LATEST BY MAIL.

From Mexico—Capture of Gen. Ortega.

HAVANA, Nov. 8.—The defeat and capture of Ortega in Michoacan has been the great reverse which the Mexican Republicans have just sustained, and its importance will be appreciated when it is stated that, organized by the General just named, and by General Regules, that party occupied posts which enabled it to control all the trade and activity of the district. It is curious to remark that this force, divided into three bodies, had annihilated or destroyed within the period of a few days. One division, under Palacio, wished to surprise Morelia, but was balked by the firmness of its Belgian garrison—Another party, under Lepeda, marched toward Reges, and was cut to pieces by Colonel Carrido. The remaining division was dispersed by Colonel Mendez. The total number to the three corps was about two thousand and two hundred, and Ortega, at the time of his defeat, had one thousand and two hundred men with him. The encounter took place at Santa Anna Amatlan. Four hundred remain prisoners, including their General, five Colonels, and a great number of officers of other grades. The arms, horses and baggage were captured also, while the fugitives dispersed in all directions.

NEW ORLEANS, Nov. 15.—The latest Brownsville advices say that the Liberals, under Generals Escobedo, Cortinas, Canales and Mendez, are vigorously continuing the siege of Matamoros. They captured, on the 6th, the steamer Rio Grande, and brought her to Clarksville to change her to a gun-boat. The Liberals held the river above and below the town, which has been evacuated by the women and children, who have sought refuge on the American side. It is thought they will capture the place. While the Federal forces on the American side of the river were enthusiastically cheering the progress of the Liberal besiegers on Thursday last, the Imperial steamer Pessano fired four shots at them. The casualties by this strange proceeding are unknown.

Hon. George Davis, of North Carolina, late Attorney-General of the Confederate States, arrived in New York Wednesday, having been arrested in Florida. He will be carried to Washington.

Governor Morton's message was delivered to the Indiana Legislature on Tuesday. It treats of various State matters, recommending the repeal of the statute excluding negro testimony from the courts, and approves of President Johnson's reconstruction policy, advocates representation in Congress in proportion to the voting population, and expresses the opinion that the public safety requires the trial of Jeff. Davis for treason and other crimes.

Colonel Taylor and Rev. Mr. Reid, of the Indian commission to the Northwest, report the conclusion of treaties with nine tribes of the Sioux nation, the treaties stipulating for peace among the Indians themselves, as well as with the Government.

Action on the many applications for special pardon is nearly altogether suspended by the President, whose time is occupied with the important character of business of a pressing if not more important character.

—Gen. Albert Pike, of Arkansas, was in Petersburg last Thursday.

—One county in Tennessee, Wilson, was damaged \$7,800,000 by the war.

—The War debt of Texas is estimated at \$9,000,000.

—Pithole is a hole of some value. It gives \$200,000 worth of oil per year.

—J. C. Moberly, of New Market, Maryland, a student in the University of Maryland, was arrested and sent to prison on Thursday by the military authorities of Baltimore for alleged disloyalty. He cheered for Jeff. Davis, and wished the Yankees in a very hot place.

The young men indicted for riding an aged man named Wheeler on a rail, in Gloucester, Massachusetts, on the day of President Lincoln's funeral, are now on trial before the Superior Criminal Court sitting at Lawrence.

The Brandon, (Mississippi) Republican says that some negroes formerly belonging to Joseph Hudnal, Esq., and who left him during the war, have recently written him a most piteous letter, asking him to let them come back and live with him as heretofore.

THE DAILY PROGRESS.

VOL. VI. RALEIGH, SATURDAY, NOV. 18, 1865. NO. 314.

State Items.

The steamer Twilight, Capt. Spicer, bound from New York to Wilmington, with merchandise and passengers, went ashore at New Inlet bar, directly abreast of Fort Fisher, at four o'clock on the morning of the 14th inst. The revenue cutter Northern, Capt. Henriques, went to her assistance early in the morning, but was unable to render her any aid until high water in the afternoon, at 3:30 P. M., gave her a hawser, and after several attempts failed to put her afloat. Five o'clock in the afternoon, took off her passengers, mails, baggage and other valuables and ship papers, and brought them to Wilmington. The Twilight was said to be laying very easy at last accounts, and the agents have procured vessels to go down and make another attempt to get her afloat.—It is stated that she lies about the wreck of the blockade running steamer Condon, foundered during the blockade of the port.

Mr. D. W. Hartt, merchant tailor on Pollock street, Newbern, was imprisoned in Craven street jail, Wednesday, for, as we understand, resenting an insult offered him by a United States officer whilst the latter was under the influence of liquor.

Rev. S. S. Ashley, superintendent of education for the freedman's bureau in the Southern district of North Carolina, in his report just forwarded to headquarters, remarks: "On the part of many influential white people in this district, there has been manifested, not only a cheerful acquiescence in the efforts for the education of the freedmen, but a readiness to sympathize with and encourage such efforts. Some perhaps may despise them and treat teachers and schools with contempt. Such are not the thinking, reliable men of the South. The free labor of this age and country must and will be educated. The sagacious statesmen of the South accept the decree. I firmly believe that there will be no serious interference with the freedmen's schools except by the ignorant and vicious."

The dwelling of J. T. McKay, Esq., in Fayetteville, was burned Saturday night. The house was owned by E. L. Pemberton.

On Thursday, while a colored operative, named John Hines, employed on the Wilmington and Weldon rail road, was under a car repairing it, he carelessly placed his foot on the rail, and the car being moved in order to couple it, ran over his foot, and it is feared he will lose it and a part of his leg.

The demand for freight accommodations is now very great. Immense quantities of cotton and naval stores now block up the Wilmington wharves, awaiting shipment to New York and other points. As an evidence of the growing prosperity of that city, the commercial column of the Journal, on Wednesday, showed an arrival on the previous day, of twenty-five hundred barrels of turpentine.

The "Local" of the Newbern Times threatens to expose some fellow who sold one of the Newbern merchants a barrel of turpentine "with twenty pounds of clay or sand in the centre." People who put their fingers into turpentine, say a cotemporary, must expect to be stuck. So says our "con."

Southern Items.

The newly organized militia company in Natchez, the Adams Troop, under the command of Captain William T. Martin, assembled on the 26th for drill. The Democrat says there was a very good attendance.

[Captain Martin was formerly General Martin, of the Confederate army.]

ALABAMA.—The Mobile Tribune states that the Hon. A. J. Riquier, one of the most esteemed and distinguished citizens of Mobile, is about to remove to the city of New York, as a place of permanent residence, and with a view to the exercise of his profession.

Mr. William Nismo Ghiselin, a native of Norfolk, and formerly a well known merchant in New Orleans, died recently in Cincinnati.

The President has pardoned Wm. Echols, State Treasurer of Mississippi; also Ex-Governor Pettus.

The Montgomery Mail says that the small pox is gradually but surely spreading throughout that city.

The Selma Messenger states that the negroes of that city have held a meeting to appoint delegates to a negro Convention in Mobile; but it did not learn the result of their labors.

The Selma Messenger announces the death of Dr. Cabell, a highly esteemed citizen of that place.

Among the candidates spoken of for U. S. Senator, Col. John Forsyth, of Mobile, is mentioned.

GEORGIA.—A correspondent of the Atlanta Intelligencer communicates to that paper very interesting facts in relation to the gold mines of Carroll county. He says that Pine Mountain, within two miles of the Villa Rica, is composed of veins of gold-bearing quartz, which could be profitably worked by a dozen engines and five hundred men for the next twenty years. There are several other mines of equal richness in the same county, which only require capital to make them available. Paralleled with the gold veins runs a "copper streak," in which shafts have already been found. The ore raised has proved to be of the best character. The line of the railroad lately projected, from Atlanta to Jacksonville, Ala., will run between these gold and copper mines. The completion of this road will facilitate the working of so rich a field.

The jail of Macon was destroyed by fire on the morning of the 31st. It is supposed to have been set on fire by the prisoners.

A correspondent of the Atlanta Era warmly urges the claims of Gen. John B. Gordon for the next Governor of Georgia.

Hon. Howell Cobb has taken up his residence at Macon, with the intention of practicing his profession.

LOUISIANA.—The Baton Rouge Advocate, of the 30th ult., says:

We notice many small caravans from the back country, accompanied by dogs, sheep, horses, cattle, and no end of little ones, crossing the river at this point, westward bound. They are hunting a better country than this to live in, but from all accounts Texas is not that better land by long odds.

Governor Wells is actively organizing the militia of Louisiana.

The Shreveport News, of the 24th, reports cotton still arriving very freely.

THE CITY.

Persons in city and country are requested, at all times, to furnish us verbal or written information of any events of public interest which may transpire in their neighborhoods, or of which they may have knowledge.

COUNTERFEIT FIFTY DOLLAR GREENBACKS.—Well executed counterfeits of fifty dollar legal tender notes are now in circulation. But two points of difference are apparent between these and the genuine issues. One of them is in that part of the engraving of the head of Hamilton, upon the face of the note, which represents the line of the waistcoat crossing the white collar at the neck. The acute angle formed by the shape of the collar, so far as it is shown, is perfect in the counterfeit note; but in the genuine the lines of the flesh were drawn by the engraver across the point of the collar at its junction with the waistcoat, for the purpose of relieving the angle of the sharpness it would otherwise have exhibited.—This difference is not readily observed unless the note is perfectly clean. The other discrepancy is in the shape of the ornaments in the border on each end of the face of the bills, and in the whole border on the back. The figures "50" are engraved on the green ground, of which the rim in the genuine bill is in octagonal form, rather well defined, though the angles are not sharp. The eight sides of what at first view appear to be circles may be easily discerned.—In the counterfeit bill the border ornaments containing the "50" are octagonal in only a very slight degree, and seem to be perfect circles.

A MEDICAL CHARITY.—In other cities physicians are forming what they call medical charities, for the purpose of furnishing attendance, free of charge, to the indigent poor of the city, both white and black. No class of gentlemen in our midst are possessed of a higher spirit of liberality than those of the medical profession and no doubt they will be found ready to cooperate in any scheme which gives promise of benefiting the population particularized. But the citizens would have a part to perform—it will be requisite for them to establish a fund for the procurement of medicines, &c. There are probably in the churches persons whose christian dispositions peculiarly fit them for leadership in such a good work. We appeal to them to step forward in the front rank in behalf of the charitable enterprise suggested. If they lead, we presume others will follow.

THE RETURNS COMPLETE.—We gave in yesterday's issue the complete returns from this (the 4th) congressional district, with the exception of Franklin county. We now add that and the result is as annexed:

Table with 4 columns: Name, Russ, Turner, Edwards. Rows include Chatham, Nash, Orange, Warren, Wake, Granville, Johnson, Franklin.

Mr. Turner's majority over Col. Russ is 941—over both Russ and Edwards 634.

CHLORINE GAS.—The following is the most powerful and efficacious disinfectant known; it was used successfully throughout Great Britain and Scotland some years ago when cholera was so prevalent and fatal there. We advise our readers to cut it out and preserve it:

One part black oxide of manganese; three parts common salt, and pour over a little common vitriol. This makes the gas—a light colored smoke. Do not inhale it, but place it on a table in the hall of the house; the fumes will get up stairs and purify the whole building. A pound will purify the house for a month. It is also a good preventive of typhus fever, even in the worst localities. It is said cholera never came where this was used.

NEW LINE.—Another important connection between North Carolina and Virginia has recently been established from Newbern via Albemarle and Chesapeake Canal. The proprietor's notice appears this morning, from which it appears that each of his steamers is capable of carrying two hundred and fifty tons of freight, besides excellent accommodations for passengers. There is a constantly increasing intercourse between Norfolk and our State, and we direct the attention of shippers as well as others to this new outlet to market.

WRONG COLOR.—McGuire, the man arrested for horse stealing and supposed to be implicated in the outrage upon Mr. H. O. Parker and wife, is a white man and is said to have been a private in the 48th New York regiment before it was mustered out of service. We are sorry to hear, if the suspicions of his guilt are well founded, that he was ever connected with a military organization which won so largely upon popular esteem here.

DISSOLUTION.—The firm of Holleman, Upchurch & Co., has been dissolved, but, as may be seen from advertisement, Messrs. Upchurch & Dodd are to continue the business at the sandstone front building, No. 4, Hargett street. They are young men of enterprise and energy; have an establishment well filled with choice groceries, and those in search of such articles should give them a trial.

BREAKING IN.—The shop of John Jackson, a worthy colored man, was entered night before last and most of his store of worldly goods appropriated. The owner was in the back room and had only latched the front door, but the rogues entered so stealthily as not to warn him of their presence.

IMPORTANT ORDER.—Col. E. Whittlesey, Assistant Commissioner of Freedmen for North Carolina, has just issued the following order, important to the white as well as black population:

RALEIGH, N. C., Nov. 10, 1865.

All officers and agents of this Bureau and teachers of freedmen, will publish as widely as possible the following instructions:

I. In view of the fact that government aid now given to the destitute may soon be withdrawn, freedmen now living in camps, colonies and towns, are directed to find employment at once, by which they may support themselves.

II. Officers and agents of the Bureau will issue no more rations to any refugees or freedmen who refuse situations where they might earn their support.—While the innocent and well disposed will be protected, vagrant idlers who try to live without any honest calling, will be promptly arrested and punished.

III. Paupers will, as soon as practicable, be turned over to the "Wardens of the Poor" for support, and officers and agents will co-operate with such wardens in providing for the infirm and helpless. Until ample provision is made by the civil authorities, such persons will not be forcibly removed from the plantations where they were living at the close of the war.

IV. Orphans and children of parents who have no honest calling, or visible means of support, and other minors, with the consent of their parents, may be apprenticed to some good trade or occupation, in accordance with the laws of the State applying to white children. Every effort will be made to provide in this way good homes for all minors, now dependent upon the Government, that they may not become vagrants and paupers.

THE INDIAN SUMMER.—The most delightful weather of the year, Indian summer, is being enjoyed by the Raleighans. The days are bright and beautiful, the nights warm and hazy, and altogether we seem to be living in May rather than November. It is blessing to the rich as it saves their fuel—to the poor who had no such supplies.

Auction Bills, Business Cards, Circulars, Bill Heads, and in fact printing of all kinds done at the Process Office with promptness and in the best style of the art; and as our facilities for printing are more extensive and better than those of any other establishment in the State, at lower rates than the same can be done elsewhere.

HERE THEY ARE—Johnson in a fry and People's, of the Yarborough on a half-shell. We must confess, in the meantime, that the remembrance of our friends was opportune—12 o'clock, half a dozen hungry tups, three devils and three freedmen. The vote in favor of Johnson and People's as great caterers was, eyes one hundred thousand—nays 00.

ARRANDALE & CO., Manufacturers Agents.

No. 167 Broadway, New York. Announce that all of the above list of goods will be sold for One Dollar each.

In consequence of the great stagnation of trade in the manufacturing districts of England, through the war, a large quantity of valuable jewelry, originally intended for the English market, has been sent off for sale in this country, and MUST BE SOLD AT ANY SACRIFICE! Under these circumstances, ARRANDALE & CO., acting as agents for the principal European manufacturers, have resolved upon a GREAT GIFT APPORTIONMENT.

to be developed according to the following regulations: Certificates of the various articles are put into envelopes indiscriminately, sealed up, and when ordered, are taken out without regard to choice, and sent by mail, thus, showing no favoritism. On receipt of the certificate, you will see what you are to have, and then it is at your option to send the dollar and take the article or not. Purchasers may thus obtain a Gold Watch, Diamond Ring, or any set of jewelry on our list for One Dollar.

SEND 25 CENTS FOR CERTIFICATE.

In all transactions by mail, we shall charge for forwarding the certificate, paying postage and doing the business, 25 cents each, which must be enclosed when the Certificate is sent for. Five certificates will be sent for \$1, eleven for \$2, thirty for \$5, sixty-five for \$10, one hundred for \$15.

WHAT THE PRESS SAY OF US. The Lafayette (Ind.) Daily Courier, March 18, 1865, says: "A better selected, more varied or fashionable assortment of jewelry cannot be found on the continent than Arrandale & Co. are now offering. Messrs. Arrandale & Co. occupy a high position in commercial circles, and their goods are sold in the common market. Their statements may be implicitly relied upon, both as to the character of their goods and the manner of disposal. Ladies especially, in all parts of the country, are realizing handsome profits as agents, and if any of our fair readers desire to interest themselves in the enterprise, they may do so with perfect confidence."

GREAT GIFT DISTRIBUTION.—A rare opportunity is offered for obtaining watches, chains, diamond rings, silver ware, etc., by Messrs. Arrandale & Co., No. 167 Broadway. They have an immense stock of articles, varying in value, and all offered at one dollar each. The distribution is very fairly done, as each one who takes a certificate of a certain article, enclosed in an envelope, and are not required to pay your dollar unless you are satisfied with the article, which will certainly be worth more than that amount, and may be \$50 or \$100. An excellent mode of this interesting dollar—Saturday Times, N. Y. City, Feb 19, 1865.

Messrs. Arrandale & Co. have long been personally known to us, and we believe them to be every way worthy of public confidence.—N. Y. Scottish American Journal, June 11, 1864. "Arrandale & Co.'s arrangement, the advantages must be on the side of the customer, for he gets every thing to gain and nothing comparative to lose. He knows what he will get for his dollar beforehand, and he need not send it if he is not satisfied.—N. Y. Daily News, Aug. 6, 1864. "We have the firm in question to be very respectable and thoroughly worthy of public confidence, and recommend our friends to read their advertisement.—N. Y. Albion, Sept. 3, 1864."

EMPLOYMENT FOR LADIES.—The most eligible and profitable employment we have heard of, is offered at the sale of certificates for the Great Gift by Arrandale & Co. A lady of our acquaintance has been very successful in this way, not only being enabled to purse, but also in doing a good turn to those who are in need of the certificates, as will be seen by our advertisement on page 1. Gentlemen can also be thus engaged.—N. Y. Sunday Mercury, Aug. 13, 1865.

AGENTS.—We want agents in every regiment and in every town and county in the country, and those acting as such will be allowed 10 cents on every certificate ordered by them, provided their remittance amounts to one dollar, as other inducements which can be learned on application. Agents will collect 25 cents for every Certificate, and remit 10 cents to us either in cash or postage stamps. ARRANDALE & CO., 167 Broadway, New York. nov 18-4t-aww
