All eyes were turned towards the city of Goldsboro to see the development of things when the Board of Trustees should meet on the 23d of March. The longlooked-for day came, when many of the leaders of the people appeared upon the scene. They came, some of them to agitate and declare the wishes of applicants, some of whom desired white men for the first place at the institution. Among Democratic ring in this city. Let every

Up to the present time we have had very little to say in regard to the coming city election; but, as the time is fast approaching, we feel it our duty to say something in regard to that matter. We

have known it to be good politics to break into the line of the enemy in all the places you can and at all the times that you can. North Carolina would not be free from

Democratic missrule to-day if it had not of been for such methods in bringing about co-operation between Republicans and dissatisfied Democrats, who afterwards termed themselves Populists. Now we have just such an opportunity in the city of Raleigh, and the only question is, will we take advantage of it or permit a few ambitious bigots, who have not brains enough to lead a flock of geese to a branch, to stand in the way of completely rout-ing, demoralizing and defeating the Democratic ring in this city. The oppo-sition to the Independent Democratic movement among a few so-called Repub-licans and would-be-leaders is another case of the fool tearing down the house,

which it took wise men many years to build, notwithstanding the fact of his in-ability to build any kind of a structure to take its place. They have no reasons to give why the Independents should not be loyally supported, and their opposition smacks loudly of jealousy. Now, what are the facts? There are three hundred

more Democratic voters in the city than and help to rivet the Democratic ring upon the people of the city, when, by cooperating with the two hundred or more

Independent Democrats, we can at least years ago these same men clamored for a straight ticket from Mayor down, and were permitted to have their way, with the result that the Democrats elected their candidate for May or by over four hundred majority. We had an opportunity then to have co-operated with Inde-

pendent Democrats and to have carried the city, but, oh! no, these wiseacres knew more than any body else, and were allowed to have their way about it, and, yet, after they got their straight ticket, every one of them sat down on his stool

of do-nothing, as in the past. The Republican party around Raleigh is infested with a lot of growling sycophants, who will do nothing themselves, nor permit others to do so without their stern opposition. If they could be induced to spend half as much time and train work in fighting Democracy as in fighting plans looking to the betterment of their own party its construct of their own party, its success would more often be assured. Such men must be relegated to the rear or the party will suffer more in the future than it has in the past by their treacherous actions. We assert it plainly and advisedly that no loyal Republican will oppose the proposed co-operation between the Republicans and Independent Democrats, especially since it is the only hope of defeating the

DEAR SIR: I wish, through your col-umns, to correct a statement made to the effect that the undersigned voted against Jim Young in the last election. Such a statement is false. I am not a political wrangler or office-seeker. I did not vote at all, only for the reason that I was not allowed to register; but I am a "Jim Young" man, and had I been allowed to vote, I should have been careful to see that James H. Young's name was on the ticket, and would have voted it and for fusion, regardless of the smiles or frowns of any one.

Local politicians are getting a move on themselves. The municipal election is close at hand. Look out for traitors. The Democrats are willing to attempt another purchase and duplicate more tickets.

It seems that, in the Democratic muddle in Charlotte over the approaching municipal election, the Republicans have a rare opportunity of which they ought to take advantage. If they can do noth-iug else they can at least choose between two Democrats.

A prominent Western Republican, writing to us, says: "We are all glad to know that you have been given a good paying position, and we look with fond hopes to the time when Major McKinley will confer a still higher honor upon you by appointing you to the position of post-master of the city of Raleigh."
