## Hillsborough Female Seminary.

The exercises of this institution will be resumed on Thursday the 25th inst. The increasing reputation and growing numbers of this School having called for additional means of instruction, the superintendent takes pleasure in announcing to the public, that in addition to the able female help which the school has lately received, he will be assisted, for the ensuing session by a gentleman, who is, in every way, qualified for the task of instruction, and who has already rendered material service to the school.

An apparatus of sufficient extent to illustrate the most useful principles of Chemistry, Natural Philosophy and Astronomy has been purchased, and is expected to be in readiness at the commencement of the ensuing session. A foundation has also been laid for a Mineralogical Cabinet, and contributions received from several friends of the school.

The price of ordinary tuition varies from $10 to $15—Music $24—Painting and Drawing $18, and Needle work $1 per session, payable quarterly in advance. Board can be obtained in the most respectable families of the place at $10 per month.

## Nashville Male Academy.

The Trustees of the Nashville Male Academy, take pleasure in informing the public, that they have at length succeeded in employing the Rev. John Armstrong, as Principal in this institution. This Gentleman produces the most satisfactory testimonials of his pre-eminent qualifications as a Gentleman, a Divine, and a Teacher. He is a graduate of distinction in the Columbian College, D. C. from which, besides his Diploma, he brings the most flattering testimonials of character and acquirements, from the Revd. Doctor Staughton, President of the College, the Revd. O. B. Brown, President of the Board of Trustees, besides the highest recommendations from the Rev. E. Baptist, of Virginia, and very many other distinguished names equally satisfactory.

Mr. Armstrong has taught the present year in the Carterville Academy, Va. Dr. Wharton and Dr. James, of Va. and others, afford the most ample testimonials of his success in Teaching. To all of which the Trustees would superadd, that in an interview with Mr. Armstrong, and an examination of his credentials, and method of Teaching, they are abundantly satisfied, and can with pleasure and confidence, recommend him to the public.

The School will go into operation on the 8th day of January next. The price of Tuition will be $8 per session for Reading, Writing and Arithmetic—$10 for English Grammar, Geography, History, &c.—$12 for Latin, Greek, French, Astronomy, Natural and Moral Philosophy, Mathematics, and all the higher branches of Arts and Sciences, to be paid in advance. The Trustees have obtained from Chapel Hill, the System of Studies taught there, and the course of Studies in this Academy will be precisely such as to prepare Students from this School to enter with ease the Freshman, Sophomore, Junior, or even Senior Class of our University.

The Trustees are well aware of the inconveniences that a young man labors under, who enters College, having pursued a course of studies different from that taught in the University, and they are determined to have an eye to it.

Board can be had in respectable houses in the Village at $37 50, per session.

The character of Nashville is so well established for health, that it is deemed unnecessary to say any thing here. There are several never-failing Springs of excellent water near the Academy.

The Trustees are convinced that no Academy ever commenced under more favorable auspices. Indeed, if a distinguished Teacher, healthiness of situation, cheapness of terms, and vigilance in the guardians of the school, can recommend it to a generous public, we are assured that this Institution will be very liberally encouraged.

By order of the Board,
H. BLOUNT, Sec'y.

## Trust Sale of valuable Real Estate,
*on New-Hope creek, in Chatham county.*

Agreeably to the conditions contained in a deed, executed by the late William R. Hill, there will be exposed at public sale, to the highest bidder, at the Court House in Pittsboro' on Monday, the 12th day of February next, a valuable TRACT OF LAND, containing, by estimation, four hundred and seventy-five acres, (475) lying on both sides of New Hope creek, within one or two miles of Haw river. This land has on it, perhaps, the most valuable mill seat on the creek, and the only one which can, with profit to the owner, be established between that and its entrance into Haw river. The terms of sale will be six months credit, for *paper undoubted*, negotiable at the office of the Bank of Newbern, in Raleigh, bearing interest from the date. And a part of the purchase money may be extended to twelve or eighteen months credit, on the same terms. This, however, will be made known on the day of sale by the

## *Louisburg Female Academy.*

The examination of the Pupils in this institution closed on the 30th ultimo, on which day honorary certificates and gold medals were presented to three young ladies, who had completed the course of study adopted in the Seminary.

The trustees wish, in justice to Miss Ramsay, the Lady who conducts the School, and to the parents and guardians of the pupils, to express the very high gratification which this examination afforded as well to the parents and guardians who attended the same, to its patronesses. The regularity and accuracy displayed could only have been attained by great diligence on the part of the young ladies, assisted by the constant and unremitting attention of their preceptress.

The Trustees take much pleasure in announcing that they have engaged the services of Miss Ramsay for another year; and that the exercises of the School will be resumed on the first Monday in February next.

## Consumptions, Coughs, &c.

### *Butler's Vegetable Indian Specific,*

For the cure of Colds, Coughs, Consumptions, Spitting of Blood, Phthisis, and all disorders of the Breast and Lungs.

There is perhaps no medical observation better established, none more generally confirmed by the experience of the best Physicians of all ages and countries, and none of more importance to the human family, than the fact, that many of the most difficult and incurable consumptions originate in neglected colds. In a climate so variable as ours, where the changes of the weather are frequently sudden and unexpected, it requires more care and attention to guard against this dangerous enemy of life, than most people imagine, or are able and willing to believe. The bills of mortality exhibit the melancholy fact that the proportion of deaths by this disease may be considered as about five to one. Inasmuch then as this fatal disease bids defiance to the skill of the most learned physicians, it is a gratification to the Proprietor that he is enabled to offer to those afflicted with it a goodly prospect of relief in that highly valuable remedy the *Vegetable Indian Specific.*—The Indians are happy in their knowledge of medical plants; governed wholly by experience, they are certain as to their effects; and it is said by an author of great character, that a true consumption is a disease never known among them.

The celebrated Dr. Cullen has taught us that our first attention should be employed in watching the approach of the disease and preventing its proceeding to an incurable state; and in persons of a consumptive habit, especially those born of consumptive parents, the slightest symptoms of an approaching consumption at the consumptive period of life ought carefully to be attended to."

The Specific is obtained by extraction from herbs, roots, flowers, plants, &c. when in perfection. In consequence of a happy combination of the most valuable herbs, it becomes a balsam of superior value. It heals the injured parts, opens the pores and composes the disturbed nerves, after the manner of an anodyne; consequently the obstruction of the chest and the lungs which constitute the disease, particularly need its use. It promotes expectoration, which is constantly called for; and whilst it cleanses and heals it also gives strength to the tender lungs. In this manner it removes the hectic fever, improves digestion, gives strength to the nerves, repairs the appetite and improves the spirits.

This specific may always be given in safety—it is mild, pleasant to the taste, and is found particularly useful in hypochondrical, nervous and hysterical diseases.

Each bill of directions contains a detailed account of this disease in all its different stages, and is signed by the proprietor, Wm. Butler, in red ink.
