Bouting on the Cuyuni River. In the fall of 1895 I set forth again with another companion, this time going up the Cuyuni River. We took a small outfit. A prospector's first duty at Georgetown is to obtain a license from the colonial government. He must engage his men for four months, and advance them from five to eight dollars per man. Their wages are two shillings a day (about half a dollar in our money), and their rations, like the wages, are regulated by the government. A prospector on the Cuyuni usually employs from five to ten colored laborers. By steamer he proceeds from Georgetown to the Essequibo River, and a few miles above the junction of that river with the Cuyuni he arrives at Bartaca Grove, where a British gold station is situated. There he engages a boat, with a captain, who steers, a bowman, who stands at the bow to avoid rocks, and four boatmen, unless he has enough laborers in his party to dispense with the boatmen. It takes from fourteen to twenty men to man one of these open boats. The government regulations compel a prospector to hire a captain and a bowman, the former's wages being fixed at three dollars a day, and the bowman's at a dollar and a half .-- Century.

From a Prominent Clergyman.

LAKELAND. FLA. "I was afflicted with eczema, or some kinfired +kin disease, for more than twenty years, and in addition to prescriptions from a great many prominent physicians I had used every-thing I knew of, recommended as curves for skin diseases, without the sightest benefit. Several months agoone box of TETTERINE WAS given me, and by its use I have been cured. Three months have passed, and no sign of its return. I shall ever remember the makers of this valuable remedy with gratitude." Rev. A. C. TURNEL

and child are missing from Kuttawa, Ky. It is said they were blown into the Cumberland river and drowned. The depot was wrecked at Eddyville and a factory blown down and the court house unroofed. Trains are badly delayed on all railroads.

Reports received at St. Paul, Minn., from Winnepeg, Man., state that the worst blizzard in years is raging there. At Winnipeg snow drifts eight to ten feet high are common. The wind is blowing at the rate of 50 miles an hour. All telephone and telegraph wires are down and railroad traffic is seriously de-

The weather throughout Oregon is very cold, the thermometer registering 21 degrees below zero, which is colder than it has been in Portland in twenty-four years. At Kemola, in the Blue mountains, the thermometer registered 15 degrees below zero. It is feared that much damage to grain will result. The first blizzard of the new season has

swept down on north Texas. The mercury fell close to the freezing point and cold bleet fell early. A cyclone struck a corner of Tunisa, Miss.

half a dozen others. The fatalities were not numerous.

SILVER LEADERS TO MEET.

Indications That the Convention at Tampa Will Be a Success.

The indications are that the South Atlantic and Gulf States harbor and improvement convention to meet in Tampa, Fia., Jan. 20, 1897, will be one of the most notable and important

HARBOR IMPROVEMENTS.

events of the South for many years. The call is attracting a great deal of attention throughout the country, the comments of the press being largely favorable to the proposition. It

is believed that all of the Southern States will be represented and by their leading public Blizzard Also and business men, and it is also believed that most of the Eastern, Northern and Western

States will be represented. An invitation has been extended to Presilent-elect McKinley and it is believed that he will accept. The probability that he will be in Thomasville during the month of January adds much to the confidence and hope that he can be induced to visit Tampa on this occasion. It is probable that a special coma high wind. The north-bound Northern mittee of Tampa's prominent citizens will Pacific train got as far as Pembina and the add weight to Governor Mitchell's invitation by a personal visit to the President-elect when he comes to Thomasville. It is also hoped that President Cleveland with members of his cabinet may be induced the buildings alongside. Mail and freight to attend the convention in response to a cordial invitation already extended. This

CAROLINA NEWS. NORTH

THE OLD TIME ALMANAC

Who Was Philip Brooks, the Old Time Astronomer. In Richmond County?

- Charity and Children Rev. John E. Albritton, writing of old almanacs

" 'The North Carolina Almanac' for 1817 was calculated for this State by Philip Brooks, astronomer, of Richmond county, N. C.

"Not every county can boast of an astronomer. Who was Phillip Brooks? or whence came he? Some one might give us an interesting article in reply to these inquiries. I would be glad to see a sketch of Richmend's astronomer.

"The almanac was printed by T. W. Scott at the Minerva press of Raleigh. Abraham Hodge. with his nephew, Wm. Boylan, first published the Minorva in Fayetteville, N. C., in 1796, and a few years alterwards re-moved it to Raleigh where it was

called 'The North Carolina Minerva and Raleigh Advertiser.' Hodge was a New Yorker by birth, but spent the last twenty years of his life in the Old North State, having died in Halifax, Aug. 3, 1805, at about 50 years of age. He was said to have conducted Washington's traveling press while the army was stationed at Valley Forge. From 1875 to the date of his decease, he published newspapers for a longer or shorter period, at Newbern, Denton, Halifax, Fayetteville and Raleigh. His is another distinguished printer's name that should be ever honored and perpetuated by North Carolinians.

At Raleigh, Robert T. Gray, commissioner, under an order of court sold 167.000 acres of land in Dare county. This embraces the entire county save what are known as the Banked section along the ocean shore, part of Durrant's island and all of Roanoke island. the latter being the one on which Sir Walter Raleigh's colonists made the

A FISHERMAN'S STORY. Exposure Came Near Ending His Life.

From the Press, Utica N. Y.

Mr. William Dale is a highly respected farmer living in that part of the township of Brookfield known as the "Waterman District," and is well known as a thrifty and honorable man of independent means. Three years ago Mr. Dale was disabled from rhezmatiam in a most aggravated form, which medical skill seemed powerless to relieve, but suddenly he became to all appearance cured, was able to attend to his work, and

ever since has been in looks at least the incarnation of sound bodily health. The following is Mr. Dale's own statement of his case and what wrought the change. BROOKFIELD, New York, July 14th, 1896.

"I am fifty-one years old, and by birth an Englishman. In my early it o I tollowed the avoen ion of fisherman, in which by expo-sure I contracted rheamatism, from which I suffered more or less for many years. About three years ago, I arose one morning to find myself crippled, and the least exertion brought on most excrudinting pains, so that I was forced to seek relief by going to bed and remaining motionless. Our family phy-sician was immedia ely summoned, and he began the usual course of remedies but instead of helping me I became worse. My joints, especially in my left arm were in-flamed and hot. I suffered much from derangement of the heart, and constant sweaks, which were of a sour, ill smelling asture, My appetite failed me, my tongue was thickly coated, and altogether I was in a bad way. In addition to this, worriment of mind because I could not attend to the spring work on two farms which I owned, made my condition deplorable.

"While in this unhappy state, my friend, Mr Amos Jaquays, of Columbus Centre, hearing of my lilners, came over and r-com-mended me to try Dr. Williams' Pink Pills, which he said had cured him of kidney disease. He also stated that William Woodman, whom I had known to be a terrible rheamatio sufferer all his life, was through this rentdy now in the best of health.

"To make a long story short, I sent over to Mr. Silas York, who keeps a store and sells groceries by wagon through the coun-ty, for a box of Dr. Williams' Pink Pills, and began to take them a cording to directions. The results of the new treatment were astonishing, as after taking nine of the pills I was at work and over since have done my full share of labor. "Pink Pills are now our physician. We

always keep them in the house, and doctors bi ls have ceased to be a part of the family HORSE BOOK, which we will forward, postexpenses. "Those pills are becoming pretty well

known in this part of the country, as all who have here used them swear by them, and do all in their power to make their virtue known.

"The above is a true statement, and if necessary I will make onth to the same. "WM. DALE"

Dr. Williams' Pink Pills contain, in a condensed form, all the elements necessary to g ve new life and richness to the blood and restore shattered nerves. They are an unfailing specific for such diseases as locomotor ataxia, partial paralysis, St. Vitus' dance, sciatica, neuralgia, rheumatism, nervous

Costly Trophies. The head of the musk ox is the most costly of mounted game heads, and next is the head of the bison or buffalo, Fine buffalo heads, well mounted, bring from \$150 to \$500. A head of \$500, however, would be one exceptionally large and choice, and a fine head can be bought for \$250. Fifteen years ago a well-mourted buffalo head could be bought for from 150 to \$100. The increase in prive is .ccounted for by the growing scarcity of the buffalo, which has now practically disappeared from the United States. The wood bison of the Great Sta 'e lake region of British North America, which inhabit woodland or mountain districts, are rather more numerous than the prairie buffaloes of this country, but their numbers are limited and decreasing. The wood bison is tot so large as the prests buffalo, and its hair is straighter and very black. The musk ox heads are held at \$300 and upward. One musk ox head owned by a taxidermist in New York is valued at \$750.

"The publisher did not give much space to wit and humor."

A jury found him wisdom in this matter, nevertheless, guilty, but he was discharged, judg- is of the kind that comes by experiment having been arrested by the ence, and the sage warning of the

It is stated that the family of the late Herr Lilienthal, who lately met his partment from the sale of fertilizer death while experimenting with his taxes are usually \$28,000 annually, but flying machine, have ordered all his treatises on aeronautics, as well as all his diagrams and flying apparatus, to be destroyed by fire, which is taken to be an expression of their grief over the manner in which Lillenthal came to his death. This is a rather unsympathetic tribute to the life work of the distinguished professor of aeronautics, whose enthusiasm was evidently not shared by his surviving relatives.

The Chinese are throwing a little light on the coal trust. Anthracite coal ander Sprunt, J. A. Galloway, John D. mined in the Tonquin district is being Whitford, James L. Fowles, R. B. laid down in San Francisco at prices Creecy, W. G. Curtis, William L. Bat- greatly below those of Pennsylvania tle, Peter D. Price, Joseph E. Pogue, | coal. Everybody is sorry for the trust,

> ed in the business of getting about twice as much for coal as it is worth.

New York is about the worst town that ever happened according to Rev. Brougher, of Paterson, N. J. He says of the old town: ""Its business men are cheats, its politicians anarchists, and society there a living lie." This, too, after Roosevelt and Parkhurst have been reforming the place three or four years.

Basiness course to one person in every county. Please apply promptly to Georgia Busi-ness College, Macen, Ga.

Gladness Comes

With a better understanding of the transient nature of the many physical ills which vanish before proper ef. forts-gentle efforts-pleasant effor _rightly directed. There is comfort in the knowledge that so many forms of sickness are not due to any actual disease, but simply to a constipated condi-tion of the system, which the pleasant family laxative, Syrup of Figs, prompt-ly removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes internal cleanliness, without debilitating the organs on which it acts. It is therefore all important, in order to get its beneficial effects, to note when you purchase, that you have the genuine article, which is manufactured by the California Fig Syrup Co. only, and sold by all reputable druggists.

If in the enjoyment of good health, and the system is regular, then laxatives or other remedies are not needed. If afflicted with any actual disease, one may be commended to the most skillful physicians, but if in need of a laxative, then one should have the best, and with the well-informed everywhere, Syrup of Figs stands highest and is most largely used and gives most general satisfaction

Mackerel Plentiful. A dispatch from Boston states that the biggest catch of mackerel for years has been made this season, as nearly all the vessels engaged in that industry have returned to port with very large cargoes. The New England catch for the season is 69,242 barrels, and the largest haul of the season made by any single vessl was valued at \$32,000. The best individual record, says the Dispatch, was made in 1882, when one vessel brought in mackerel valued at \$34,000. Notwithstaading the large catches, prices of desirable lots have advanced.

year ago.

McKinley's Escort.

It is officially announced that Troop A. Ohio National Guard, of Cleveland, will act as a military escort of President-elect Mc-Kinley at the inauguration ceremonies in Washington. Troop A is one of the finest military bodies in the country and probably embodies the most wealthy membership. It is splendidly equipped and well drilled.

Not Allowed to Possess Corn.

Capt. General Weyler has issued a decree notifying all growers of corn in the provinces of Pinar del Rio Habana and Matanzas to gather together all the corn still in their possession and transport it to the nearest towns and settlements by the 20th of next Decem-

land specultion, Will Tour the South. If arrangements can be made, the first infantry, Illinois National Guard, with 1,020 officers and men, Gatling section, signal corps, etc., will make a two week's tour through the historic battlefields of the South next June. Colonel Henry L. Turner, who has just returned from a trip in that section of the country, said it is proposed to take the Illinois regiment to Washington, D. C., Gettysburg, Richmond, Va., Fortress Monroe and about twenty-five battlefields in the South. The success of the trip to Atlanta is partially responsible for the present underaking. Governor-elect Tanner, of Illinois, his staff and several hundred prominent citizens of Chicago will, it is said, accompany the soldiers on the trip.

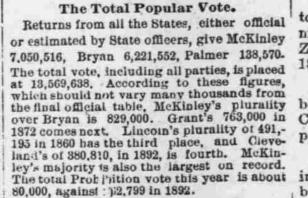

New Senator for Alabama. The two Houses of the Alabama State Leg-

slature voted separately for a United States Senator and in joint session will formally sleet Gen. E. W. Pettus to succeed James L. Pugh. The Republicans voted for M. D. Wickershaw and the Populists for A. P. Longshare,
