GOVERNOR-ELECT RUSSELL.

We still believe the millenium will dawn upon us. One by one the vile and vicious Democratic newspapers who so wilfully lied about and abused Judge Russell during the campaign are crawling into their holes. The prediction that dire and immediate disaster would overtake the State forthwith if not sooner in case of Russell's election. Now that all honest, sensible and informed people admit that Russell willworke the bast Glove have had since the war, these same erstwhile vituperative demagogues are slinking away unable to bear the light of truth. Some few condescending now to say "Russell is an able man," "no weakling," etc. Not only is he this, but he is broad gauged, high-minded and patriotic, and mark our prediction, North Carolina will make greater strides in material development and general prosperity in the next four years than she has in the last twenty. The beloved Vance was the most popular Governor North Carolina ever had, but like most practical politicians of his stripe, had little or no idea about business. He was a good war Governor, beloved by all and deservedly so, but now we want solid business men at the helm, and such is Judge Russell, and we have been saying this for two years. The Morganton Populist.

THE SENATORIAL QUESTION.

Up to the present time we have held our peace in regard to the Senatorial question for many reasons, but as the matter must now be settled soon, or at least begun to be settled, we think that it is about time that we say a few words in regard to the all-absorbing topic. In the outset it is needless for us to say that we are entirely friendly to all of the conflicting interests. Being a Republican who has for the past two elections demonstrated our friendship for the Populist organization in general and its members in particular, we feel that we have a right without any impropriety whatever of advising with them about this matter. We are still willing to show our friendliness to that organization by cooperating with it in the future upon all questions touching the common weal of our people in county, State and nation of the Populist party if he is defeated. to the end that good government in all these various places may be preserved to the people. The Populist party in North Carolina when co-operating with the Republican party is a powerful organization, but when standing alone is impotent. By co-operating with the Republican party it not only preserves its autonomy, but perpetuates its usefulness

inflicted upon them by the past legisla- a cabinet position. It happens simply tion of the Democratic party. The preventive of all these anticipated calamiover the list of eligibles. ties, in our opinion, is the re-election of

Senator Pritchard. "But," say the Populists, "we are pledged to vote for a free silver Republican."

regard your pledges and present to you. as the nonlinee of the Republican caucus, Jeter C. Pritchard, who has, whenever an opportunity presented itself since he has been in Congress, voted for free silver, and who will continue, if re-elected, he could most felicitously acknowledge to do so, regardless of misrepresentations of his views by Democratic newspapers Post.

on this question. We concede to the Populists, without question, the right to demand of the Republicans the presentation of a Republican who earnestly believes in the free coinage of silver as its nominee for their support; and from the testimony of Populists voluntarily expressed, we urge that Senator Pritchard has heretofore filled that bill, and we insist that from the utterances which he will make on that absorbing question, his future efforts will be directed along that same line.

The National Republican party, as represented by the views of Senator Thurston, elsewhere printed, recognizes the fact that Senator Pritchard is an ardent free silver man, and they do not expect any support from him on financial matters except such as tends to give silver a wider circulation. As we understand it, the Populists have nothing against Senator Pritchard per se, but, upon the other hand, they have great respect for and confidence in him. That being so, we take it for granted (and do not see how it can be otherwise) that if Senator Pritchard says that he will continue in the future as in the past to stand up for silver. that he ought to and will receive the vote of every Populist member of the General Assembly who were elected by Populist-Republican co-operation. By pursuing this course the Populists would have everything to gain and nothing to lose. The colored people of the State regard Senator Pritchard as their friend, and are very desirous of his re-election, and to such an extent that they would look with disfavor upon efforts in the future to get them to support co-operation candidates The Populists recognize the fact that the fears for them in the future. THE NEGRO IN INDUSTRY.

During the last few years industrial progress of the negroes of the South has been marked. The race seems to have passed through that unfortunate era in its history, just after its emancipation, when its only conception of progress was to hold political offices. It has learned Beaufort ... much since then, and among other things it has discovered that industrial capacity is the first requisite for any race or nation that would advance along the path Dare Gates of civilization. Booker T. Washington appeared as the preacher of this wholesome truth a few years ago. And while it must be gratifying to him to have Pamlico . gained the respect of his white fellow-Pasquotan citizens, even in the South, his success in Pitt getting the people of his own race to heed Tyrrell his advice must please him far more. His Washingto aphorism, "It is far more important that the negro should have a chance to earn a dollar than that he should be able to spend it for a seat in a theatre," has gone home, and already the negroes of the Edgecombe South are becoming factors in the indus-Greene Halifax trial development of the country. An interesting fact bearing upon this Northamp uestion has recently occurred in Charles-Warren ton, S. C., and is reported by The News Wilson Wayne and Courier of that city. Some time ago a Mr. Chisholm built a knitting mill in Charleston, and employed white girls to do the work. Owing to their lack of skill they could not earn much money at Anson first, and, instead of persevering, they Brunswick Columbus grew discouraged and threw up the job.
