To the Public.

THE advantages which all commercial places derive from a regular communication by post, from one town to another, are too many and too obvious to require any demonstration. Gentlemen in the mercantile line, are, undoubtedly, materially interested in such an undertaking.

It has long been anxiously wished, that a post from this town to Fayette-Ville, might be established—the subscribers, therefore, will engage, provided sufficient encouragement is given; that a POST shall go once in every week from this town to Fayette-Ville, one week by the way of the North-West, and return through the Counties of Sampson and Duplin—the next week go to Fayette-Ville, by the way of Duplin and Sampson, and return by the North-West.

In order more effectually to prosecute this design, the subscribers have taken the liberty to solicit the pecuniary patronage of those gentlemen who may be principally benefited in this undertaking.

We are, with respect,

The public's devoted

Humble servants,

BOWEN & HOWARD.
