Overt Acts.

These who seek to justify or palliate their acquiescence in the rule of a Black Republican dynasty over hese States on the weak pretext of waiting for an vert act of outrage and oppression, would do well to read and consider the following array of overt acts of aggression against the South, which Governor Wise as so forcibly grouped in one of his recent speeches: After rehearing a history of the rise and progress of slavery agitation, Governor Wise proceeds:

This makes the triumph of what is called Black Republicanism certainly probable in the next thirty And we need not to be informed what Black Republicanism is. It is the very demon of national dishord It is death to the slave States or to the con-

It has announced its purpose of total abolition in the States and everywhere, as well as Territories and Districts, and other places ceded. And, 1. It has proclaimed an urrepressible conflict or high-

3. That the slave States shall not govern themselves in respect to their own property, in their own limits; but that while Territories are to be allowed to prohibit slavery in their limits, the States will not be permitted to protest it in peace in theirs.

4. That the slave States and their citizens are be corred to submission. And such aggression as this amounts to actual war. It is proclaimed already and awaits only the action for the power and the Tracans to coerce submission. The election will give it both. And it is the worse for coming in all the panloply of a mere form of right. The form is the election, and the election will be constitutional. The form of the election may be constitutional, but its intent and purpose is our invasion, and a violent infraction of the Constitution. No matter what may be the form, the substances is aggres-

RALEIGH, N. C., WEDNESDAY, MARCH 27, 1861.

THE ORIGINAL DRAFT PREPARED BY THOS. JEFFERSON. 1. Resolved, That the several States composing the United States of America, are not united on the principles of the unlimited submission to the general government; but that by compact under the style and title of a Constitution for the United States, and amendments thereto, they constituted a general government for special purposes, delegated to that government certain definite powers, reserving each State to itself the residuary mass of right to their

own self-government, and that, whensoever the general government assumes undelegated powers, its acts unauthoritative, void, and of no force; that to this compact each State acceded as a State and is an integral party; that this government, created by this compact, was not made the exclusive or final judge of the extent of the powers delegated to itself; since that would have made its discretions and not the Constitution, the measure of its powers; but, that as in all other cases of compact, among parties having no common judge, each party has an equal right to judge for itself as well as of infractions as of the

Kentucky Resolutions of 1798 and 1799.

That the Constitution of the United States having delegated to Congress a power to punish treason, counterfeiting the securities and coin of the United States, piracies and felonies committed on the high seas, and offenses against the laws of nations, and no other crimes whatever, and it being true, as a general principle, and one of the amendments to the Constitution having also declared, " that the powers not delegated to the United States by the Constitution, nor prohibited by it to the States, are reserved to the States respectively, or to the people, therefore, also, the same act of Congress, passed on the 14th day of July, 1798, and entitled, "An act in addition to the act entitled an act for the punishment of certain crimes against the United States;" as also, the act passed by them on the 27th day of June, 1798, entitled, "An act to punish frauds committed on the banks of the United States," (and all other of their acts which assume to create, define, or punish erimes others than those enumerated in the constitution) are altogether void and of no force, and that the power to create, define, and punish such other crimes is reserved, and of right appertains solely and exclusively to the respective States, each within its own

That alien friends are under the jurisdiction and protection of the laws of the State wherein they are; that no power over them has been delegated to the United States, nor prohibited to the form and discipline armed companies to appeal to individual States distinct from their power over citizens, and it being true, as a general principle, and one of the amendments to the Constitution having also declared that "the powers not delegated to the United States by the Constitution, nor prohibited to pensate for the cost of running off their slaves to the States, are reserved to the States respectively, or to the people," the act of the Congress of the United States, passed the 22d day of June, 1798, entitled " An act concerning aliens," which assumes power over aliens not delegated by the Constitution, is not

Resolved, That in addition to the general principle as well as the express declaration, that powers not delegated are reserved, another and more special provision inferred in the Constitution, from abundant cantion has declared, "that the migration or importation of such persons as any of the States now existing shall think proper to admit, shall not be prohibited by the Congress prior to the year 1808."-That this commonwealth does admit the migration of ailen friends described as the subject of the said act concerning aliens; that a provision against prohibiting their migration, is a provision against all acts equivalent thereto, or it would be nugatory; that to remove them when migrated is equivalent to a prohibition of the migration, and is, therefore, contrary to the said provision of the Constitution, and roid

6. Resolved, That the imprisonment of a person under the protection of the laws of this commonwealth on his failure to obey the simple order of the President, to depart out of the United States, as is undertaken by the said act, entitled, "An act concerning aliens," is contrary to the Constitution, one amendment in which has provided, that "no person shall be deprived of their liberty without due process of law," and that another having provided "that in all criminal prosecutions, the accused shall enjoy the right of a public trial by an impartial jury, to be in-

formed as to the nature and cause of the accusation, to be confronted with the witnesses against him, to have compulsory process for obtaining witnesses in his favor, and to have assistance of counsel for his defense," the same act undertaken to authorize the President to remove a person out of the United States who is under the protection of the law, on his own suspicion, without jury, without public trial, without confrontation of the witnesses against him, without having witnesses in his favor, without defense, without counsel, is contrary to those provisions, also of the constitution, is therefore not a law, but utterly void;

That transferring the power of judging any person who is under the protection of the laws, from the courts to the Presidents of the United States as is undertaken by the same act concerning aliens, is against the article of the constitution which provides that "the judicial power of the United States shall be vested in the courts, the judges of which shall hold their office during good behavior," and the said act is void for that reason also, and it is further to be noted that this transfer of the judiciary power is to that magistrate of the general government who already possess all the executive, and qualified negative in all the le-

7. Resolved, That the construction applied by the general government (as is evident by sundry of their proceeding) to those parts of the constitution of the United States, which delegate to Congress power to lay and collect taxes, duties, imports, excises; to pay the debts, and provide for the common defense, and general warfare of the United States, and to make all laws which shall be necessary and proper for carry-

ing into execution the powers vested by the constitution in the government of the United States, or any department thereof, goes to that destruction of all the limits prescribed to their power by the constitutionthat words meant by the instrument to be subsidiary only to the execution of the limited powers, ought not to be so constructed as themselves to give unlimited power, nor a part so to be taken, as to destroy the whole residue of the instrument: That the proceeding of the general government under color of those articles, will be a fit and necessary subject for revisal and correction at a time of greater tranquility, while those specified in the pre-eding resolutions call for immediate

8. Resolved, That the preceding resolutions be transmitted to the Senators and Representatives in Congress from the commonwealth, who are enjoined to present the same to their respective houses, and to use their best endeavors to procure at the next session of Congress, a repeal of the aforesaid unconstitutional and obnoxious acts.

9. Resolved lastly, That the Governor of this com-

monwealth be, and is authorized and requested to communicate the preceding resolutions to the legislatures of the several States, to assure them that this commonwealth considers union for special national purposes, and particularly for those specified in their late federal compact, to be friendly to the peace, happiness, and prosperity of all the States-that faithful to the compact, according to the plain intent and meaning in which it was understood and acceded to by the several parties, it is sincerely anxious for its preservation; that it does also believe, that to take from the States all the powers of self-government, and transfer them to a general and consolidated government, without regard to the special government, and reservations solemnly agreed to in that compact, is not for the peace, happiness, or prosperity of these States. And that therefore, this commonwealth is determined, as it doubts not its co-states are, to submit to undelegated and consequently unlimited powers in no man, or aody of men on earth; that if the acts before specified should stand, these conclusions flow from them; that the general government may place any act they think proper on the list of crimes and | may be fatal to the other. punish it themselves, whether enumerated or not enumerated, by the constitution cognizable by them, that they may transfer its cognizance to the President or any other person, who may himself be the accuser, counsel, judge and jury, whose suspicions may be the the union of all; and the most scrupulous fidelity to evidence, his order the sentence, his officer the execu- that Constitution, which is the pledge of mutual tioner, and his breast the sole record of the transac- friendsdip, and the instrument of mutual happiness, of the inhabitants of theseStates, being by this pre- dispositions in other States in confidence that they cedent reduced as out-laws to absolute dominion of | will concur with this commonwealth in declaring, as the passions and the power of a majority of Congress | measures will be taken by each, for cooperating with to protect from a like exportation or rather grievous | this State in maintaining unimpaired, the authorities, punishment the minority of the same body, the legislatures, judges, governors, and counsellors of the or to the people. And it doubts not that their sense will be so announced as to prove their attachment to limited government, whether general or particular, and that the rights and liberties of their co-States will be exposed to no dangers by remaining embarked on a common bottom with their own. But they will concur with this commonwealth in considering the said acts as so palpably against the Constitution as to amount to an undisguised declaration, that the compact is not meant to be the measure of the power of the General Governlaws made, not with their consent, but by others der one deriving its powers from its will, and not from of the power intrusted to it by a confiding pocple. ing these void and of no force, and will each unite with this commonwealth in requesting their repeal at the next session of Congress.

Virginia Resolutions, 1798-'99.

1. Resolved. That the General Assembly of Virginia doth unequivocally express a firm resolution to maintain and defend the Constitution of the United States. and the Constitution of this State, against every aggression, either foreign or domestic, and that they will support the Government of the United States in all the

measures warranted by the former. 2. The General Assembly most solemnly declares a warm attachment to the Union of the States, to maintain which, it pledges all its powers; and that, for this end, it is their duty to watch over and oppose every infraction of those principles, which constitute the only basis of that Union, because a faithful observance of them alone can secure its existence and the public happiness.

3. That this assembly does explicitly and peremptorily declare, that it views the powers of the Federal Government, as resulting from the compact, to which the States are parties, as limited by the plain sense and intention of the instrument constituting that compact-as no further valid than they are authorized by the grants enumerated in that compact: and that in case of a deliberate, palpable and dangerous exercise of other powers, not granted by the said compact, the States who are parties thereto, have the right and are in a duty bound, to interpose, for arresting the progress of the evil, and for maintaining within their respective limits, the authorities, rights and liberties ap-

pertaining to them. 4. That the General Assembly doth also express its deep regret, that a spirit has in sundry instances, been manifested by the Federal Government, to enlarge its powers by forced construction of the constitutional charter which grant defines them: and that indications have appeared of a design to expound certain general phrases

(which have been copied from the very limited power in the former articles of confederation, were the less liable to be misconstrued.) so as to desiroy the meaning and effect of the particular enumeration which necessarily explains and limits the general phrases, and so as to consolidate the States by degrees, into one sovereignty, the obvious tendency, and inevitable result of which would be to transform the present Republican system of the United States into an absolute. or at best, a mixed monarchy.

5. That the General Assembly doth particularly protest against the palpable and alarming infractioner the constitution, in the two late cases of the "Alien and Sedition acts," passed at the last session of Congress; the first of which exercises a power no where delegated to the federal government; and which by uniting legislative and judicial powers to those of the executive, subverts the general principles of free government, as well as the particular organization and positive provision of the federal constitution, and the other of which acts exercises, in like manner, a power not delegated by the constitution, but on the contrary expressly and positively forbidden by one of the amendments thereto; a power more than any other. ought to produce universal alarm; because it is levelled against the right of freely examining public characters and measures, and of free communication among the people thereon, which has ever been justly deemed the only effectual guardian of every other

6. That this State having by its convention, which ratified the federal constitution, expressly declared, that among other essential rights, "the liberty of conscience and of the press cannot be canceled, abridged, restrained, or modified by any authority of the United gtates," and from its extreme anxiety to guard these rights from every possible attack of sophistry and ambition, having, with other States recommended an amendment for that purpose, which amendment was in due time annexed to the constitution, it would mark a reproachful inconsistency, and criminal degeneracy. if an indifference were not shown to the most palpable violation of one of the rights thus declared and secured; and to the establishment of a precedent, which

8. That the Governor be desired to transmit a copy of the foregoing resolutions to the executive authority of the other States, with a request that the same be communicated to the Legislature thereof, and that a copy be furnished to each of the Senators and Representatives, representing this State in the Congress of the United States.

Resolved. That we, the delegated representatives of the Republican electors of the United States, in convention assembled, in the discharge of the duty we owe to our constituents and our country, unite in the

That the maintenance inviolate of the rights of the States, and especially the rights of each State to order and control its own domestic institutions according to its own judgment, exclusively, is essential to the balance of power on which the perfection and endurance of her political faith depends. And we denounce the lawless invasion by an armed force from any State or Territory, no matter under what pretext

as among the gravest of crimes. 5. That the present Democratic Administration has far exceeded our worst apprehensions in its measureless subserviency to the exactions of a sectional interment, but that it will proceed in the exercise over est, as is especially evident in its desperate exertions these States of all powers whatsoever. the peace and harmony of the country. That the normal condition of all the Territory of the United States is that of freedom. That as our republican fathers, when they had abolished slavery in all our national territory, ordained that no person should be deprived of life, liberty or property, without due process of law, it becomes our duty, by legislation whenever such legislation is necessary, to maintain this provision of the Constitution against all attempts to violate it. And we deny the authority of Congress, of a territorial legislature, or of any individuals, to give legal existence to slavery in any territory of the

United States. 9. That we brand the recent re-opening of the African Slave trade under the color of our national flag, aided by perversions of judicial power, as a crime against humanity, a burning shame to our country and age; and we call upon Congress to take prompt and efficient measures for the total and final suppression

of that execrable traffic. 10. That in the recent vetoes by their Federal governors of the acts of the Legislatures of Kansas and Nebraska, prohibiting slavery in those Territories, we find a practical illustration of the boasted Democratic principle of non-intervention and popular sovereignty, embodied in the Kansas and Nebraska bill, and a de-

nunciation of the deception and fraud involved

11. That Kansas should, of right, be immediately admitted as a State, under the constitution recently formed and adopted by her people, and accepted by the House o iRepresentatives.

12. That while providing revenue for the support of the general government, by duties upon imposts, sound policy requires such an adjustment of these imposts as to encourage the development of the industrial interest of the whole country; and we commend the policy of national exchanges which secures to the working men liberal wages, to agriculture remunerating prices, to mechanics and manufacturers an adequate reward for their skill, labor and enterprise, and to the nation commercial prosperity and independ-

13. That we protest against any sale or alienation to others of the public lands held by actual settlers, and against any view of the free homestead policy which regards the settlers as paupers or supplicants for public bounty; and we demand the passage by Congress of the complete and satisfactory homestead measure which has already passed the House.

14. That the republican party is opposed to any change in our naturalization laws, or any State legislation by which the rights of citizenship hitherto accorded to emigrants from foreign lands shall be abridged or impaired, and in favor of giving a full and efficient protection to the rights to all classes of citizens, whether native or naturalized, at home or abroad.

15. That appropriations by Congress for river and harbor improvements of a national character required for the accommodation and security of an existing commerce, are authorized by the Constitution and justified by an obligation of the government to protect the lives and property of its citizens. 16. That a railroad to the Pacific Ocean is impera-

tively demanded by the interests of the whole country; that the federal government ought to render immediate and efficient aid in its construction, and that, as a preliminary thereto, a daily overland mail should be promptly established.
