-The appearance of Breckinridge in Canada induces the surmise that he has some hopes of Executive clemency. His uncle, Dr. Robert J. Breckinridge, is said to be extremely anxious on the subject. Those who know the late Vice President, however, think that if he is in Canada it is rather to meet his family, whom he has not se n for some months.

It is proposed to hold at Alexandria shortly a mass convention of the original loyal people of Virginia, to include by invitation, all loyal refugees who have not yet returned to the State. The purpose of the convention can be very well understood, when we st te the Convention is to be addressed by Senator Wilson, Henry Winter Davis and other rad cal Republicans. The pressure by the pestilent faction upon President Johnson is beginning in earnest.

-General Ba ks who had determined to settle in New Orleans, has changed his views. Very recently he was summarily turned out of a house he had occupied without right, and being held accountable for the furniture which it contained, ap pears to have taken the orders of Gen. Finding himself snubbed by the silitary authorities and his political aspirations hwarted by the recognition of Governor Welles by President Johnson, he has concluded to return to be more genial atmosphere of Massachusettshere to remain.

-Women make shoes at Haverhill, Mass., and are said to be expert workwomen-making a pair of shoes as well as "any other man."

-Carrol Hall, at Court Hall, where Jeff Davis is now confined, is a large brick bullding wherein probably a greater number of the old army officers have at different times quartered than any other in the country-where Davis himself, probably, in his younger days, roomed and messed. It is suggested that he may be tried there. In the building is the most extensive military library in the country, coilected when the post was the school of instruction, whereat many of the most distinguished officers, and both sides, attended, alternately pupils and instructors. "Court Half" is little less than historic.

She was summone i, and came on in charge of Mr. Emmerson, the balliff of the court, from the Plains of Dura, near Andersonville, where Wirz's family resided during the latter part of Wuz's term at Andersonville, they having come to that place from Tu-caloosa, at which place she resided after leaving Vicksburg. -Anson Burling one, Amer an Midster to China, gave a private entertainment to Sir Frederick Bruce. English Minister to the United States, on Saturday evening, at the Parker House, Boston, Among tre company present were Governor Andrew, ex Governor Boutwell, Hon, Samuel Hoper, Hon, Alexander H. Rice, Professor Longfellow, Professor Lowell, Dr. O. W. Holmes, Mr. Edvin P. Whipple, and Mr. Pompelly, as eminent citizen of New York and a man of large scientific attainm mts, who has travelled in China, visiting Pekin, and passed beyond the great wall into Mongolia, and thence into the Russian territory. At seven o'clock the party sat down to an elegant dinner, served in the hear style of the hotel .--The evening was marked by high social enjoym na. The relations between Sir Fundarick Bruce and Mr. Burlingams are the fithe closest friendship, esmented by years of daily intere wree at Pekin. >

-The late William Bostwick, of New Haven, left \$40,000 to the Southern Aid Beciety.

-Alady's yacht is thus described in a letter from Cherbourg France: "Besides the yachts (English) organized in a division, a great many others have arrived, and have anchored in the roadstead, opposite the mercantile port. One of them belongs to a widow lady, who commands it herself. She has with her a daughter of eleven, a son of fourteen, a governess, and three women servants. Under her orders sha has twelve sailors, besides an experienced merchant captain, whom she has taken into her pay, and who assists her with his advice, but does not com nand the ship. The lady is gracious and amirable, and speaks French correctly. Her vessel is in perfect order. She told us that it would be open to all visitors during the feles-that her captain would receive the gentlemen, and she the ladies."

THE NEGRO MILLENNIUM .-- The following appears as editorial in Pais n Brown low's Kn xville Whig of August 28 :

A census is being take of he colored people of M mphis, a. d eroth has been developed to sto w that the ager ga' - number of blacks will overro ch twe ty the u-ind-is sail will reach twe ty-five thous of. Going South to L CATE - Very few, perhaps, imagice the number of Union soldiers who, since the close of the war, have located in the South. May a man, under the garb of a private soldier, carried a keen observation and a shrewd calculation, which enabled him to appreciate the undeveloped resources of the country through which he passed in the march of the Union armies Not a day goes by but that numbers who have carried a musket during the war, or served their country in an effect's uniform, having visited their friends at home, and arranged matters to their satisfaction, pass through the city bound for some locality in a lately rebellious State. Only this morning we met half a dezen who, a few months ago, were serving t eir country under Gen. Thomas in Tenressee. They were now on their way to North ern Alabama, where they propose to locate p rmanently, having become enamoured of the country and climate of that portion of the State. They stated that as many more would follow them from their native county in the course of a few months. The South opens up a magnificent field for Ya kee skill and enterprise, and we are not surprised to find that some of our Buckeye boys have determined to develop a little of its hidden resources - Cincinnati Times.

#### THE CITY.

DISAGREEABLE REP RTs - We deem it prodent and wise to meution that letters received here from Norfolk allege that cases of Asiatic cholera have occurred recently in that city. Our own impressions are that such statements originate in misapprehension of the nature of the disease which has swept off without premonition old and valued citizens. So tar these reports are from persons not experts in medical science, and enough the authors are veracious, may be received with some doubt. We say this much in the idea that if such statements obtain general circulation, our people may know the measure of credit to be given them. But even the bare rumor of such things ought to be sufficient to fire the citizens of city, county and State with new zeal in behalf of all sanitary precautions. Let us exercise the largest possible prudence in diet as well as cleanliness, and whatever may be the fact with respect to the cases meationed, we shall be in condition to be benefitted thereby.

Going GLIMMERING.—The uugain y, abominable 'waterfalls' are about to be tabled, and as the friend I clegitt fashious we are greatly rejuced at the prospect. HATS IN THE FUTURE .- We admonts : d ders in unit relias of the imperided condition of their stock of si k and cambric. Fashion is a despot of match as mover a deritrary beyond parallel. AUTUMNAL - There has ne n quite a tinge of the utumus! season about morning and night since last Minday, and sportsmen must have telt disposition to a k after the condition of their ponches, game bays, fishing rods and the like. The partridg pipes in the studile, the equirrel sends forth his snarp and shril bark from trees; fish are said to be taking the book treely, and game of all kinds we presume is abundant. It is a fine season for the "sports" after the heat and ennui of the summer solstice. We wish them

ELECTION DAY .- I'd day the people of our cit y and county will be called to exercise the highest office of civism: the elective franchise. We venture to express the hope that as becomes freemen they will not only weigh the responsibility of their action, but duly estimate its dignity. Let us have at the polls and away from them unvarying exhibitions of moderation, good will and quiet dispositions. Such conduct will be equally honorable to the friends of all the candidates, and alike creditable to us as North Carolinians.

Row and Fight. - We learn that a row and fight between two tederal soldiers occurred Tuesday night, at a colored woman's house, in the neighborhood of the Baptist Grove, during which knives, pistols and shillaichs were brandished extensively. One of the combatants was so roughly handed as to create the report that he would die from the effects of his injuries. He is, however, still living and considered

CAN'T TELL -A lady asks if it has been definitely settled to hold the next Conference of the M. E. Church in this city. We infer that such is the expectation, though we are not advised of any decision having been reached. It will require some time, we suppose, to hear the sentiment of the churches on the sulject, and until that is done we conclude the question will remain open. Our c tizens, we believe, of all denominations, would be glad to have the meeting heid bere.

CLEAN UP -In a wak round town yesterday, we saw in a number of localities an absence of that thorough cleanliness which should distinguish us at this season. Of all months, September is perhaps most dangerons to health from hygenic considerations with which all are familiar. Lt us, then, as one man, look to our premises frequent'y to see that they are kept in a proper state of police.

Opening - We observe that our neighbor friend, Kinsky at the corner of Poyetteville and market streets, is opening one the largest and and purer tly as file stock of goods as as a late troduted into this market. We in voice it attaches spect and shall do so, promising then to spick and a enter, rise as it merits.

RATHER IMPROBABLE -By the train last evening we had the report that a body of colore I troops were on their way to this city for the purpose of garrisoning it. We have no confidence at all in the story; indeed, regard it as altogether improbable. Late orders from the war department as well as the disposition of Maj. Gen. Ruger forbid us crediting the suggestion and we reject it as a live mistake committed by some unreliable person.

TAKING THE OATH -- We learn that quite a number or persons took the amnesty oath yesterday, in order that they might be qualified to participate in the election. The same process of swearing in will be carried on to-day, we suppose, as a goodly number of the electors are believed to be still nuregistered; in other words: to have omitted the formality stipu'sted in the amnesty proclamation.

DISAPPOINTED - Up to the latest moment of time ast night, the people hoped to hear the candidates for the convention from the hustings. They did not reach Raieigh in season, however, to gratify the pop uiar wish and thereby desappoint d many folks,
