entire to inquire and reflect. To the Legislate, as he passed by to the mocil Half of the State, as well as to the ardenand young of every confion, it taught a lesson the most salutary, and ut the less impressive bears it was communicated without the formalitie of instruction. While refuted the calumny which stigmatives republic as ungrateful, it taught is true glory is the meed of virtue, and that, thugh temporary populari-car be gained by courting public favor, permaent renown, the renown hich triumphs over the grave, is awarded to him tone who seeks the pubod with pure and devoted disinterestedness. Besides, few sentiments and to be more congenial with patriotism, or nore favorable to puband private virtue, than a rational State priss. As no one can love that which he is ashamed, so it is impossible not to reard with affection the mounity of which we are proud to be members. The duty of advancing a prosperity, defending the rights, and cherishin, improving and perpetuing the institutions of one country, is performed with ardour when that antry stands high in our own estimation and is known to be respected others. To serve it becomes a pleasure and ceres to be a task, when feel that it is worthy of our service; and every, con the humblest, citiof a free State appropriates to himself a portion the reputation which
longs to the State itself. As that reputation is reed, his self-respect is
reased; and if self-respect be not itself a virtue, is assuredly one of the

sit safeguarts against the degralation of view.

Impressed with these sentiments which they entering in cammon with the symmetric proposed by Mr. Hughes, and comparing the presentant tilter and defacted latter with its former well remembered particular and defacted latter with its former well remembered particular and defacted latter with its former well remembered particular and defacted latter with its former well remembered particular and restrict the wisest realizations. aired, must soon destroy it entirely. The duty of attening its restora-

In the opinion of your committee it would be a wastefparsimon, by a struction of your committee it would be a wastefparsimon, by a struction of the property worth five thousand dollars, to permit the destruction public property worth five times that sum. In their opinion, the abandorant of this once magnificent monument to the fate with which it is threated, would subset North Carolina to the just repreach of the other Station the confederacy, of all who venerate the memory of Washington, and the advances of genius and art throughout the civilized world. In their pain, though the people of North Carolina may be poor, they are ready encounter any upenditure which is demanded by a just respect for larm vest and your committee believe that the Legislature would little consucitor the character or the wishes of those whom it represents, if it refuses embrace this seter or the wishes of those whom it represents, if it refuses embrace this pportunity of re-erecting the Statue of him, who, living, walways first in the hearts of our lathers, and whose name is now enshringwith the same recedence in the affections of their sons.

The committee unanimously recommend the following plution: Resolved, That the Governor be authorised and request to make a conn the basis of the principles set forth in this report, and it he be autho-d to draw warrants on the Treasury from time to time an amount not scending five thousand dollars, in order to carry such conet into effect.

Bespectfully submitted. WILL GASTON, for sommittee 0-000-0-

REPORT

Relative to incorporating the Mecklenburg Gold Mini Carpany.

The committee to whom was referred "a bill to incorpore the Mecklen burg Gold Mining Company," having had the same und cosideration, respectfully report,

That, in the very threshold of their investigation, they be ben forcibly impressed with the growing importance of the mining intest a North Carolina. Within a few years past, it has attracted much of able attention, GENERAL ASSEMBLY.

The proposition was agreed to.

the creation of the state, any was recommended by a sound and sagacious policy. A monument like this was
now, it tught a lessor the wort salutary, and it, the less impressive becontinued to the creation of the state, any was a continued to the creation of
the state, and which ought is they state of the sound of the mining interest may be extended to mining enterprize.

The capacity of the sound and support of the state o

vinced that it would be good policy to cherish, with a prompt and liberal encouragement, the mining operations of the State. This can only be encouragement, the mining operations of the State. This can only be encouragement, the mining operations of the State. This can only be encouragement, the mining operations of the State. This can only be encouragement of sufficient capital, either domestic or was referred the petition of Educated Forbes, of foreign, or both, for that purpose. For however substantial the berefits may have been which have hitherto been decived from this source, yet it cannot be denied that previous expenditure in mining has been chiefly by way of experiment; and that the present condition of the operations urges the adoption of some new system, by which the mines may be wrought under more favorable auspices.

under more favorable auspices.

Your committee presume it will not be questioned that mining prosecutions will rarely, if ever, by attempted by individuals singly, and without aid from associates in the undertaking. It has never been done to any profitable extent in this country; and in richer and older countries, where wealth is often overgrown, and is not distributed with so equal a hand as here, all experience has demonstrated that private and upassisted opulence, however immense, has never been devoted to the exploration of the mines. and would be wholly inadequate to the object.

This remark applies, with additional reason, to all "vein mines," which must be sought for, if successfully, to great depth and at great expense; and which, while they are always the most permanent and profitable, are at the same time the most expensive. This is the class now seeking Legis-

ain appears to weigh but little in his estimation. Wi the enthusiasm of run. No matter in what degree a person may be interested in such a con-in artist devoted to his profession, he seems impelled blue ambition of he- cern. if it be but for one cent, or to thousands of dollars, he is responsioming the restorer of the Statue of Washington, and us to connect his ble for all the contracts, and subject to all the misfortunes of the company, however numerous, or however various their interests. A variety of casu-One fact highly honorable to the disinterestedness of the Hughes, your allies may expose the richest partner to poverty and uncertain, and where he totalion of the Statue is the making of a perfect cast in mister. It is represented to your committee that in all such cases it is ull for the artist to tendent, and where he risks not only the amount originally invested, but his model in order that he may be enabled to said it as a speciment, and where he risks not only the amount originally invested, but his whole estate. In a partnership, also, the death, or any legal disability of any party, however numerous the association, dissolves the concerns and a transfer of his interest will not free him of his liability. There is scarcely a possibility of its duration for any length of time; and new and intricate rights and duties are constantly springing up. Your committee, the property of the people of North rollins. It cost therefore, are satisfied that partnership associations do not afford facilities and large sum, and in the estimation of competent judgets value exceeds that cost. This present condition it is without use a without value, and inducements to capitalists to incline them to invest in any eggree properties of our mines, er to the importance of the policy of increasing the reveal for the spring in the statue is the making of a perfect cast in mister. It is represented to your committee that in all such cases it is ull for the artist to the misman agreement and indiscretion of a distant supering defency of increasing the reveal for the springing of colour; were instructed to inquire into the prolement of committee that in all such cases; it is united to the misman agreement and indiscretion of a distant supering defency of increasing the reveal for closers of increasing the reveal disability. On motion of Mr. Bell, the pro One fact highly honorable to the disinterestedness our. Hughes, your alties may expose the richest partner to poverty and utter ruin. No one ompittee take pleasure in stating. A necessary prelimary step to the retoration of the Statue is the making of a perfect cast in nister. It is retorated to your committee that in all such cases it is ual for the artist to tendent, and where he risks not only the amount originally invested, but

which it is so vitally our sucress.

The objections adverted to, do not hold in relation.

The stockholder is liable only to the amount of his subscription, and may transfer his interest without endangering his private fortune. The existence of the corporation, tao, is not subject to chance. So essential is some principle of this kind, that in all extensive mining countries, adventurers are in the control of the corporation of the corporation, tao, is not subject to chance. So essential is some principle of this kind, that in all extensive mining countries, adventurers are in the control of the corporation of the corporation, tao, is not subject to chance. So essential is some principle of this kind, that in all extensive mining countries, adventurers are in the control of the corporation.

The existence that it is inexpedient to region that it i vance the general prosperity. Your committee, therefore, recommend the policy of incorporation for mining objects, under such restrictions and respointly of incorporation for mining objects, under such restrictions and regulations as the Legislature, in its wisdom, may think fit to impose, and not incompatible with the proper and essential rights of the corporation for the compatible with the proper and essential rights of the corporation for the compatible with the proper and essential rights of the corporation for the contemplated without injuring the community. Mining in North Carbinal a vet in its infancy; and, even in its infancy, the large amount of capital already extended has given an impulse clearly perceptible in the advancement of her interests. Policy dictates the continuance of this firm pulse. It has been said, with much propriety, that "the precious metals can never glut the market, nor mining for them be overdone." There can important addition to the common stock.

Your committee are deterred, by the length of their report, from the prosecution of an inquiry which might be usefully extended.

The bill immediately under their consideration, they are satisfied that the rights of the corporators and the interests of the community are equally indemnified; and, with some slight amendment, which will be offered by indemnified; and, with some slight amendment, which will be offered they recommend its passage into a law, and believe that its rejection would prove injurious to the best interests of North Carolina.

All which is respectfully submitted.
