

The President has appointed Josse Wheeler to be of the lovernal revenue for the several districts of North Carolina, and Francis R. Miller as Surveyor of Customs at Wilmington.

A correspondent of the Petersburg Express, writing from Easter, in this State and speaking of the corn, says;

Some idea of the expected abundance may be gathered from one single fact. Farmers in Warren, Franklin, Granville, Wake and other great corngrowing counties, are willing now to contract at \$2 a \$2 50 per barrel. Vegetables and fruit are also very profuse, and although bacon is somewhat scarce, the country people are living luxuriously and

Of Rev. Mr. Kingsbury, recently ordained in this cl'y, be writes:

I understand that the Rev. T. B. Kingsbury whose recent change in church relations, has created considerable comment, contemplates publishing in book form at an early day, his reasons for so unleoked for and important movement. Mr. K., as many of your readers are probably aware, was for many years a prominent member of the North Carolina Conference, but some two or three months since signified his intention of leaving the ecclesiastical body with which he had been so long connected. and expressed a desire to identify himself with the Baptist church. The formulas of examination, ordination, baptism, etc., were all enacted at the Baptist church in Raleigh some three or four weeks ago in, the presence of an immense congregation, and notice of the event appeared in the Raleigh papers. Mr. Kingsbury is now at Warrenton, having assumed the pastoral duties of the Baptist church in that place. Being a man of unblemished character and very high attainments in the literary and theological world, his forthcoming book is naturally looked for with very great interest.

How the Signalling to Valentia was Managed.

[Valentia Letter in the London News.]

You are, I imagine, aware that no speaking is attempted, but that all the signals here received are restricted to the insulation and conduction of the cable, Two cells only are made use of, as I am informed. from this side, and the same power, I believe, from the ship. I am perhaps telling you nothing new, but it can do no harm if I repeat that the system is as follows :- At ten minutes before every hour (Greenwich time) the ship commences signalling to us. The ordinary signal is five reversals, one every two minutes ; the signal for every fifty miles paid out is as before, commencing ten minutes before the hour, but ten reversals, or one every minute; and that for every fifty miles run by the ship two reversals of two minntes each, then two of one minute each, and then two more of two minutes each. I am often in the instrument room, and watch these signals. Two clerks watch-one the reflecting galvanometer, and the other the chronometer-each calling out "time" and "over" respectively, and you generally hear the two words come from them at the same instant. The signals are unmistakably clear, with a slight oscillation at each end; and it is most curious and interesting to watch these escillations, and know that you are thereby watching and noting every roll of the big ship, which is at this moment upwards of five hundred miles distant.

A frightful accident occurred at the Queen's Thea. tre, in Hull, recently. A cry was raised that the roof was falling, and the people rushed to the doors in crowds. One man now lies in a precarious condition, and very many others were seriously hurt. The scene is described as most heartrending.

THE CITY.

MILITARY CHANGES. - Capt. Barrett, whose regiment is on the eve of departure for home, has been relieved from duty as provost marshal by Captain Adams, who has entered upon the discharge of the functions of district prevost marshal and post

We learn further that the division and brigade headquartere have been discontinued.

It remains to be seen whether the same efficiency will distinguish the future government of the city as in the by-gone. Capt. Barrett, who is about to leave us, has won in the estimate of all good men the very highest position, by his refusal to be guided by the caprice of any class in the community. In our view he consulted only the wish of his government in every raid and effort against immorality, and the people of Raleigh place a high estimate on him for the fidelity to duty and the peace of the community.

We shall still have among us, at least for a brief time, Lieut. Graves, whose zeal as assistant provost in behalf of the same results are appreciated.

We hear Capt. Adams well spoken of by the officers whom he has succeeded, and therefore cannot contemplate that he will be less severe against vice. We shall see.

BUTTER AND Eggs .- There has been for several days past, an extreme scarcity of butter and eggs at the market, which has caused much inconvenience to families. Hardly an egg or a pound of fresh butter was to be seen yesterday morning. And we were informed by a prominent business firm that they could have sold hundreds of dozens of eggs during the day. Cannot our country housewives stir up their cows and hens and make them contribute a little more liberally to the support and comfort of the city people. Good prices and quick sales await all that may be offered. We appeal to the farmers to send in these things, and do not dispose of them to hucksters before or after reaching the market square.

HORNED .- A vicious cow, the ownership unknown, made a successful horning demonstration against a little boy, named Glorsoch, yesterday, in the vicinity of the Lunatic Asylum. He attempted to drive her towards the city, in his gambols about the hill, when she unexpectedly turned against him and caught him on her horns. One toss, however, relieved him from his projection, and with an agility surpassed by few, he retreated beyond her reach. He was badly frightened but not injured.

EXCITEMENT WITHOUT CAUSE .- It is astonishing to note the percentage of excitable temperament in the world. Thursday evening, just as the cars from Goldsboro' reached the depot in this city, and when the engine was making scarcely any headway, the third car made a jamp off the track. A hundred people made for the spot with lightning speed, only to discover the train standingstill; nobody hurt and very few frightened.

JOHNNY IS GOING HOME-The soldiers whose regiments are included in the lists specifying those which are to be mustered out are quite jubilant over the good time coming. It is genuine cause for the indulgence of good feeling and those of the troops who have made the acquaintance of our people-privates as well as officers-will carry with them many good wishes for their future happiness and success.

To Business Men .- We have just received from New York a large stock of Cards, Commercial Note and Foolscap paper, &c., and can now print cards, circulars, catalogues, &c., as cheap as the same can be had in the United States, and in the best style of the art. For fine work we have the fastest and best press in the city. Orders solicited.

Coming. - We hear that two regiments of the twenty third army corps are coming here in lieu of those troops which are to be mustered out. They are western men, and we hope will prove themselves as acceptable as the departing veterans.

Nor So .- The report that negro troops are to gar rison Raleigh and vicinity is without a shadow of foundation. The most of them are to be sent away from the State. So much for the evidences of ourearnest and sincere loyalty.

THE FIRST ORDER om the new Brigadier General commanding here,—sprears this morning. It is not important, however, as it merely announces the changes we have noted in another place.

PETERTBURG RAILROAD. - It is imporfant to ship, pers and travellers to read the advertisement of this road elsewhere. Acquaintance with the requirements of the company will save many perplexities.

See advertisement of John G. Williams & Co., brokers and bankers in this city. It is an old firm and responsible as it is energetic.

Corron.—The markht is quiet with considerable quantities arriving. We hear of no sales in the city at present, though quanities of the article have accumulated at the depot.

FUN To-NIGHT .- Another great crowd filled the City Hall to repletion last night, and Gleason and Birch's Ministrels entertained them with such success as to create the most approving applause. The bill for this evening is a rich one both in quality and length. If you wish to drive off ensui, go and see

MONETABY.- We sometime since furnished a table of the rates of gold, in Richmoud, during the years 1862, '63 and '64, and a similar statement for Raleigh for the same period. As of some interest to our readers, we now supply them with the mean rate in New York, during same time, as follows:

	1862.	1863.	1864.
January,	1084	1481	1554
February,	1034	1624	159
March,	1011	155	1644
April,	1014	150	1751
May,	103	1481	179
June,	1061	1444	222
July,	1144	1841	2581
August,	1144	126	286
September,	120	185	228
Outober,	1274	148	2134
November,	1811	1484	265
December,	181	150	2284
A antomno	sage those	navade han sha bar	

A cotemporary there says it has the best authority for believing that the amount of specie sent South, overland, has for late weeks averaged nearly one million dollars per week.

HANGS FIRE.-Reports prevail here that the question of the U. S. Marsha ship of the district of North Carolina is still undecided. It will be remembered that it was first conferred on Mr. W. R. Richardson, who could not qualify under the test oath, and then rumor had it that Mr. Jeff. Fisher had been given the place. He did not qualify, we believe, and now the story is that Mr. R. will be the man. There may be some truth in the statement, as the President in the exercise of his perogative of pardon can fit any man in the State for the position.

RALEIGH MONEY MARKET. REVISED DAILY BY B. F. GRADY, EXCHANGE BROKER. 13, Fayetteville Street. Buying Rates.
