FOREIGN.

New York, Dec. 1. By the packet ship Brighton, Capt. Perry, arrived yesterday, London dated the 1st November were received. We have received our files, we will ourselves of the following abridgement of the news from the American.

Nothing new in the position of the late billerents is disclosed. The fact had ratified the treaty of Adrianople, and sent to St. Petersburg an ambassador and presents—among these a clock of fine workmanship with pearls and diamonds for the Empress, & ten Turkish shawls adorned with pearls and brilliants for the Empress.

Speculations are numerous in both the French and English papers, as to the probable issue of the present condition of things between the ports and Russia. The Augsburg Gazette, as quoted by the Paris Messager du Commerce of Sept. 28, contains a statement of the difficulties of the Porte to the stipulated indemnity, and then follows these suggestions:—“Will the great powers advance money to the Porte, or will the Russian troops occupy the provinces till all the expenses of the war are paid? In the latter case it would be long before the Sultan would recover his authority in those provinces, and he would, besides, be deprived of his best resources. In the other case, the European powers who made the advances, must dispense with all formal receipts, and consider them rather as a free gift than as a loan.”

The London Courier of 30th, in copying some remarks from the Berlin Gazette which look a little like paying the way for a permanent occupation by the Russians, at the request of the inhabitants of Adrianople and Roumelia, affords to discourage the idea that these marks are from the pen of any Minister, or that they tear the veil from the Russian policy; yet the Courier itself seems to us to have misgivings on the subject.—Cairns.

General Coffee, of Alabama, has received instructions from the Secretary of War, directing him to collect such testimony as he may be able to obtain relative to the boundary line between the Creek and Cherokee nations of Indians, concerning which there is a difference of opinion between the State of Georgia and the Cherokee. In accordance with the object of his appointment, he has written a letter to the Governor of Georgia, asking all the information in his possession which may throw any light on the subject, and stating that he should leave home on the 16th Nov. and expected to arrive at the Cherokee Agency about the 22d.

Mr. Baldwin.—We perceive by the Pittsburg papers that this gentleman declines the solicitations of his friends to become a candidate for a seat in congress, and that his resignation is based upon the supposed feeling of excitement existing in his neighborhood against the Masons.

But admitting the preference which the meeting and yourselves have been so kind as to express in my favour is merited, I cannot withhold the expression of my opinion, that under existing circumstances, it would be improper that my name should be presented to the people.
