

TRUMPET CALLS.
 Sam's Horn Sounds a Warning Note to the Unredeemed.
 THE devil wastes no halt on dead fish.
 Faith is always the basis of joy in religion.
 Get a man to think right, and God will get him to do right.
 God sends his witnesses where they are needed the most.
 The more we love God, the more we will be willing to do for man.
 The devil always goes to the wedding when people marry for money.
 God sees heroes where man sees only the commonest kind of people.
 We may be able to get rid of God's man, but never of God's truth.
 Every dollar some men get increases their chance of missing heaven.
 When some people have nothing to say they seem to talk the most.
 The aim of many sermons is too low for angels, and too high for men.
 A man may wear religion as a cloak, and yet freeze his soul to death.
 Man's blindest eye is on the side where he thinks it will pay to sin.
 The real chosen people of God are those who know his will and do it.
 A doubt is the heaviest burden the devil can bind on a Christian's back.
 No man prays in earnest who does not expect to get just what he asks.
 Obscurity on earth will not keep anybody from becoming famous in heaven.
 The man who walks with God must keep step with everything that is good.
 It is doubtful if we can truly own anything for which we are not grateful.
 The devil has not yet found out how to make the man poor who loves to give.
 The Lord's army was never defeated because the opposing army had giants in it.
 The first dart the devil aims at a young convert is always pointed with a doubt.
 The devil has no dart in his quiver that may not be quenched by the shield of faith.
 The more a man has to say in church, the more it hurts the cause of true religion.
 The man who would have the power to move mountains must begin on grains of sand.
 Let a vote be taken to determine who is the wisest man, and every fool will vote for himself.
 We know exactly what kind of a man Adam was, when we become well acquainted with ourselves.
 The devil is often made welcome in a home where there is a handsome Bible on the center table.
 Treasurer Legg, of Pike County, Ohio, is a defaulter for several thousand dollars and a fugitive from justice. Pike County's Legg should be lured at the first opportunity.
 Nothing in bath or laundry so good as Borax. Dabbing Borax on the face is good for the skin. Costs same as powder. Scouring soap. No one has ever tried it without buying more. Your grocer has it.
 Austria has twenty bicycle factories, which turn out 50,000 wheels a year.
 I can't speak too highly of Pisco's Cure for Coughs, Croup, Whooping Cough, etc. It is sold by Dr. Kline, 811 Arch St., Philadelphia, Pa.
 Mrs. Winslow's Soothing Syrup for children teething, softens the gums, reduces inflammation, allays pain, cures wind colic, etc. A bottle.

FOR QUICK CURING.
 By taking a small portion of good, sweet cream just about to begin souring, bottling it up from the air, and using a small portion to mix with separated cream, the souring can be checked much sooner than otherwise. Raising the temperature of the milk to 170 degrees has been resorted to by various antiseptics.

HORSES NOT WORTH KEEPING.
 The depression in prices of horses makes it still more important than it has been in previous years that the farmer who has superfluous horses shall, after his fall work is done, dispose of the excess of them, to save winter keeping. For a great many such horses, killing and skinning them, and selling the hide for what it will bring, is the fastest way to get rid of them. An old horse, in the fall of the year, is a bad gift to receive, unless the man receiving it promptly converts it into money by selling its hide and using the meat and bones after cooking as food for fowls. But never saw an old horse for which somebody was not willing to pay more than it was worth. We had such an old horse once which we sold in the fall to a man who was cutting and hauling ice during the winter. The price was only \$25 and the horse was killed before spring, as we expected it would, the note unpaid was returned to its maker. The man probably did not lose anything, but if he had to pay the note he would.

STARTING AN ORCHARD.
 The ground for an orchard should be well and deeply cultivated and free from weeds, well drained, if the soil requires it, and moist soils are better for draining except sandy or light gravelly soils with a light subsoil. Such land may not require draining, but in every case it should be well worked and pulverized and enriched. The work of preparation must be done during the summer so as to be ready for fall or spring planting. Planting in the spring is preferred, which will enable the trees to take firm hold of the earth and to resist the frost of next winter; but planting may be done successfully in the autumn by protecting the trees so as to prevent the frost from heaving or mauling them.
 Select young, healthy and vigorous trees, and from a reliable nurseryman, and if possible from a soil similar to that in which you intend to plant your orchard. The different kinds of apples will depend upon your own choice and the suitability of soil and climate. I advise that the selection be made from the old, tried and reliable kinds.
 The distance apart should not be less than thirty feet, so as to allow the trees room to spread their branches and to form a low and spreading head. Close planting has a tendency to force trees to run up, and preventing the fruit from obtaining its proper color from the sun, and making it more difficult to gather the fruit. At the distance of thirty feet apart it will require twenty-nine trees to the acre. Before planting the trees, remove all bruised and broken roots by cutting clean with a sharp knife. Lay out your ground in straight lines, so that your trees will be in line each way and at equal distances, thirty feet apart.
 —William Gray, in Farmers' Review.

ADVANTAGES OF THE SILO.
 The silo will enable a farmer or dairyman to preserve a greater quantity of the food materials of the original fodder, be it either corn, clover, sorghum, rye, oats, or other grasses—all which may be ensiled with complete success for the feeding of animals, than is possible by any other system of preservation now known. When the entire corn crop is in the silo, there can be no possible bleaching and consequent loss of nutrition by the rains of fall or the snows of the winter. It will take very much less room to store the ensilage from a given acre than the hay from the same area. Hay is it ordinarily placed in the mow will occupy slightly more than three times as much room as the same quantity of food material when stored in the silo. Then think of all the extra labor required to store this extra bulk of the labor required to feed it, and the immense expenditure in the force required to do the animal economy to extract the same amount of nutrition from it. Then, too, an acre of corn can be placed in the silo at a less cost than is required to store the same as dry fodder.
 Silage will not burn, is not combustible, and in addition to cheaper insurance for this reason, in the event of fire which might destroy all your buildings, the ensilage would remain intact, and your winter supply of food would be saved. Too much credit can not be given to the succulence of ensilage, which means its greenness and freshness, which makes it highly digestible and greatly appreciated by stock in the dead of winter. The silo affords an even supply of nutritious food during the whole winter. A positive advantage to dairy cows which are quite susceptible to change in the food rations.
 While every kind of farming that has to do with the maintenance of live stock may be greatly benefited by the use of silo, the profits to be derived from its use are perhaps greatest when employed in dairy farming. The experience of many dairymen the country over places the gain in milk and butter from the use of silage during the winter months at twenty-five to thirty per cent. over the feeding of dry feed. When one stops to consider that the price of butter in the winter is frequently double what it is in the summer, a still further advantage may be attributed to the use of silage. It is a generally accepted fact that fifty per cent. more stock can be kept upon a given area of land by the aid of the silo.—Farm, Field and Fireside.

TO REMOVE BLISTERS IN WALL PAPER.
 Carefully cut a slit with a penknife, and paste down the cut surface with a small camel-hair brush dipped in a very little paste. Tap the spot lightly with a small hammer, and when the paste is dry the blister will have disappeared entirely.

ECONOMY ON THE FARM.
 One of the best farmers in this section of the country (Bravo County, New York) writes E. L. Vincent, once said that the secret of his success was that he began early in life to save in every direction he could. The little savings thus made from time to time enabled him to build up his business in every direction; and long before his death he came to be classed among the few really prosperous farmers of his locality.
 Being desirous to know in what direction this man's economy led, I made a few mental notes of his plans as shown by the farm he owned, and I soon discovered that his saving was not of the class usually seen in the country; for he had good barns for his stock. The wind did not whistle through a dozen cracks and crevices, causing his cattle to shiver, and calling for larger outlays for fodder and grain to keep them through our long Northern winters. He had plenty of buildings for storing the implements used about his farm. No wagons, sleighs or tools lay out of doors, rusting or rotting in the summer rain. All these buildings were kept in a good state of repair and the farmer showed signs of careful attention. His work was done promptly in season. No ripened grain went to seed, and no weeds grew rank among his crops. In buying he was careful to get only the best of everything, and in selling he established a reputation for fair dealing. His word was as good as his note. It might seem as if all this indicated a lavish expenditure of time and money, instead of economy; but it may be safely set down as a fact that a farmer cannot waste his resources more surely and effectually than by being niggardly toward his land, his crops and his buildings. A half-starved farm, soil fairly crying out for more liberal feeding, cattle shivering on a miserable existence in open barns or barren pastures are proof positive that their owners are exceedingly wasteful all along the line. It pays to be generous with the farm. The return comes surely and soon.

FROST AND PLANTS.
 If one can in some way afford protection to the more tender flowering plants—such as are injured by a slight touch of Jack Frost—the beauty of the garden will be enjoyed for a longer period. This may be accomplished by the use of a screen of cheese cloth stretched over and a little above the beds at night when the signs indicate frost. This thin network will effectively prevent the cold from settling, acting in respect to frost as the Davy lamp does to the gases in coal mines. Where the plants are not of any great height, this means is very practicable, and has been used to much advantage by one grower of violets. His plan is to stretch a screen of cheese cloth over and a little above the beds at night when the signs indicate frost. This thin network will effectively prevent the cold from settling, acting in respect to frost as the Davy lamp does to the gases in coal mines. Where the plants are not of any great height, this means is very practicable, and has been used to much advantage by one grower of violets.

THE COLORED BAPTISTS REPORT A MEMBERSHIP OF 1,500,000, WITH 11,000 ORDAINED MINISTERS; 13,000 CHURCH BUILDINGS VALUED AT \$10,000,000, AND 9,000 SUNDAY SCHOOLS WITH MORE THAN 500,000 SCHOLARS.

THE FIRST FEMALE STUDENT IN THE WORLD TO RECEIVE A DIPLOMA IN LAW WAS MISS C. B. RAY, A YOUNG COLORED LADY OF NEW YORK CITY. SHE GRADUATED AT HOWARD UNIVERSITY, WASHINGTON, D. C.

Wm. H. Day, of Harrisburg, Pa., is the only colored man in the United States who resides over a white school board in a city that has a population of 50,000. He is also President of the County School Board.

Mr. Perry G. Walker, of Henderson, Ky., has composed the music for an offertory soprano or tenor, entitled "Ashamed of Jesus." It is dedicated to Bishop G. W. Clinton, of the Zion Church.

S. R. Lowry is the largest silk worm grower in the South. He is situated near Huntsville, Ala. He took a premium at the New Orleans Exposition over several foreign competitors from China, France, Japan and Italy.

Thos. W. Stewart, of Kalamazoo, Mich., will soon publish two books, entitled "Universal History of the Great Race of Man," and the "Encyclopedia of the Universal Progress and Achievements of the Great Human Race."

Lieut. J. F. Van Duzen, 1st Quarter-master First Battalion colored infantry, T. V. C., has been placed on the retired list after twelve years of honorable service.

The post, Lawrence Dunbar, is getting much more advertising than he would if he had been a Caucasian.

The first public wedding of colored people to be celebrated in Trinity Church, Boston, was performed last week. The principals were Miss Lilla Davis and Mr. Samuel E. Courtney, Rev. Dr. Winchester Donald officiating.—Boston Conservator.

Baltimore threatens the public with a rival for the famous favorites, Misses Nahar and Hallie Q. Brown in the person of Miss Georgine Kelley, a teacher in the Baltimore school. Miss Kelley impersonates well and may write her name high.—Wilmington Sentinel.

RACE CULLINGS.
 In the State of Missouri there are 750 colored teachers and 51,000 colored pupils.
 Rev. O. Summers, an Afro-American, is chaplain of the Legislature of California.
 Felix Weir, a colored boy of Chicago, Ill., eleven years old, is a musical prodigy on the violin.
 Washington, D. C., has a home for friendless colored girls, which has been in existence eight years.
 Central Tennessee College has enrolled one hundred and eighty students in the medical school.
 Booker T. Washington has been chosen one of the lecturers for Oberlin College this session.
 The first and only colored Roman Catholic Priest in this country is Rev. Augustus Tolton, of Quincy, Ill.
 Hon. — Taylor, recorder of deeds, will practice law after McKinley appoints his successor.—Wilmington Sentinel.

The Afro-American population of Rochester, N. Y., is 900. Only six men and women cannot read and write.

The first Negro to be admitted to the bar in the State of Illinois was Lloyd G. Wheeler, who was admitted in 1869.

Dr. H. Fitzbutler, of Louisville, Ky., was the first colored physician to practice medicine in the State of Kentucky.

The Woman's League composed of colored women of Denver, Col., has been admitted to the Colorado State Federation of Clubs.

The first colored woman to receive the Degree of A. M., was Miss Mary Patterson. She graduated in Oberlin College, Ohio, in 1862.

A. Humbles, an Afro-American, loaned the Baptists of Virginia \$13,000 with which to build a seminary at Lynchburg, recently.

Matthew Lancaster, a well-educated Negro of St. Louis, will head a colony of colored people which will take up Brazilian lands.

Mrs. Alpha V. Miner, of Kansas City, Mo., is one of the most successful business women of the race. She is said to be worth \$10,000.

H. D. Smith is the wealthiest colored man of Greenville Co., Va. He owns a valuable farm and operates the largest saw-mill in that section.

Wiley Jones, of Pine Bluff, Ark., is one of the wealthiest colored men of his State, and is one of the largest.—The Freeman.

William A. Roberson is the only colored grocer in St. Paul, Minn. He has a fine grocery store at the corner of Sibley and Spruce streets. He has excellent delivery service.

Miss Melinda Thompson, of Arkansas City, Ark., aged 16 years, is a successful lecturer. Her lecture for the week is "The Negro in History," and she has the encouragement of all race loving people.

The Identification Needed.
 Mrs. William Maydenbauer, of Seattle, Wash., is a woman who deserves to go down to posterity as one with an admirable sense of humor. She became known to fame in the following manner: One day she entered the First National Bank and presented to the cashier, one Turner, a newcomer in the city, a properly drawn check. Mr. Turner demurred at paying it because he did not know her. He informed her that she would have to be identified. She looked up and, discovering that a stranger was waiting on her, remarked succinctly:
 "Well, sir, if any identification is necessary you are the one to be identified. I have lived here all my life, and never saw you around here before."
 The cashier cashed the check.—Boston Advertiser.

Oom Paul Could Fill It.
 Here is another characteristic story about the president of the Transvaal. In the days when Johannesburg was merely Ferreira's mining camp, Kruger was one day riding over the Witwatersrand in ordinary burgher attire. He off-saddled near a wagon owned by a German. The Teuton did not recognize the president, and held forth on the many things he would do were he ruler of the state. Suddenly Oom Paul, to the great astonishment of the German, who was a very small man, took off his coat, and holding it out toward the stranger, said: "Put this on." "But," replied the latter, "it's too big." "Just so," replied his honor, with a grim smile. "I'm Paul Krueger, and it is not too big for me."

Beware!
 There is a new kind of bug, and it is a corker. It is spreading over the country from the Southwest, and human beings are its chosen prey. Already it has invaded the Mississippi Valley in great numbers, and many persons have nearly died from its bites. Not a whit more cheerful does this news become when it is explained that the insect in question is a giant species of bed-bug. It comes from Mexico and Texas, and it measures a full inch in length.

Money in Carrots.
 Roslyn, Long Island, has a woman farmer who raises such plebeian vegetables as carrots and turnips for the market. She is Mrs. Taber Willets, and her place is the pride of the natives. She is a practical agriculturist and makes farming pay to a remarkable degree. It is encouraging to know, however, that her strictly practical ideas do not prevent her from surrounding her vegetable garden with a border of box, in which sweet peas and wallflowers bloom.

SUFFERING IN SILENCE.
 Women are the real heroes of the world. Thousands on thousands of them endure the dragging torture of the ill peculiar to womankind in the silence of home. They suffer on and on—weeks, months, years. The story of weakness and torture is written in the drawn features, in the sallow skin, in the listless eyes, in the lines of care and worry on the face.
 Inborn modesty seals their lips. They prefer pain to humiliation. Custom has made them believe the only hope of relief lies in the exposure of examination and "local treatment" of the system. There is no reason why modest, sensitive women should submit to it.
McLELLAN'S WINE OF CARDUI is a vegetable wine. It exerts a wonderfully healing, strengthening and soothing influence over the organs of woman-kind. It invigorates and stimulates the whole system. It is almost infallible in curing the peculiar weaknesses, irregularities and painful derangements of woman. Year after year, in the privacy of home, away from the eyes of every body—it effects cures.
WINE OF CARDUI is sold for \$1.00 a bottle. Dealers in medicine sell it. Five bottles usually cure the worst cases.

Important Notice!
 The only genuine "Baker's Chocolate," celebrated for more than a century as a delicious, nutritious, and flesh-forming beverage, is put up in Blue Wrappers and Yellow Labels. Be sure that the Yellow Label and our Trade-Mark are on every package.
 WALTER BAKER & CO. Ltd., Dorchester, Mass.

STOP! ... Don't Let Constipation Kill You!
Cascarets
 CURE CONSTIPATION
 REGULATE THE LIVER
 ALL DRUGGISTS
 THE MOST WONDERFUL, RELIABLE AND EFFECTIVE MEDICINE EVER DISCOVERED.
 ABSOLUTELY GUARANTEED to cure any case of constipation. Cascarets are the Ideal Laxative, never grip or scribe, but cause easy natural results. Samples and booklet free. Ad. STERLING REMEDY CO., Chicago, Montreal, Can., or New York. 218.

When you loaf, remember the rights of busy people.

Down in an African Village.
 I slept in a house belonging to the African Lakes Company, a creepy sort of habitation at night. Rats galloped about the roof, chasing one another, and squealing most piteously. I was awakened in the morning by cocks crowing. There was a lurch of night insects; the houses in the dawn-light were an indistinct, dull brown; the grass was wet with dew. I heard the shuffling of reed doors slid to one side, or their grating on clay flooring when flung open. A few natives begin to appear, exchange morning greetings, and start to blow up fires; men, women and children crowd around the fires, the gilded clouds in the east withdraw, the sun peeps on the horizon, fires are soon damped, and daily work begins.—Century.

Deafness Cannot be Cured.
 by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constituting the condition of the mucous lining of the Eustachian tube. When this tube gets inflamed you have a rumbling sound, or imperfect hearing, and when it is entirely closed deafness is the result, and unless the tube is restored to a normal condition, hearing will be destroyed forever. No case out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.
 We will give you a full and complete cure of Deafness (caused by catarrh) that cannot cure by HALL'S CATARRH CURE. Send for circulars, free.
 Sold by DR. J. C. GUY & CO., Toledo, O.
 HALL'S FAMILY PILLS are the best.

The Modern Mother
 Has found that her little ones are improved by the laxative effect of a gentle remedy than by any other, and that it is more acceptable to them. Children enjoy it, and it benefits them. The true remedy, Syrup of Figs, is manufactured by the California Fig Syrup Company only.

Sweetness and Light.
 Put a pill in the pulpit if you want practical preaching for the physical man; then put the pill in the pillory if it does not practise what it preaches. There's a whole gospel in Ayer's Sugar Coated Pills; a "gospel of sweetness and light." People used to value their physics, as they did their religion,—by its bitterness. The more bitter the dose the better the doctor. We've got over that. We take "sugar in ours"—gospel or physic—now-a-days. It's possible to please and to purge at the same time. There may be power in a pleasant pill. That is the gospel of
Ayer's Cathartic Pills.

More pill particulars in Ayer's Catechism, 30 pages. Sent free. J. C. Ayer Co., Lowell, Mass.

The Youth's Companion
 Celebrating its seventy-first birthday, THE COMPANION offers its readers many exceptionally brilliant features. The new illustrations have been explored in search of attractive matter.

Distinguished Writers.
 CHARLES DUDLEY WARNER, HON. THOMAS S. REED, STEPHEN GRAY, ANDREW CARNEGIE, HARLAN GARDNER, MAX GELL, DR. CRYS EDSON, W. CLARK BRADY, DR. HENRY HALL, DR. LYMAN ABBOTT.
 And more than One Hundred other Eminent Writers.

For the Whole Family.
 THE COMPANION also announces for 1917, Four Attracting Serials, Adventure Stories on Land and Sea, Stories for Boys, Stories for Girls, Reporter's Stories, Doctors' Stories, Lawyers' Stories, Stories for Everybody—all printed by the best of modern artists. Six Double Holiday Numbers, Six Double Christmas Numbers, and six Double New Year's Numbers. More than two thousand articles of Miscellaneous—Anecdote, Humor, Travel, Timely Editorials, Current Events, Current Topics and Nature and Science Departments every week, etc.
 53 Weeks for \$1.75. Send for Full Prospectus.

12-Color Calendar FREE.
 New subscribers who will cut out this slip and send it at once with name and address to THE YOUTH'S COMPANION, Boston, Mass., will receive a 12-Color Calendar FREE. The Youth's Companion every week from this subscription is received FREE—Thanksgiving, Christmas and New Year's Double Numbers. FREE—Folding Calendar for 1917, Lithographed in Swart's Beautiful Colors. And The Youth's Companion 52 Weeks, a Full Year, to January 1, 1918.

Reliable Charlotte Merchants
 Call on them when you go to Charlotte, N. C. Write them if you do not live in Charlotte. In answering advertisements kindly mention this paper.
