GF-HEADACHE is the favorite sign by which nature

nakes known any deviation whatever from the natural

state of the brain, and viewed in this light it may be look-

ed on as a safeguard m ended to give notice of disease

remedied ; and its indications should never be neglected.

Headaches may be classified under two names, viz: Symp-

tomatic and Idiopathic. Symptomatic Headache is ex-

ceedingly common and is the precursor of a great variety of dresses, among which are Apoplexy, Gout, Rheumatism

and all febrile diseases. In its nervous form it is sympa-

thetic of disease of the stomach constituting sick headache.

of hepatic disease constituting bilious headache, of worms,

constipation and other desorders of the owels, as well as

urenal and uterine affections. D seases of the heart are ve-

ry fequently attended with Headaches; Anæmia and ple-

thora are also affections which frequently occasion head-

ache. Idiopathic Headache is also very common, being

usually distinguished by the name of nervous headache,

sometimes coming on suddenly in a state of apparently

sound health and prostrating at one the mental and phy-

sical energies, and in other instances it comes on slowly,

heralded by depression of spirits or acerbity of temper. -

In most instances the pain is in the front of the head, over

one or both, eyes, and sometimes provoking vomiting ; an-

phalic Pills have been found a sure and safe remedy, re-

ceiving the most acute pains in a few minutes, and by its

ubtle power eradicating the diseases of which Headache

gone with the Sick Headache, and wants some more of that same as relaived ter before.

CONSTIPATION OR COSTIVENESS .- No one of the "many

ills flesh is teir to" is so prevalent, so little understood, and so much neglected as Costiveness. Often originating

in carelessness, or seden ary habits ; it is regarded as a

slight disorder of too little consequence to excite anxiety,

while in reality it is the precursor and companion of ma-

ny of the most fatal and dangerous diseases, and unless

early eradicated it will bring the sufferer to an untimely

grave. Among the lighter evils of which c stiveness is

the usual attendant are Headache, Colic, Rheumatism,

Foul Breat', Piles and others of like nature, while a long

train of frightful diseases such as Malignant Fevers, Ab-

cesses, Dysentery, Diarrhea, Dyspepsia, Apoplexy, Epi-

lepsy, Paralysis, Hyste ia, Hypochondriasis, Melancholy

and Insanity, first indicate their presence in the system by

this alarming sym tom. Not unfrequently the diseases

named originate in Constipation, but take on an indepen-

dent existence unless the cause is eradicated in an early

stage. From all these considerations it follows that the

disorder should receive immediate attention whenever it

occurs, and no person should neglect to \_ t a box of Ce-

Tohn C. Himself Again .--- The subscriber: begs leave to inform his friends and the public. that he has regained his health, and will continue the Auctioneering business at his newly fitted-up establishment near Hackney Pool's Clothing Store. The room will be lighted up with Gas, and so arranged as to make both bidders and goods appear well. I have also made arrangements to have a full life-size portrait of my brother Chip taken, and will exhibit it whenever bad onlying articles are offered, as the contrast will be so great as to make the goods appear better. I can't promise to talk like Douglas, but wi
