

governors and governed being put upon that footing which can alone preserve liberty in its best state—free from oppression on the one hand, and licentiousness on the other. A small body of troops had also been raised for the purpose of internal police and external defence. The vigor and efficiency this must instil into the government, will enable them to direct the energies of their colonies to the welfare of the settlement, and to become respectable in the eyes of the surrounding natives; and the government being thus respected at home, and feared abroad, this philanthropic establishment must prosper rapidly.

"We are promised some particulars on this subject, which we shall have much pleasure in publishing when received. In imitation of the plan which has succeeded so well in this colony, a new town on the summit of the Cape has been formed, for the establishment of the liberated Africans, their superintendents, and instructors. It is about one mile and a half from the capital, and has been called "Thompson Town." In honor of the late respected Secretary to the United States Navy, under whose auspices the liberated Africans now there have been restored to freedom. This sister colony claims our most sincere wishes for its success and prosperity."—Royal Gazette.

On Friday the 18th ult. the Gin-house, screw, and about 45,000 pounds of seed cotton, at the plantation of the Hon. JOHN C. CALHOUN, in Abbeville District, were consumed by fire, occasioned by the friction of a whipping machine which had been lately erected for the purpose of more thoroughly cleaning the cotton.

General Jackson.—The Select and Common Councils of the City of Lancaster, under an impression that this distinguished citizen would visit that place in a few days, held a meeting last week, at which they recommended to the citizens to ILLUMINATE on the evening of the day on which Andrew Jackson may arrive, as a testimonial of the high respect and deep sense which is entertained for the distinguished and invaluable services he has rendered our country, as a Statesman and General.

We learn with regret that General Jackson's intended visit to this State, will be prevented, by the illness of Mrs. Jackson.—West. Chester (Pa.) Repub.

We are extremely sorry to learn the death of JAMES C. KOOPER, Esq. of St. Bartholomew's Parish, who was killed by the accidental discharge of a spring gun, which he had fixed on his plantation for the destruction of wolves. Mr. K. was a truly estimable and amiable man.

Weather.—On Saturday, the 12th March, 1825, Fahrenheit's Thermometer rose to 102 degrees, in the Sun; and on Sunday the 13th, to 106! This, perhaps, is the warmest Sun ever known in this latitude, in March.

Harrisburg, Pa. March 17. George Kremer, member of congress for the ninth congressional district of this state, arrived at Harrisburg on Tuesday last. A supper was given to him, at Mr. Gleim's Jackson hotel, on Wednesday evening.

Disturbances between the Civil and Military Authorities.—We regret to learn, that an unpleasant controversy has recently arisen between some of the citizens of Miller County, and the Military stationed at Cantonment Townson, at the mouth of the Kiameche, which has already produced considerable excitement on both sides, and, it is feared, may result in serious consequences to the parties concerned. The circumstances of the affair, as related to us, are briefly these: An officer of the Cantonment was indebted to a citizen, and a horse belonging to the former was levied on by a civil officer. Shortly afterwards, the horse was rescued from the constable by a detachment from the Cantonment. The constable then called on the posse, recovered possession of the horse, took the soldiers into custody, and placed them under a guard composed of citizens. A reinforcement was then sent from the Cantonment, who demanded the release of the first detachment, which being refused by the guard, the former charged on the latter, and released the prisoners.

Little Rock, (Ark.) Feb. 8. The Legislature of Louisiana has come to the resolution to remove the seat of government from New Orleans to Donaldsonville, about 70 miles in the interior, on the Mississippi.

In Dorchester county, Md. a young man, (Mr. Levin Holcock,) in a foolish attempt to frighten his father in a disguise, was stabbed and killed by him.

A most atrocious murder was committed on Mr. Thomas Edwards, of King William county, Vir. by two of his slaves, who, after despatching him with hatchets, cut up the body and buried it for concealment. The criminals were arrested.

In the city court of Pittsburgh, on the 19th of February, several persons were tried for a riot committed in burning the effigy of HENRY CLAY, Esq. for his vote in favor of Mr. ADAMS as President of the United States. The jury could not agree, and the defendants were bound over to appear at the next court.—Franklin Gaz.

Washington, Feb. 23. The Rotunda of the Capital had, yesterday, the appearance of a Bazaar, and attracted more visitors than either the Senate or House of Representatives. From 11 till 4, there was a constant and crowded succession of individuals, of both sexes, and the exhibition was such as both to justify and satisfy the very laudable curiosity which had been excited.

Amongst the articles which were exhibited, we observed superb specimens of domestic broad-cloths, cassimeres, &c.

perpetrated on Tuesday fortnight) the overseer had occasion to correct one of the negroes placed under his care—that while the punishment was inflicting, the negro seized the cane from the overseer's hand, and gave him a few blows. The negro then absconded, but returned on Tuesday morning to his work. The overseer said nothing to the slave when he saw him in the morning, but afterwards went to the field, taking his gun with him. He then directed the negro to be tied, but some reluctance being manifested, he ordered the other negroes to stand aside, and deliberately shot him. The negro languished a few hours, and then expired.

Shortly after this sad catastrophe, a gentleman, residing on or near the premises, went to the field to investigate the matter, and as he approached, the overseer ordered him to halt, or he would shoot him. The gentleman, upon this threat, directed one of the negroes to go for his gun, who, while in the act of obeying the order, was also shot by the overseer, but not dangerously.

The unfortunate man who perpetrated this double deed, is named Moore, and is in the power of the civil authority, where respect for the laws of our country induces us to leave him without going further into this melancholy occurrence.—Pet. Rep.

Louisville, (Ky.) Feb. 16. Steam Carriage. Dr. Buchanan succeeded yesterday in propelling a wagon some three or four miles, with a very small capillary steam engine.—The experiment, we are informed, succeeded beyond the most sanguine anticipations of its ingenious inventor.

Fayetteville, Feb. 17. A bale of cotton was brought to this market last week, by Mr. Needham Smith, of this county, which, for its quality, deserves a particular notice. We understand that this gentleman and his brother, Mr. John Smith, obtained, a year or two ago, a few cotton seed from Mexico, and have cultivated them, with great care, separately from their other cotton. They produced this year the above mentioned bale of cotton, which, when brought to market, was pronounced superior to any seen here this season, and commanded two cents per pound more than had been previously given.—We think this fact will induce those planters who have been in the habit of using seed from their own farms year after year, to change their seed as much as possible. It can hardly be doubted that such a change, from a foreign country, from another state, or even from an adjoining county, will be attended with advantage.—Observer.

Charles Ball was recently convicted of manslaughter, in Vermont, for the crime of killing his father, and was sentenced to the State Prison at hard labor for life. His mother, who was a witness on the trial, testified that she had several children, and the prisoner was the mildest tempered of the whole of them!

The charter of the Planters and Merchants' Bank, at Huntsville, in Alabama, has been declared to be forfeited, by a proclamation of the Governor, conformable to a provision in its charter, because it has refused to pay specie for its notes.—Nat. Int.

The acting Governor of Lower Canada has recommended to the Legislature to make appropriations for Craig's Road, which is on the route from Quebec to Boston—and for a Road from Quebec to the Kennebec.

The Legislature of Louisiana has come to the resolution to remove the seat of government from New Orleans to Donaldsonville, about 70 miles in the interior, on the Mississippi.

from the Wolcott wales manufactory, at Southbridge, Massachusetts; as well as from the manufactory of Millbury, in Massachusetts; Litchfield, in Connecticut; Stanbeville, in Ohio; and other establishments, the names of which have escaped us, from the hasty manner of the survey we were enabled to take. The maximum price of the broad-cloths was 12 dollars per yard.

The cottons were in abundant variety, from the manufactory of New-York, New-Jersey, &c. and were of excellent materials and workmanship; some of them vying with the best productions of the foreign market.

There was, also, an extensive assortment ofannels—some of them of the manufactory of our own District—of braizes, floor-cloths, &c. &c.

Silks were exhibited in abundance and of a quality which exceeded our highest expectations. Among the Hardware, we noticed some finely finished grates, from the manufactory of Morris, of Philadelphia, made for the Lehigh coals. One of these grates, which was marked \$125, attracted particular attention and admiration. Fenders, spades, shovels, hoes, bird-cages, bellows, brushes, &c. were shown in considerable variety.

We also observed an exquisitely finished secretary and book-case, exhibited by John Needles, a manufacturer of cabinet furniture, from Hanover street, Baltimore; which, for the beauty of the wood, and the excellence of the workmanship, is, at least, equal to any thing which we have seen. It was marked \$125.

Some ingenious models of machinery were also exhibited. The exhibition will, we understand, remain open until Friday evening; after which, if a public sale should take place, proper notice will be given.

Jackson, T. Feb. 19. Few sections of the Western country so much invite emigration as the Western District of Tennessee. None in all the varieties between Florida and the Lakes, possesses a more mild and agreeable climate, nor is it surpassed by any in the fertility of soil.

Besides producing every article in abundance common to this latitude, experience has tested its peculiar adaption to the culture of cotton of a fine quality, and in luxuriant quantities. Though in very many instances from twelve to fifteen hundred weight has been made to the acre, in despite of the ravages of the worm, one thousand weight per acre is a very moderate calculation. This country is watered by three navigable streams, that flow into the Mississippi, which bounds it on the West, while the Tennessee, always navigable, bounds it on the East.

With these commercial and agricultural advantages, lands of the best description can be bought for much less than its real value. The scarcity of money and the necessity to have it, have produced this state of things.—Never was there a more extensive field for the capitalist, nor one which furnished a greater certainty of an abundant crop. Notwithstanding many obstructions, our rivers are navigated; the products of the West Indies brought direct from New-Orleans, and the flour and fruit of Ohio and Pennsylvania are daily ascending the Forked Deer.—While the planter is presented with all these inducements, no less are offered to the mechanic.

Besides the four towns which have already made respectable advances in improvement, there are ten in which the lots will be sold during the next spring. The private buildings would give employment to a goodly number, but those of a public character, it is presumed, will be of sufficient importance to attract men of the first skill in their art, as most of these towns will be able to make improvements which will be both useful and elegant.—Gazette.

Munificence.—Our aged and much respected fellow citizen, Godfrey Haga, Esq. who died on Monday morning last, made, by his last will, the following disposition of his property: To the Pennsylvania Hospital, one thousand dollars; to the Northern Dispensary, one thousand dollars; to the Southern Dispensary, one thousand dollars; to the Pennsylvania Institution for the Deaf and Dumb, one thousand dollars; to the German Society, two thousand dollars; to the Bible Society, 4,000 dollars; to the Widows' Asylum, five thousand dollars; to the Orphan Asylum, ten thousand dollars; to sundry persons, fifty thousand five hundred dollars; to the Moravian Church in Philadelphia, two thousand dollars; for the relief of superannuated preachers, their widows, and missionaries and their widows, belonging to the Moravian Church, six thousand dollars; to the Society for Propagating the Gospel among the Heathen, twenty thousand dollars. This constitutes a fund, the interest of which is to be applied by the society for the purpose of educating pious young men at Nazareth Hall for the gospel ministry.

The residue of his estate, valued at more than two hundred thousand dollars, is bequeathed to the said society for propagating the gospel among the heathen, and to be appropriated, from time to time, as the society shall direct.

Ohio Tobacco.—It is estimated that last year two hundred and fifty thousand acres were raised, and that at least one thousand were raised the present year, in the county of Belmont, in the State of Ohio. This business is likely to prove much more profitable to the Farmers in that country, than raising grain or stock.

The Paris Liberal paper, Constitutionnel, says, "The ministerial journals are insulting Lafayette and the noble triumph offered to him in the U. States. They cannot conceive how homage can be paid to a man from whom you have nothing to hope or fear."

The Paris Journal des Debats says—"If France were put up for sale, it is doubtful whether the bankers of Europe would bid on the sole condition of paying all the indemnities which are demanded on the ground of revolutionary spoliation. If every petition presented was accompanied by a specification of the sum claimed, the total would astonish the world."

A Steam Boat of five hundred tons has been launched at Deptford (England) destined to serve as a packet to Calcutta. At the grand anniversary dinner, (22d January last) in Edinburgh, in honor of the memory of Charles James Fox, the following toast was drunk, with much applause: "The President of the United States; and may there be a speedy union of all free nations against the encroachments of tyranny."—Nat. Breach of Promise of Marriage.—A cause which has excited great interest at Portland (Maine) was decided on Wednesday last. It was for a breach of promise of marriage. The plaintiff was Mary Pease—the defendant, Lewis Stetson. The trial lasted two days, during which time the Court room was crowded to overflowing. The Jury gave a verdict for the plaintiff, damages, three thousand and five hundred dollars, which gave great satisfaction to the assembled crowd.

COMMUNICATED. Died, on the 10th ultimo, in the 33d year of her age, at the house of her mother, in Franklin county, Mrs. Tillitha Brassell, wife of Wm. Brassell, formerly of Nash county, the eldest daughter of Mrs. Happy Stone. She bore her illness with christian patience, and breathed her last without a struggle or a groan. Her virtues and the gentleness of her disposition endeared her to all with whom she had an acquaintance. Four children are left to bemoan their loss, while she is numbered among those who sleep in Jesus; much resigned to the will of her heavenly Father. She saw the approach of the last enemy, and finished her course with joy.

The subscriber's elegant young Horse. HAMBLETONIAN, a colt of the name of a famous old Sir Archie, will stand the present season, which will end the 1st of July, at his own stable, at Trades Hill, in Chatham county, six miles east of Pittsborough, where the Stage Road from Raleigh to Salisbury crosses the road from Hillsborough and Chapel Hill to Fayetteville, at twelve dollars this season, which may be discharged by the payment of ten dollars, if paid within the season; six dollars cash in hand for a single leap. Those who pay the money for a leap may take the season if they choose, by paying the difference between the leap and season. A class of six mares being put, and one man (my choice) being responsible for the payment of the whole, a deduction of the price of one mare will be given. Fifty cents to the groom in all cases. Lots well enclosed and well watered are provided for mares that may be left with the horse, and will be fed with grain at a moderate price, if required. Great care will be taken to prevent accidents of any kind, and I will hold myself liable for any that may occur by reason of the horse; and so liable for accidents; but not liable for any other kind of accidents. Hambletonian is a beautiful dark dapple bay, will be four years on the 1st of July, full sixteen hands high, and whose symmetry of form and majestic appearance entitle him to rank amongst the best horses in the United States. Hambletonian's dam is a large well formed mare, and was raised by Thomas Simpson, Esq. of this county, from the choice blood of this state, viz. Jolly Air, Postnet, &c. I trust a few trials made in a private way, will have no doubt but young Hambletonian would distinguish himself with great success, on the turf, and, under that belief, I intend to put him to training at the end of the season. Stop a Runaway and Thief! AN AWAY from this City, on the night of the 20th instant, a bright Mulatto man, by the name of CHARLES, frequently called CHARLES MURRY, belonging to the estate of the late Dr. Jeremiah Battle. He is about 25 or 26 years of age, about 5 feet 6 or 7 inches high, rather stoutly built, and has black eyes and hair, the latter of which he wears closely cut. He had on, when he went away, a suit of blue broad cloth clothes, boots, and black fur hat; and took with him sundry other articles of clothing. He will probably attempt to pass for a free man, as it is believed he had procured forged papers for that purpose. Said negro carried with him a yellow sorrel HORSE, belonging to said estate, 6 years old, this spring, about 5 feet high, in good order, his hind feet white half up his legs, has a star in his forehead, a thin switch tail, and tolerable large ears; he walks briskly trots well, and is a tolerable power. He also took with him a saddle, such worn, and a good bridle. A liberal reward will be given to any person who shall apprehend and lodge said negro in some jail, and notify the subscriber thereof. A suitable reward will be given for the recovery of the Horse. GREEN BOBBITT. Raleigh, March 24, 1825.
