## Seizure of \$111.000 in Counterfeit Treasury Notes and Fractional Currency-One Man Arrested-The Police in Search of Others,

About two months ago Francisco Bohagar, an Italian, thirty three years of ag , hired a dark, dingy room in the rear of premises No. 5 Goerck street, and although seldom seen by his neighbors, it was observed that a good many men, apparently from the c untry, visited Bohagar's premises, usually leaving with packages under their arms. These facts were soon noised abroad, and eventually came to the knowledge of offi er A derson, of the Thirteenth precinct, who immediately consulted with Capt. Steers in regard to the matter. It was soon devided to arrest Bohagar and yesterday officer Anderson took him into custody. As the officer tapped him upon the shoulder Bohagar threw away a bunch of keys, which were se ared by the officer. After taking the prisoner to the station house, Captain Steers, accompanied by officer Anderson, visited the p is ner's room, in which they found a trunk, mattress, chair, and an old stove On pening the trunk, which one of the prisoner's keys fitted, large amounts of spurious Treasury notes of the denominations of \$5 and \$20 were found; a so fifty cent postal currency of both issues. The trunk was c nveyed to the police station and the money counted, when it loomed up to the magnificent sum if one hun ired and eleven thousand dollars, done up in one thousand dollar packages. 'I he bills are printed on poor paper, and in no respect are they calculated to deceive good judges of money.

The prisoner's room doubtless was the depot for the sale of the spur ous money, and the countrymen seen visiting his place doubtless were purchasers for the Western and Southern markets. At different times, according to reports made to Captian Steers, men in carriages were seen to visit Bohagar's premises, taking with them large bundles. These men, in all probability, were the manufaturers of the bills which they were furnishing Bohagar. It is believed that very lorge amounts of this coupterfeit money have been circulated in portions of the country where the people would be least likely to suspect its true character. At what rates the stuff sold did not transpire.

The prisoner pretends to speak the English language but imperfectly, and has little or nothing to say about the difficulty in which he is so deeply involved. He peremptorily refuses to disclose any facts going to show who are the principals or his accomplices in this wholesele attempt to flood the country with this counterleit money. Captain Steers, with officer Anderson and other members of his force, however, are making strenuous efforts to dive deeper into the mysteries of this counterfeiting scheme, and with a fair prospect of success.- N. Y. Herald 29th.

CLEANING OUT THE CONGRESS .- We notice underneath, the great accumulation of mud and saud between the ribs of the old Congress, now in the dry dock, and which is being rapidly cleaned out, that hundreds of barrels of salt junk, in a tolerably well preserved state, are being taken out by the workmer. Some of these barrels have been opened, and those who have cloked and eaten the beef, tell us it is just as good as any other salt heef put up in ordinary naval stores. This beef has been at the bottom of Humpton Roads for three years and six months.

VOL. VI.

A great number of water casks, some of which are very good, and will be used, and some twenty or thirty man-of-war iron tanks, which fit between the vessel's timbers, are being taken out.

Any quantity of eld iron, ordnance, gau-carriages, cables, hawser's, &c., are bei: g recovered.

Visitors are at the dock every day to view what remains of this remarkable old trigate which was the first victim to prove in this " age of iron," how worthless are wooden walls.-[Norfolk Old Dominion.

THE FUNERAL OF COLONEL DAHLGBEN .- The remains of Colonel Ulric Dablgren, who was killed on Kilpatrick's raid near Richmond in March, 1864, and whose body was recovered about six mouths ago, taken to Washington and placed temporarily in a vault at the Congressional Cemetery, were on Monday removed and placed in the Council Chancher, where they remained until near noon, the burial casket being draped with the national colors, while over the corpse was flung a mammoth flag, on which was a profusion of flowers and a photographic likeness of the deceased. The body was afterwards taken, under escort, to the First Presbyterian Church, where a funeral sermon was preached by Rev. Henry Ward Beecher from the 24th verse of the 20th chapter of Acts. After the close of the ceremonies the remains were escorted to the depot, accompanied by the family and friends. On the arrival of the train in Bultimore they were taken in charge by a number of General Hancock's officers and escorted to Philadel-

Je Persons in city and untry are requested, at all times, to furnish us verbal written information of any events of public interest whh may transpire in their neighborhoods, or of which ey may have knowledge.

A BIG FIGHT. - There is a grand scene at the Freedmen's Fair, in Guios hotel, which did not appear on the bills. At late hour Saturday night and just before the close of the entertainment, a row occurred between te or twelve freedmen, a few of whom had been taing an overdose of chainlightning or tangle-tail piskey. Sticks, knives, and other weapons were ued with effect, particularly upon John Doran, no received five severe cuts on the arm and perhas as many on the side. He is very badly damaged & were several other participants in the melee.

The parties to the affray wee Bill Boylan, Scott Tucker, Henry Smith, Luke Copeland, Bush Boylan alias "Bushtail," Henry Mitchell and the aforesaid Doran. The police poinced upon them in the nick of time, captured and mprisoned all the belligerents who were not wounded, and left the latter to the tender mercies of theambulance corps.

A REMINDER. -Deviljoe, sheetious knight of the quill, invokes the following anathemas upon men who won't pay the printer. If there are patrons of the Progress belonging to theclass referred to, they should at once "come down" with the small balance due :

May he never be permitted to kiss a handsome woman.

THANKSGIVING DAY .- The President having designated the first Thursday in December as a day of general thanksgiving for the restoration of peace throughout the land and the triumph of the Union in the late civil war, we hope that we shall have here such an observance of the occasion as will be creditable to our people. The day appointed is one week later than that generally selected for such services-the last Thursday of November-but there is no doubt it will be distinguished above all its predecessors in many respects.

CARELESS-Many of our citizens in not properly fastening their houses. At this time when so many worthless and idle persons are roaming through the country, it is very unsafe to have shutters and doors unfastened. We hear of an instance, transpiring last Saturday, where some unknown rascal entered a yard and took a clock and two dresses from a table near an open window. The trick was only discovered after the thief had passed away.

MORE VOTERS .- The private secretary of Governor Holden announces that the following persons additional to those already announced will be entitled to vote next Thursday :

Forsythe-John G Sides. Cabarrus-Laird Alexander Samuel Pharr. Randolph-M Shaw. Northampton-Thos Goode Tucker. New Hanover-Wm B Giles. Lenoir-Nathan B Whitfield Carteret-Josiah F Be l.

SHOT AT .- Sunday morning, about 1 o'clock, a gentleman passing down Fayetteville street, saw a May he have sore eyes and a chesnut burr for an a man jump over a fence with shoes in hand, and regarding the action with suspicion, called on the apparition to halt. The gent in socks refused, when our friend opened on him with pistol. He frightened if he did not hit him, and male the retreating figure put up a piteous howl.

The New Orleans True Delta, of October 21, 5315 that Hon. Duncan F. Kenner, a distinguished menber of Congress of the late Confederate States, had reached home after a long absence. He has received a full pardon from the President, which is equivalent to the restoration of a large and valuable estate. Considerable excitement exists in the town of Danvers, Mass., consequent upon the discovery in their coal bins, by a number of families, of several torpedoes. A Mrs. Dard discovered the first one, by its explosion in her range, which burst with terrific force. How they got into the coal bins is the present mystery. -Dr. George W. Bagby, of Richmond, well known to the literary world as Mozis Addums, and who acquired an enviable reputation when editor of the Literary Messenger, is engaged in the collection, for publication, of materials for a work to be entitled "Anecdotes of the War." Dr. Bagby, whose pen is ready and graceful on any subject, peculiarly excels in the humorous style, and this contribution will be a valuable addition to Southern Literature.

-----The "reaction" predicted by the Copperheads, which was to restore them to power, seems to be farther off than ever. The elections in 1865 have resulted as follows :

Vermont, Union mejority, 20,000 Maine, 22,000 Penusylvania. " 25,000Ohio. 30,000 lowa, 20,000 Kentucky, a Union gain of 34,000 New York will join the column in November, and

New Jersey will take her stand on the right side .--Massachusetts, Minnesota and Wiscosin will swell the list of Union majorities. The Democracy "as it is." may as well postpone the reaction indefinitely.

New York and New Jersey hold their elections tomorrow. The result is awaited with much anziety. The runter is that Earl Russell will accopt the Premiership, but nothing has officially transpired, the Quein being absent in Scotland.

FOR THE LADIES .- The latest agony in the hat line is said to be composed of straw in the main, and the form after the manrer of a mushroom running up into a sort of rounded peak and running down in the similaritude of in inverted dish. The horrid thing, we trust, will not be patronized, by our fair townswomen. If fashion outrages good taste, they should put their little feet down on it in the outset.

But the cutest thing of the times, we saw in the hands of a lady yesterday—a new style muff. It is in the shape of the morozco bags which ladies carry when they go out shopping. A pocket for the purse and another for the handkerchief are in the muff, and there are also cord and tassels to go around the neck. Now this is something both elegant and unique, which ought to be extensively patronized.

THE FIRST NAVAL OFFICE: PARDONED .- We have the pleasure to announce that Capt. John J. Guthrie, late of the confederate navy, and previously lieutenant in the U.S. N., has been pardoned by President Johnson.

He is a native of this courty and served an apprenticeship in Raleigh at the book-binding business with the late D. Lindenan, a respected citizen of Raleigh in 1830. Our oldest inhabitants will no doubt remember him, and from the example of his apprentice, Capt. Guthrie, joung folks may borrow encouragement. Perseverance will bring promo-

THE NEW COUNTERFEIT .- The new fifty-dollar counterfeit United States note, which we recently described, is considered by many bank officers as one of the most perfect imitations ever issued. The vignette, which is the head of Hamilton, probably presents the best mark for distinguishing between the genuine and counterfeit. On the former the buttons of the ceat show distinctly, while on the latter they can scarcely be seen. As the vignette of the United States twos is the same as that of the fifties, the public should be well on their guard, as it is not improbable that the parties who put the fifties afloat are altering the same plate for twos.

-----UNPLEASANT DAYS .- During Friday and Satur- [Washington Intelligencer. day this section of country was favored with a deluge in miniature. The sun was totally obscured for nearly forty eight hours, which with the rain made out door movements very unpleasant. Business was confined principally to the inside, and all classes of tradesmen looked exceedingly blue. Yesterday the wind blew up cold and fresh from the polar regions-men buttoned up coats and the fairer part of the world appeared cloaked and muffed. The sun came out merrily, however, and in spite of wintry sensations people appeared to rejoice on account of the change.

GODEY FOR NOVEMBER. - This serling periodical has been received and sustains most fully its hitherto high reputation. We regard it as the best publication of the kind in the country. We remind our lady friends that this is the month in which to begin to form clubs so as to commence their subscriptions on 1st of January.

GOOD APPOINTMENT .- James E. Nash has been appointed agent for the national express company, to reside at Newbern. ARRESTED .- We are informed that Officer Betts yesterday arrested a negro who had in his possession a bolt of cloth and several other valuables of which he could not give a very intelligent | account. He was locked up.

ON DIT--that a man named Ray was thrown from his buggy yesterday, near Rolesville, and so badly injured that he died in a few hours. We trust there may be no foundation for the report, or that the statement may prove to be highly coloured.

GRAIN, &c.-At a recent sale of produce, near the city, cash down, corn brought \$4 per barrel, fodder and shucks \$1 per hundred, and wheat \$2.80 per bushel. We believe these prices are considered fair.

KINSTON .- Gov. Holden has appointed J. B. Cummings, Esq., mayor of Kinston, vice Henry R. Strong, dec'd; and Bryan McCullers, commissioner, in the room of the newly appointed mayor.

General W. B. Franklin was in the city on Saturday, and had an intervisw with General Grant and the President. The General has been offered the position of President of the Colt's Arms Company, with a salary of \$8,000 a year and an interest, and is about to resign his commission in the army to accept it. General Franklin's name is intimately associated with all that was maply and patriotic when the war began, and whatever sphere of life he may engage in he will be sure to receive the respect and admiration of all who appreciate integrity and personal worth .-------The Buffalo Courier, the mouth-piece, in Western New York, of the Van Buren Democracy, goes for the assumption and payment of the rebel debt, quietly trusting its party to slaughter the Federal debt. In the North Carolina convention, while the Hon. B. F.
