9 Law. Besides Municipal Law, in all its branches, there are here also taught the Law of Nations, the Science of Government, and Constitutional Law

Private arrangements are made, from session sion, by the officers and students of the University, the the due performance of public worship and the attendance of a Minister. The Rev. N. H Calibs, of the Episcopal Church, has been eneaged, and will officiate during the next sea-

The attention of parents and grardisms is particularly requested to the following provision in

the emicliments: No student shall be admitted under sixteen years of age, except when he has a brother in the

University over sixteen

Every student must, before matriculation, deposite with the Patron all the money, drafts, &c. in his presentation; and the amount must be at least sufficient to pay his fees, rent, &c. and three months board. All funds subsequently received by him must also be deposited with the Pateon, who has charge of his dishurse-

Notes of the Bank of the United States, and of the Banks chartered by the State of Virginia, or bank drafts upon either of the banks in the eits of Richmond, can alone be received on de-posite by the Patron of the students. Every student shall be permitted to select his

schools: provided, nevertheless, that every studeat under the age of twenty-one, shall attend at least three Professors, unless, when he matristient three Professors, unless, when he mani-culates, his purem or generalism shall prescribe, in writing, the schools shich he is required so stread, or indexs the Faculty, for good cause shown, shall allow him to attend less than three. The dress of the students shall be uniform and

Such uniforms, made according to a model prescribed in the exactments, may be had on moderate terms in Charlottesville]

MEDICAL DEPARTMENT. The Medical Lectures in this institution will commence on the 10th day of September, and will terminate on the 1st of July John P Emmet, M. D. Professor of Chemis-

try and Materia Medica Alfred T Magill, M. D. Professor of Theory and Practice of Medicine, Midwifery, and Me-

public rooms \$15

This reboal possesses the great advantage of having a session of more than ten months, which enables built the usual number of professors in Medical schools, to perform the duries of the de-

partment, by which she aggregate of peofessors fees is very much diminishing. A still greater benefit results from the length of the session, and It is one too which can only be appreciated by those who have been obliged elsewhere to attend or lectures a day, is, that the studies are con ed so gradually that the student, instead of being hurried over the ground be is to travel, with a rapidity inconsistent with profound study, is en-sided to investigate thoroughly each subject, as is presented to his mind

The school of Anatomy and Surgery is liberally supplied with subjects for dissection, and there is attached to it a large Anatomical Mu-

A course of Lectures in this institution is reerired as equivalent to a course in either the Phiseity of Raleigh, on the eighteenth day of August hatelphia, Baltimore, or Teansylvania schools, so next, it being Monday of Wake County Court, that a student who has attended a full course of betures here, is entitled to stand for graduation after one session's attendance, in either of the al evenientimed institutions

The Professors in the Academic and Prefession il selimits, are required each to lecture three times a week, making an aggregate of only nine by ures; which a student of even moderate
