FOREIGN.

LATEST FROM ENGLAND.

New York, Feb. 4. By the arrival of the Packet-ship Leeds, Capt. Stoddard, from Liverpool, whence she sailed on the 27th December, the Editors of the Commercial Advertiser have received their regular files of London and Liverpool papers - the former to the evening of the 24th December. The late hour at which the letter bag was received, precludes our making copious extracts this evening, even were there any thing of particular importance.

Markets. - We learn that there had been a steady demand for cotton since the last advices, at a fraction lower than former rates.

The Continental news has all been anticipated by the last arrival from Havre.

The Emperor Alexander died after an illness of only two days. His disease was a bilious putrid fever. In Paris, all parties agree in recognizing in this event the dissolution of the Holy Alliance, and the commencement of a new era, not only for Russia, but for Europe.

Some considerable improvement had taken place in the money market; but it will be seen by the articles below, that it was not yet settled. The panic in the country had not ceased.

The Deal Bank. (May & Co.) had stopped. Measures were taken in various parts of the kingdom, by wealthy and respectable individuals, to sustain the country banks where there was no real cause for alarm, against the effects of the general panic.

Messrs. Brown, Cananagh & Co. Bankers, of Bristol, have stopped. Gibbons, Smith and Goodman, Bankers, of Birmingham, have stopped.

Messrs. Crickitt, Ruffell and Co. Bankers, of Chelmsford, have stopped.

Wentworth and Co's. Bank of Leeds, has stopped.

The bank of Messrs. James Hill and Son, of Wisbeck, has stopped.

The Cambridge Chronicle announces that the Bank of Hollice, Nash, Seal and Co. which had suspended payments, will be able to meet all the demands against it.

It has been stated in a morning paper, that a military force was stationed for the protection of the Bank of England, the Courier of the 24th December denies it, and explains the story, by stating, that the Bow-street officers were placed in readiness to guard the public against the depredations of the numerous gangs of pick-

pockets who infested the passages to the Bank.

At Amsterdam the public funds had declined 4 per cent. This is ascribed to the news of the death of Alexander.

The Bank at Amsterdam had also been the cause of some embarrassment to the transactions in government securities, by issuing a notice to limit the period of discounts from three months to six weeks, which had necessarily thrown much paper of longer dates upon the open market, and raised the rate of discount for them. Money on private loan bore interest at the rate of from 8 to 10 per cent. per annum.

From the Morning Herald of Dec. 22. We are sorry to see by our provincial accounts, that the country banks continue to fail. If this be not stopped by a large supply of sovereigns by the Bank of England, or one and two pound notes, there is no telling what may be the consequence. But then, if one and two pound notes be issued, they will find their way to London, and be liable to be presented to the Bank in payment for sovereigns. What a dilemma the country banks and the Bank are placed in by Mr. Peel's Bill, which was to settle the currency on a safe foundation!

St. Jago de Cuba, Dec. 30. - By an arrival from Cadiz it is ascertained that the King of Spain has granted Letters of Marque to thirty mercantile companies, to cruise against the Insurgents; several of these vessels are already out, and are cruising in the neighbourhood of St. Thomas & Porto Rico. One cruiser has already destroyed seven or eight Colombian vessels; she mounts 12 guns, 13 pounders, and one 24 pounder, with 150 men; and she has 5 consorts. The Zulme, Colombian schooner, con- tines on our coast; and is at present in the neighborhood of Cumberland Harbor; she intercepts every vessel that approaches, and our trade suffers much from the interruption.

CONGRESS.

SENATE.

Tuesday, February 7.

Mr. King presented to the Senate a message from the Governor of the State of Alabama to the Legislature thereof, together with a report and resolutions of the said Legislature, respecting the treaty made in February last with the Creek Indians, at the Indian Springs; and instructing the Senators and requesting the Representatives in Congress, from Alabama, to use their best efforts to procure for that State the immediate right to that part of the land, acquired by the said treaty, lying within the chartered limits of the State; and, on motion of Mr. K. the message, report, and resolutions, were referred to the Committee on Indian Affairs, and ordered to be printed for the Senate.

Wednesday, Feb. 8.

Mr. Macon submitted the following motion for consideration:

Resolved, That the Committee to whom have been referred the several resolutions to amend the Constitution of the United States, be instructed to inquire into the expediency of diminishing or regulating the patronage of the Executive of the United States, and that the Committee have leave to report by bill or otherwise.

In submitting this resolution, Mr. M. merely said he had made it general, that the Committee might have the whole subject before them.

Mr. Berrien communicated a report of a Committee of, and adopted by the Legislature of the State of Georgia, asserting the validity of the treaty made with the Creek Nation, at the Indian Springs, and that the right to the lands ceded by that treaty is unalterably vested in said State; and protesting against the character and the defect of the evidence and proceedings subsequently had in relation to the validity of that treaty. Referred to the Committee on Indian Affairs.

Thursday, Feb. 9.

Mr. Kane, from the select committee to whom that subject had been referred, reported a bill "making an appropriation to erect a monument to the memory of General Washington;" which was read, and passed to a second reading.

On motion of Mr. Harrison, the Senate proceeded to the consideration of Executive business, and remained with closed doors during the rest of this day's sitting.

Friday, Feb. 10.

Mr. Eaton, from the Committee on the District of Columbia, reported a bill to establish a Medical College in the City of Washington; which was read, and passed to a second reading.

Agreeable to notice, Mr. King asked, and having obtained leave, introduced a bill to authorize those persons who have relinquished Lands, under the provisions of the several acts for the relief of purchasers of Public Lands, to purchase the same at private sale at a fixed price; which was twice read and referred.

HOUSE OF REPRESENTATIVES.

Monday, Feb. 6.

Mr. F. Johnson, of Kentucky, laid on the table the following:

Resolved, That the Committee on the Judiciary be instructed to report a bill repealing so much of any and every law of the United States as the courts of the United States have construed to delegate to, or confer on them the power or authority to enact laws.

Mr. J. also presented to the House, a copy of the Rules of Court, adopted by the Circuit Court of the United States, for the district of Kentucky, and the decisions by which they were sustained, and moved that they be printed, and that the resolution, with them, be ordered to lie on the table.

On motion of Mr. Peter, of Maryland, it was

Resolved, That the Committee on Naval Affairs be instructed to inquire into the propriety of causing the remains of the late Capt. O. H. Perry to be removed to the U. States.

The House resumed the consideration of the Annual Appropriation Bill for certain Fortifications; and no further amendments being offered thereto -

The General (first) Appropriation Bill "for the support of Government for the year 1826," was taken up and read by clauses. After a considerable time spent in the consideration of the bill, the Committee rose, and reported progress, and the House adjourned.

Tuesday, February 7.

On motion of Mr. Carson, of N. Carolina, it was

Resolved, That the Committee on Indian Affairs be instructed to inquire into the expediency of refunding, to the State of North Carolina, the sum of \$19,940, which sum was paid by said State to Indians of the Cherokee Nation, for reservations, made by virtue of the treaty of the 27th February, 1819.

On motion of Mr. Hines, of North Carolina, it was

Resolved, That the Committee on Commerce be instructed to inquire into the expediency of exempting the citizens of Cape Hatteras Banks, in the State of N. Carolina, navigating vessels of fifteen tons burden, and under, from the payment of Hospital money.

The House went into committee of the whole on the several appropriation bills for the public service of the present year.

Mr. M. Lane moved an amendment to the general Appropriation Bill for the support of Government, &c. going to increase the amount "for surveying the public lands of the United States," from \$69,351 to \$74,171, in consequence of additional documents received from the General Land Office since the bill was reported.

On this amendment a very desultory debate arose, on the general subject of the survey and sale of the public lands. It resulted in the adoption of the amendment proposed by Mr. McLane.

On motion of Mr. Wright, the bill was further amended by striking out the sum of \$1,000 for compensation to the Reporter of the Decisions of the Supreme Court," as the appointment of the present officer ends by law on the 26th March, 1826; and the propriety of continuing or modifying the duties of the officer is before the Committee on the Judiciary, who have not yet reported on the subject.

On motion of Mr. McLane, the committee then rose, and having obtained leave to sit again, the House adjourned.

Wednesday, February 8.

Mr. Condit, of New Jersey, presented the following resolutions for consideration, which were referred to a select committee:

Resolved, That it is expedient to augment the impost on all imported spirituous liquors, and to levy an excise duty on all such liquors distilled in the U. States.

Resolved, That the revenue accruing from excise duties shall constitute a fund to be applied exclusively to purposes of education and internal improvement; the amount paid by each State and Territory to be expended within the limits thereof, in such manner as the State or Territorial authority, with the consent of Congress, may from time to time direct.
