Whence It Came. The straw manufacture owes its introduction into England to Mary Queen of Scots, who, on quitting France, was so struck with the making of straw plait by the women and children of Lorraine that she persuaded a number of these folk to come over to England wirb her, in the hope that the peasantry might be able to learn the art. From their arrival in 1561 the plaiters had but sorry times, until James I. established the colony in the Luton district, where thousands are now engaged in this great industry.

As a rule, you will find that the man who has troubles of his own never wears a button saying so.

A Fifty-two Years' Case. "TETTERINE is the only remedy I ever sold that would make a permanent cure of tetter. I sold it to a person who had tetter on his hand for fifty-two years, and two boxes cured him."

erans, as well as for themselves; and that also in June the Centennial Expo-The following very important circusition will be further advanced and lar, which explains itself, has been sent much more enjoyable for those who deout by State Auditor Ayer to all sheriffs sire to visit it, and for other local reaand tax collectors:

"The attention of sheriffs and tax collectors is especially directed to a phase of business which, it appears, has been common in the State, but from which the State is not receiving the tax imposed by law. Section 15, schedule B, of the revenue act, provides that any gift enterprise, or any person or establishment offering any article for sale and proposing to present purchasers with any gift or prize as an inducement to purchase, is subject to a tax of \$20. "This department notes that various establishments are publicly announcing gifts and prizes to be given to purch-asers-offering such articles as clocks, dolls, bicycles, etc., through a plan of issuing tickets to purchasers, and by other methods. Every person or es-tablishment making such offers is subject to a tax of \$20, and it is the impera-tive duty of sheriffs and tax collectors to collect and report such tax to this

department. "Other phases of business which, in the opinion of this department are subject to this tax, are the offers of certain prizes for the collection of so many soap wrappers, cigarette pictures, etc.

"It is known that cigar wheels and similar devices are being extensively operated in the State. All such enterprises are subject to the regulations of section 15, schedule B, and sheriffs and collectors are derelict in duty if they fail to take such cognizance of them as

is required by law. At Chapel Hill, Wednesday, the formal inauguration of Edwin A. Alderman as President of the University of North Carolina occurred. Thos. S. Kenan, of Raleigh, was the presiding officer, the Mandolin Club furnished the music and Rev. Dr. Dixon offered prayer. Mr. Robert Herring Wright delivered an address on behalf of the students. The Whole Situation Has Been Thoroughly Canvassed, and Every Available Man Has Been Suggested.

A special from Canton, O., under date of Jan. 24th, says: "There is a growing impression that the Cabinet will be practicably completed within two or at least three weeks, with the possible exception of one place. Though Major McKinley may decide within the next ten days upon the eight men who are to form his official family, it does not folnearly to Jupiter, Fla., and the tem-perature as far south as the Gulf coast low that the final apportionment of places and portfolios will be made within that time. Most of the men who are selected for the Cabinet will doubtless be shifted about from time to time and the final cast of the Cabinet may not be the final cast of the Cabinet may not be arranged before March 1st. The Secre-tary of State is, of course, decided upon, and the Secretary of the Treasury will be as definitely determined and so will the Secretary of the Interior, but the portfolios of the War, of the Navy, of Agriculture, of Justice and the Postof-fice department will be a good deal low zero, Chicago 20, Milwaukee and Saulte St. Marie 18, Indianapolis and Detroit-14, Cincinnati 10, Pittsburg 8. fice department will be a good deal shifted about. The President-elect desires to fill the more important places

in his cabinet as soon as possible in order that some thought may be given to the work of choosing assistant secretaries and the organization of the departments. A good deal of work in the progress of cabinet-making will probably be made this week. Major McKin-ley has practically finished the sifting process and he has listened to as many suggestions on one hand and protests on the other as he has time for. The whole situation has been thoroughly

THE RECENT COLD WAVE.

Report of the Governmert on Its Ex-

tent and Severity.

sued by the weather bureau Saturday

afternoon on the cold wave of January

23rd to 30th: The condition of extreme

markable for its extent, duration and

severity. The temperatures over the entire United States, east of the Rocky Mountains, have been greatly below the normal during the whole week, the de-

ficiencies in some sections ranging from

30 to 40 degrees for several days. Throughout the Ohio valley and the

Lake regions on the 25th, and the Car-

olinas, central and northern Florida,

Georgia, Alabama and Eastern Tennes-

see on the 28th and 29th, the minimum

temperatures recorded were lower than

any previously recorded by the bureau

The conditions were especially severe throughout the Southern States, the

line of freezing temperature extending

falling to 14 degrees below freezing and

continuing 10 degrees or more for sev-

Following are some of the minimum

temperatures occurring in the regions

where the cold wave was most pro-

nounced, viz. : On the 25th, degrees be-

On the 28th, above zero: Tampa 30, Jacksonville 22, Mobile and Atlanta 6,

Knoxville 2. On the 29th, above zero: Jupiter 34, Tampa 28, Jacksonville 22,

Key West 50; below zero, Knoxville 4. The condition of cold weather was at-

tended by a persistent condition of ab-normally high barometric conditions, with readings of 31.5 inches and above,

the highest readings on record. The

storm that developed over Florida on

the 26th and moved northeast along the

Atlantic coast was an efficient factor in

producing the low temperatures in Florida on the 28th and 25th. This

storm developed great energy in its pas-

sage along the Middle Atlantic and New

eral days.

during the last ten days of January.

cussion of the election returns and an analysis of the political situation. One o. the interesting features of the book is the biographical sketch written

by Mrs. Bryan, who thus describes their first meeting: "My personal knowledge of Mr. Bry-an dates from September, 1879. He

was then entering upon his junior year. I saw him first in the parlors of the Young Ladies' School, which I attend-The annual meeting of the North Carolina Superintendents' Association ed in Jacksonville. He entered the room with several other students, was was held at Chapel Hill Monday and taller than the rest, and attracted my attention at once. His face was pale

and thin; a pair of keen, dark eyes, look-ed out from beneath heavy brows; his nose was prominent; too large, I thought, to look well; a broad, thin-lipped mouth, and a square chin completed the con-tour of his face. He was neatly, though not fastidiously, dressed, and stood firmly and with dignity. I noticed par-ticularly his hair and his smile. The former black in color, fine in quality, and parted distressingly straight; the

cating liquors or liquids, transported into any State or Territory, or remaining therein for use, consumption, sale or storage therein, shall, upon the arrival within the said State or Territory, be subject to the operation and effect of the laws of such State or Territory, en-acted for the control and policing of the liquor traffic, absolutely, to the same extent, and in the same manner as though such liquors or liquids had been produced in such State and Territory; and shall not be exempt there-from by reason of being introduced therein in original packages for private use, or otherwise; and such States shall have absolute control of such liquid or liquids within their borders by whomsoever produced and for whatever use imported: provided that nothing herein contained shall be construed as affecting the internal revenue laws.

SECOND PRIZE ARTICLE.

"The Material Prosperty of the Caroolinas and How to Promote It."

Several weeks ago the Greensboro (N C.) Record offered for the Greens. boro Stock Mutual Fire Insurance Company \$50 in gold for three prizes on the subject, "The Material Prosperily of the Carolinas and How to Advance It." The contest was limited to those living in the Carolinas, and the result as announced in the special edition of the Record shows that South Carolina carried off the first and second prizes, the first being awarded to Mr. E. W. Screven, of Columbia, and the second to J. C. Garlington, of Spartan-

burg All articles were sent in under non de plumes, and a committee composed of H. W. Cobb, president of the Greens-boro Industrial and Immigration Association; J. Y. Joyner, Professor of Eng. lish literature in the State Normal and Industrial School, and Rev. E. W. Smith, D. D., passed upon them.

Dying of Cold and Hunger.

The widespread suffering of the army of unemployed persons in the West and Northwest has been greatly intensified by the terrific blizzard and icy temperature which prevails over an enormous territorial area. So serious is the situation in Chicago that the mayor has decided to issue a proclamation for bread for the starving, and a request will be made to have the churches thrown open to afford temporary shelter to the cold and hungry. A similar situation pre-vails in many other cities throughout the West, and the blocking of traffic by the heavy snows will render the condition of thousands almost unendurable.

American Cattle in England.

The Chief of the Bureau of Animal Industry of the Agricultural Department at Washington is in receipt of a circular from a commission agent in London giving the total number of cattle received at Deptford, England, during the year 1896 from the United States as 187,000; price, \$5.13; sheep, 19,000; price, \$5.21.

Savannah Wants a Garrison.

holds steady in spite of enormous buy-

ing; woolen goods hardly change in price; iron and its products decline; leather is sluggish; hides are lower for some shoe manufactures; the average of railroad stocks is slightly lower than it was December 31, and the advance in trust stocks has been small. To traders in such properties the month has been disappointing. Yet during the week the record shows that ten iron works have started and only two have stopped; thirteen woolen works have started and nine more are about ready to start, while three have stopped. Similar things are seen in other industries and the additional establishments are not starting without some increase in orders received. It would do more harm than good to exaggerate the improvement, but a study of conditions governing business indicates that the wheels are on the right track and moving in the right direction.'

Eointg Up the "Queer."

The committee appointed by the Secretary of the Treasury to destroy counterfeit notes and coins, dies, plates, etc., captured during the year by the secret service, has made its report, showing that the amount destroyed exceeds that of any previous year by about \$7,000. The notes. etc., destroyed by the committee is classified as follows: Counterfeit notes representing \$128,722; counterfeits coins, \$25,985; flash notes and coins, \$2,754,307; numl er of plates, 1,203; number of dies, 161; number of metal molds, 31; singles 56 sets; num-ber of plaster of Faris molds, 442 sets; miscellaneous molds, 17 sets. There was also destroyed a large quantity of tools, material, crucibles, ladles, including four printing presses.

Compensation for Confederates.

Mr. Cox (Dem.) of Tennessee offered in the House Saturday a bill which recites the circumstances of Lee's surrender at Appomattox and the written guarantee that the artillery and cavalry officers of the Confederacy should be permitted to retain their horses, sidearms and baggage. After the surren-der the Federal soldiers despoiled the Confederates of these effects and they were never returned to their original owners. His bill appropriates \$200,000 as a compensation for these losses, upon satisfactory proof being furnished to the quartermaster general.

Japan and Our Cotton.

*--

foothold

MCELREE'S

Mr. Tom Hoshi, the Japanese minister at Washington, was in Atlanta, Ga., last week studying the cotton industry. He received many callers and he obtained from them much information. Mr. Hoshi says that the South cught to sell more cotton to Japan and he proposes to induce them to export more to his country. He went from there to New Orleans.

Washington Notes.
