WASHINGTON NEWS AND EUMORS.

It is said that Gen. Sickles is to relieve Gen. Gilmore at Charleston. According to the correspondent of the Herald, the government wanted a man there of "enlarged and liberal conception."

Kilpatrick, the famous raider, who has been appointed Minister to Chili, is said to be "instructed by the Secretary of State to substantially advocate the Monroe doctrine abread." President Johnson has directed the body of Capt.

Wirz to be interred in the penitentiary yard, next to that of Mrs. Surratt.

The Washington Republican save it has the positive assurance of Hou. Elward McPherson, Clerk of the House of Representatives, that he will not enter upon the roll of the House or call the names of the representatives of the late rebellious States, but will leave them to present their credentials to the House.

State Items.

Thirty or firty bales of cotion were destroyed by fire, on the line of the Wilmington and Manchester railroad, a day or two since.

from the third district.

Energy in business, says the Newbern Times, is the thing to bring success. Our principle shipping houses here, Whitford, Dill & Co., and W. H. Oliver & Co., realizing the truth of this, are plying their energies in a way that must tell to advantage, not oply in their cash accounts, but in the growth and prosperity of business in our midst. When a vessel, carrying three or four hundred tens, can be discharged and reloaded in two days, as the Charles B-nton was, on Friday and Saturday, by Whitford, Dill & Co., we may know that the agents are in earnest. The President and Superintendent of the Wilmington and Weldon road have returned in m the North, and, we are pleased to learn, have been successful in making arrangements with the government. as well as with other parties, which will enable the is the part of wisdom to have it in operation. We company to complete necessary repairs, as we'll as to operate their road efficiently. The new President, Mr. Bridges, is evidently the man for the occasion-active, energetic, persevering and indefatigable, and well sustained by Col. Fremont, General Superinter deut. The meeting of stockholders of the First National Bank of Newbern was quite full on Saturday, and an organization was effected by electing the following gentlemen as directors : D. Heaton, Geo. Allen, J. M. Satterlee, Wm. P. Moore, J. T. Hough, Moses Patterson, E. Hubbs, Samuel B agge, J. Leland. Friday merning, at Wilmington, a man by the name of Henry Howard, from Smithville, N. C., very suddenly died, it is supposed from blows or kicks inflicted by R. Bate. Coroner J. C. Wool, as soon as he was notified of his death, empanneled a jury and proceeded immediately to hold an inquest upon the body. The following verdict was rendered by the jury "The jury find that the deceased, Heury Howard, came to his death by rupture of the bladder, caused by some external violence, inflicted in some manner unknown to the jarry, in of at the store of R. D. ne, situated on the south side of Market street, between Front and Second streets, in the town of Wilmington, on or about 2 P. M., on Tuesday November 7th, 1865." It seems that Howard entered the store of Bate on last Tuesday afternoon, and, acting in a manner very unbecoming a gentleman, was ejected by the latter, when he is supposed to have received the internal injuries from which he died. No one else, it appears, was present at this occurrence.

THE CITY. Persons in city and country are requested, at all

times, to furnish us ver al or written information of any events of public interest which may transpire in their neighborhoods, or of which they may have knowledge. AFTER HIM SHARP-The Standard understands that a couple of ladies arrived in this city a day or two ago in search of a gay deceiver in uniform, whom they accused of loving, if not wisely, at least two well. It seems he had married one of the ladies in Maine before the war, and afterwards, having joined the army he tied up with the second in Baltimore. The first spouse heard of the second, visited her in Maryand, found the report true, and the injured pair came on to Raleigh, artiving just in time to brak up an arrangement on the part of the gay Lothario to add another to the list of his pictims.

The truth is, no laby should venture to marry any stranger except upon the most indubitable ascertainment of his position and character. In T. C. Fuller, Esq., has been elected to Congress fact, we question the safety and know the impropriety of ladies entertaining or receiving persons of whim they know jothing. We care not from what cuarter a man may come, unless endorsed by circumstances or the certification of parties known to those whose acquaintance is sought, he should not be welcomed to the social circle. Refinement demands such policy and no true gentleman would, if he could, have such safe-guards of innocence disregarded.

AUCTION Bills, Business Cards, Circulars, Bill Heads, and in fact printing of all kinds done at the PROCEESS OFFICE with promptness and in the best style of the art; and as our facilities for printing are more extensive and better than those of any other establishment in the State, at lower rates than the same can be done elsewhere.

TALLOW DIPS .- There is a probability that an extraordinary demand for tallow dips will soon exist here." A merchant on Fayetteville street was making inquiry for four boxes, night before last, with which to see the gas burn. That same "old coon" of a darkey has been again looking into the furnace.

A New LIGHT .- The Springfield Republican says a stock company is forming in that city with a capitil of \$125,000, to manufacture "Irwin's portable self-acting-gas apparatus," which is described as follows :

" There are no pullies, weights or machinery of any kind, but the napths is poured in at the top of the apparatus, which is not unlike an ordinary gas meter in outside appearance, and comes out at the bottom, at pleasure, a gas which burns with a flume that is beautifully mild yet brilliant, and always steady. The light is far superior to that given by coal gas, while it costs only \$1 50 per thousand

-Hon. J. L. Manning, who has been elected United States Senator from South Carolina, was Governor of that State in 1852, but has held no p litical post of distinction since that time. He was a delegate to the Chicago Convention which nominated Buchanan, and a member of the South Circlina Convention which adopted the ordinance of secession. Though he signed the ordinance, his beart was not enlisted in the movement, and he retired to private life after the Convention adjourned.

-" Whar," asked a renowned stump orator, who was running for the office of constable, " whar, my enlighted friends of the Sixty-sixth Militia district, was Andrew Jackson in the battle of New Orleans? Wur he thar ? lie wur. He wur ridin' up and down on a bobtail Arabian, a wavin' of a crooked sabre, up to his armpits in blood and mud, and a givin' of the British thunder ; the genius of his country a holdin' of her agas over his head, cotton bales paveneering in front to pertect him from every danger, and the American eagle, with the stars and stripes in his beak, a soarin' aloft in the blue cmpyrean, cryin' Hail Columbia !"

-The Farragut Court Martial on Saturday heard several witnesses in defence of Commodore Craven. Acting Ensign Bernard C. McGill testified that from what he had heard from the Spanish officers, the rebel ram Stonewall was too formidable to attack without instant destruction to the assailing vessel.

LATEST BY MAIL.

We compile the following from papers received st evening :

GOVERNOR BROWNLOW ROBBED BY HIGHWAYMEN. NASHVILLE, Nov. 10 .- Governor Brownlow and Colonel Maynard were robbed on the Franklin pike vesterday, some ten miles from this city. They were driving carelessly along the read when three highwaymen suddenly presented themselves. One seized the horse, while the others presented pistols to their heads, and demanded their money. As no choice was left, Governor Brownlow handed over five hundred collars and his watch. They were then permitted to roceed.

An important suit-the United States vs. the outhern Methodist Publishing House-was disbissed yesterday, the defendant paying costs.

CRIME IN HIGH LIFE IN CANADA.

The Hamilton Times, Upper Canada, in the following paragraph gives an intimation of a deplorale state of society in Canada-the result of official corruption and of the deference paid in British dependencies, as at home, to a spurious aristocracy :

Barke, Now's THE TIME .- It is said that this city has Gaston. never had an efficient fire department. Whether Randolp the statement made to us be true or false, there is Johnson. a growing necessity ir such an organization and it Davidson Wilson, Edgecon hear that the hose of ned by the corporation is, if Halifax, not worthless, in bal condition ; that the cisterns Wayne, are dry as powder and out of repair, and thus we Caswell,

find some of the reasons why the rates of insurance on property have up to present figures. Of course no combination could be made to constitute an effective fire department without apparatus and adequate supplies ofwater, but a body of men can be organized who, it cases of emergency, would cooperate and work systematically.

We respectfully aggest to the city commissioners, until hose and other necessary things can be procured, that some one be appointed chief of the fire department and requested to enroll a company or companies, to be organized with such regulations as the membership may decide to be best. Those who witnessed the confusion at the fire a week or so since, will fully endorse our suggestions.

Sensitive Fashion.-A new fashion has just been inaugurated among me ladies and it is one of the few late introductions in dress that it is to be admired-the wearing of reasonably short skirts. It is true the filby trailing skirts were admirable as a municipal a rangement, as they completely rivaled the previcts plan of having street sweepers and almost desroyed the vocation of scavengers. But in spite of his, the recently prevailing fashion is about to be dscarded for neat, clean, short ones. The ladies who lave the advance in this revolution of mode among is, are entitled to admiration and credit for their good sense and taste. There is a modest medium or street dressing-not too low at top nor too high t the foot-which we should be pleased to see unversally practised here. Extravagance ought to 'e repudiated.

A MATTER OF MEAT .--- In our market, recently, beef has been sole at from six to seven cents per pound from county carts. This price evidently remunerates those who sell and yet we hear that the butchers retai the same kind and quality of meat at 15 and 20 cents. The difference between the two classes of ellers shows one of two things : heavy loss to thos who part with it by the quarter or immense, urreasonable profits for those who retail it. We make the comparison in the hope of inducing a more literal scale of prices for persons who are necessitatel to purchase in second hands. It is high time that all classes of tradesmen were returning to first principles and becoming content with masonable prote-
