THE CITY.

GURES FOR THE CHOLERA .- We mentioned yeserday the report that several persons in Norfolk and Portsmouth had died from attacks which letters from that vicinity pronounced as a species of cholera. Whether the opinions expressed by the writers were or were not well founded, it is certain that the reports of the present visitation of cholera, which were carefully disseminated some weeks since, have proved incorrect, and Europe is now under a visitation of the epidemic. The usu l alarm is experienced-one class of persons accepting its coming as a dispensation to which we must submit and another class devising modes to mitigate the severity of the visitation and to cure the disease.

One writer declares, very rationally, that cleanliness, good food, regular habits, will almost secure a person or a place; and where these are wanting there is no security.

Another assures us that cholera, in its first stage, can always be successfully treated, unless the system is weakened by other diseases, by dissipation, or by some special cause. A Rev Dr. Hamlin suggests this cholera mixture: Equal parts, by weight, of liquid laudanum, spirits of camphor and tincture of Rubbard; which has been used not only by him, but by many others with the greatest success in meeting the first stages of the diseases. If diarrhea is carefully kept ff by the use of this mixture, the danger of the cholera is said to be very slight.

A NEW HAT FOR THE MASCULINES .- The ladies have enjoyed an exclusiveness in the matter of hats for so long a period, that we had begun to think the other sex would have no change in the future in their head gearing. But one of the principal hat dealers in Paris has originated a new style of covering for the head, for gentlemen, which promises to supplant the ordinary beaver hat in all fashionable circles. The beaver hat, in fact, has sustained nearly all the possible transmogrifications of form that art could suggest, and both people and makers have grown weary of it. The new chapeau combines the form of a turban, a shako, and a helmet, advancing considerably beyond the head in front, and sloping down at the back part. The materials used are silk, enameled paper prepared by a peculiar process, and a very narrow gilt band. It has a prculiar method of ventillation and is altogether of a very jaunty and semi-military appearance.

We hope that the new hat, when it comes over, will be fashioned with some reference to the shape of the heads of the human family. With his spir it of going-ahead, it would not surprise us if Kinsay should at an early day expose them for sale at his truly tasteful establishment.

WHO IS HE. - We hear that a few days since a suspicious looking customer, representing himself as formerly an adjutant in the U.S. army, was passing about Raleigh, pretending that he had superceded both 'he associate editors of this paper He is an errant imposter, in whose statement there is not a particle of truth. Not long since, we extended an invitation to gentlemen whom we knew to contribute to the city department such items of news as they might be able, but no such man as the one referred to has any connection with this jour-

THE TRUTH OUT .- The Progress has frequently cautioned its readers against accepting the different denominations of the national currency without examination. Papers at a distance have as invariably denied that notes of a counterieit character were in circulation. Now we have it direct from Washington that \$100 compound interest notes of a spurious kind have been uttered in large numbers, together with other counterfeit notes. We therefore repeat our warning to merchants, tradesmen and others.

VERY, VERY HARD -Ther- are a great many hard things in this world; for instance, "bard cider," "hard knocks," "hard crabs." "hard fortune," 'hard times," "bard at it." "hard trials," "hard to tell," and hardest of all, "hardware," under which denomination come a whole lot of iron and steel jaw breakers, which we cannot by any means enumerate. If, however, there are those who wish to be made familiar with the technicalities of the hard ware trade, we refer them to our friend CARRAWAY, with Heart & Lewis, who has in store a large and g neral assortant.

THE RIGHT WAY -It is intim ted semi-officially that the Baptists of Raleigh are making area gements for a substantial expression of the esteem it which they hold Rev. Mr. Pritchard, lately in pastoral connection with their church. It will be in the fam, we believe, of contributions to aid in rebuilding the church of which he is now pastor in Pererturg, which, our readers will remember, was recently struck by lightning and totally destroyed,

SEE TO IT. - A citizen represents to us that there ought to be something done by the proper authorities to remedy the stench arising from stagnant water in the immediate vicinity of the pump at the market house. An examination of the spot will show, we think, that the fault is with those who use water from that place of supply, resulting from careless drawing and spill ge. At all events, it will doubtless be remedied.

ATTEMPT TO KILL .- A soldier formerly connected with the 47th New York infantry, who arrived here last night from Gotham, relates that some of the command had made an attempt on the life of Lieut Col. J. M. McDonald, lately in command of the post of Raleigh. His friends here will be pleased to know the attempt failed.

THE ELECTION-for members of the first state convention, which is to convene in Raleigh on the 2nd of next m nth-took place yesterday. In this city the vote was for Hood 73; Moore 539; Hodge 554: Harrison 577; and Pennington 31.

We endeavored to gather o ther returns, but did not succeed up to 8 o'clock last night. If any come to hand they will be found elsewhere.

LOST HIS MONEY .-- A soldier named Jamieson. without the prudence his war experience ought to have infused into his composition, fell asleep yesterday afternoon, near the door of the transportation office at the North Carolina depot, and was relieved of his pocket-book and twenty dollars. Such is the fate of all who trust to "naps" on the street.

Fun .- Sanford's "Grand Combination Operatic Troupe" will commence a series of popular entertainments at the Exchange Hotel, this evening. We are reminded by our informant that this is one of the most popular concert organizations in the country, north or south. The programs will be issued during to-day and to them we point for particulars.

Allowed Ball .-- We hear that the students at Chapel Hill, and a few other white persons, who were brought to this city a few days since upon the charge of disturbing a negro convocation in the vicinity of the University, have had a preliminary examination and been admitted to bail in the sum of \$1,000 each, for their appearance here to-morrow

GEN. BUTLER AGAIN. - Gen. Butler, with an eye to the nomination for Governor, at the Republican Convention at Worcester, Mass., advocated negro suffrage in a speech in which he threw himself into the arms of the Massachusetts Radicals, upon that and kindred sunjects. Col. Bullock, however, received the nomination that Ben sough, and so the General had his trouble for his pains. That point having been decided, Butler's chance is now to retain his commission if possible. A proper sense of disgust also, will probably induce him to keep quiet hereafter on political subjects. He has deserted the Democrats, and the Radicals will have none of himwhat is he to do? Let him deliver one more speech when the sword subscribed for by his negro friends is presented to him, and let that speech be his last. He is neither ornamental nor useful. Humanity has been vexed with him long enough, and public opinion demands that he remain quiet hereafter .- Commercial Bulletin.

THE CONFEDERATE ASCHIVE .- The Bareau of Confederate" Archives, under the charge of Dr. Francis Lieber, is now at work upon the examination and classification of the five numbed boxes of archives of the late Confederate Government. These documents relate to every department and period of the rebellion, and cover the arger part of its civi and military history. The title of the bureau has been changed to the Archive Office of the War D partment.

De Sauty is understood to entertain the opinithat the water spout seen sometime since a thou sand miles or so west of Ireland, was the identical spout the Atlantic cable has gone up. Others co tend, however that it has not gone np at all, buhas simply "gone under."
