to Humanity. A Free Gift of Great Value to You. Our readers will be glad to know that the new botanical discovery, Alkavis, from the wonderful Kava-Kava shrub has proved an assured cure for all dis-

eases caused by Uric acid in the blood, or by disordered action of the Kidneys or urinary organs. The Kava Kava Shrub, or as botanists call it, Piper Methysticum, grows on the banks of the Ganges river, East India, THEKAVA-KAVA SHRUB and probably was

(Piper Methysticum.) used for centuries by the natives before its extraordinary properties became known to civilization through Christian missionaries. In this respect it resembles the discovery of quinine from the peruvian bark, made known by the Indians to the early Tesuit missionaries in South America, and by them brought to civilized man. It is a wonderful discovery, with a record of 1200 hospital cures in 30 days. It acts directly upon the blood and kidneys, and is a true specific, just as qui-nine is in malaria. We have the strongest testimony of many ministers of the gospel, well known doctors and business men cured by Alkavis, when all other remedies had failed.

In the New York Weekly World of Sept. 10th, the testimony of Rev. W. B. Moore, D. D., of Washington, D. C. was given, describing his years of suffering from Kidney disease and Rheumatism, and his rapid cure by Alkavis. Rev. Thomas Smith, the Methodist minister at Cobden, Illinois, passed nearly one hundred gravel stones after two weeks' use of Alkavis. Rev. John H. Watson, of Sunset, Texas, a minister of the gospel of thirty years' service, was struck of the gospel of thirty years' service, was struck down at his post of duty by Kidney disease. After hovering between life and death for two months, and all his doctors having failed, he took Alkavis, and was completely restored to health and strength, and is fulfilling his duties as minister of the gospel. Mr. R. C. Wood, a prom-inent attorney of Lowell, Indiana, was cured of Rheumatism, Kidney and Bladder disease of ten years standing, by Alkavis. Mr. Wood describes himself as being in constant misery, often compelled to rise ten times during the night on account of weakness of the bladder. He was account of weakness of the bladder. He was treated by all his home physicians without the least benefit and finally completely cured in a few weeks by Alkavis. The testimony is un-doubted and really wonderful. Mrs. James Young, of Kent, Ohio, writes that she had tried six doctors in vain, that she was about to give up in despair, when she found Alkavis and was promptly cured of kidney disease and restored to health. Many other ladies also testify to the wonderful curative powers of Alkavis in the various disorders peculiar to womanhood.

So far the Church Kidney Cure Company, No. 424 Fourth, Avenue, New York, are the only importers of this new remedy, and they are so anxious to prove its value that for the sake of introduction they will send a free treatment of Alkavis prepaid by mail to every reader of this paper who is a Sufferer from any form of Kidney or Bladder disorder, Bright's Disease, Rheuma-tism, Dropsy, Gravel, Pain in Back, Female Complaints, or other affliction due to improper action of the Kidneys or Urinary Organs. We advise all Suferers to send their names and address to the company, and receive the Alkavis free. It is sent to you entirely free, to

prove its wonderful curative powers.

The Race Must Be Lifted Above the Lynching Plane -- Colored Woman Sculptor.

A Boston special, 5th, to Washington Post says: "Isaac B. Allen, Negro member of the Governor's courcil, arrived home today from a week's sojourn in Washington, in time to attend the reception given the Legislature and State officers by Governor and Mrs Wolcott, at their Commonwealth avenue residence. The reception was also attended by a colored member of the Legislature, Representative Reed, of Boston and his wife. There was absolutely no distinction visible in the treatment of these members of another race from that accorded other guests. Governor Wolcott and his wife both shook hands with Mr. and Mrs. Reed, and Counselor Allen took the initiative in greeting them, and the white butler's waited upon them the same as the others. It was an informal afternoon function tea, being served by ladies well-known in the Boston society cirele, including Mrs. Henry Parkman, Mrs. James Lawrance, Mrs. Curtis Guild, Jr., and Mrs. Sohier. Adjutant General Dalton, General Francis Appleton, and Colonels Jewette and Stevens, of the Governor's staff, in full dress uniform, added color to the scene. About 250 people were

Gen. Maximo Gomez, of Cuba, says There is absolutely no distinction made in either the civil or military branches of our government. I have Negro generals, colonels, commandants and captains. They have all won their ranks and titles, and are among my bravest and most trusted followers. The proportion of white and colored men in the army is about the same, and they mingle together as brother and patriot should do. The colored man in Cuba has no love for the Spaniards, and our Negro brethren are aware of the fact that but for the ten years' war they, in all probability would be slaves today. As I have already said, there is no distinction made in the civil branch of the government. President Cisneros has appointed more than 200 colored en as prefectos and sub-prefectos out of about, I believe, 650. They are the best tax collectors in Santiago province." Gen. Gomez then related what he termed 'an amusing feature.' The race must be lifted above the lynching plane. We believe that it is yearly growing better in this respect. But these lynchings must not continue unnoticed. Many claim that to agitate against the mob system only serves to stimulate it, which of course is a very poor doctrine. If advocating the proper use of courts as against mobs, stirs up strife, the quicker it is all stirred up the better, for then ensues a chance for settlement. EARLY HISTORY OF AMERICA

No Encampment This Summer-Alder man's Address .- The State Honored -- Pardons Granted.

Associate Justice Walter Clark, says the Wilmington Messenger, has made the interesting discovery that nearly sixty years before the expedition of Sir Walter Raleigh landed at Roanoke Island, and eighty-one years before John Smith landed at Jamestown, the Spaniards made a settlement on the identical spot afterwards occupied by the English as Jamestown. This Spanish colony consisted of 600 persons, men, women and children, with priests and physicians, horses and cattle. D'Allon, the leader, died of malaria, civil war broke out and after a year the colony, named San Miguel, was abandoned. Its very existence was unknown even to Bancroft, but recent researches in the royal library in Spain unearths the records of this earliest and unfortunate colony, which antedated St. Augustine forty

Of Dr. E. A. Alderman's address at Charleston, S. C., before the State Medical Society, The Columbia State has this: "The feature of the exercises was the baccalaureate address by Professor Alderman. His address was generally pronounced to be one of the best ever heard in Charleston, and this is saying a good deal. He paid a beautiful tribute to the physicians, and then launched into the subject matter of his address, which dealt with society. He analyzed and reviewed society as it existed before the war, during and since the memorable conflict. Prof. Alderman showed himself to be a typical Southerner in principle and sentiment, and his remarks met with the approbation of his hearers. Prof. Alderman's address was classical, eloquent, and most entertaining, rendered doubly so by the grace and ease with which it was delivered. He held the united attention of the audience throughout and there were not a few who regretted the fact that his address was not longer."

Maj. Hayes says that rio encampment will be held by the State troops this summer. If the encampment is held it will be by the individual companies on their own responsibility. An effort is being made to get all the companies to attend the Tennessee Centennial Exposition at Nashville. June 21 is the date selected for the troops to go to Nash-ville, as the Confederate Veterans re-union will be held then. Among the ended it by saying, "and Rodriguez did | companies which will attend from near haleigh are the Governor's and Franklinton company. Young Men's Popularity.

To the query, "Are young men who cannot, from religious convictions, play cards, dance or attend the theater, HE man who is apt to be popular with young women of refinement and education who do indulge in such amusements?" Edward

in the Ladies' Home Journal, responds: "Why, certainly; why not? The amusements in which a man indulges have nothing to do with his outward attractiveness or popularity. It is the way in which a young man carries himself in his deportment that makes or mars his popularity with girls or men. One of the most popular and delightful fellows I know in New York has never been inside of a theater, although he is 35 years of age. Nor has he ever danced or played cards. He was a personal friend for ten years be- ought to be taught of God. fore I knew that his religious principles precluded his indulgence in these amusements. If asked if he has seen a certain actor and he will soon have to give up the or play he merely replies in the nega. | world. tive. Never does he force his convictions upon others. This old custom has lately come under notice in a paper on the "Folklore of the Horseshoe," read by Dr. Robert Laurence before the American Folk-Lore Society. He believes that the custom of nailing up horseshoes originated in the rites of the Passover, the blood sprinkled on the doorposts and the linta at the time of the great Jewish feasts marking the chief points of an arch, horseshoe. It is also possible that the custom is traceable to the idea that the horse brings luck, for in legendary lore the animal has often been credited with supernatural gifts.

My DKAR Str.: I had intended writing you before I got your letter in the interest of a gentlerian I ac cidentally run up with a few days ago. I was discussing with him the difference in my feetings in every way to what they were three years ago, prior to my leaving the Institute, May 11th, 1893, a cute: man. He seemed to be much interested in my conversation. I told him that of the fifty-four years I had lived the four weeks spent at the Institute was the happiest, brightest and most satisfactory period of my life. He asked me if I could not stop drinking without going to "Keely's"; I replied: "Yes; I did stop sometimes for years, but would begin again, and that I was like my old friend, Swift Galloway: I could quit but could not stay quit, and why? Because there was a lurking desire for the effects of the liquor that remained with me. It sometimes slumbered like fire in an old stump, but soon the wind would change when the fire would kindle and begin to burn in the old stump." Having digressed, will return to my conversation with Swift Galloway when I was trying to get him to take the treatment. He protested that it was an evidence of weakness to go to the Institute. I replied that it was one of strength; all one had to do was to acknowledge himself whilped, then he was rea ty to go. I finally said, "Swift, if I ask you a straightforward question will you give me an honest answer?" He said he would. "Well," said I. "you can quit, you have quit, but, like me, you don't stay quit. Now tell me if you can quit wanting to drink or quit wanting the effects." His answer was, "I never thought of tha; and can you quit wanting to after going to Keeiey's?" My reply was, "You can?" "Well then." he says, "this has struck me in a new light. I will try it." And, you know, he did, and today he is a man, and I thank God that I may have be n the cause, in part, that it is so. even if you merely keep them as a diversion. In order to handle Fowls judiclously, you must know something about them. To meet this want we are selling a cook giving the experience (Only 25c of a practical poultry raiser for (Only 25c twenty-five years. It was written by a man who put all his mind, and time, and money to making a success of Chicken raising—not as a pastime, but as a business—and if you will profit by his twenty-five years' work, you can save many Chicks annually, and make your Fowls earn dollars for you. The point is, that you must be able to detect trouble in the Poultry Yard as soon as it appears, and know how to remedy it. This book will teach you.

It tells how to detect and cure disease; to feed for eggs and also for fattening; which fowls to save for breeding purposes; and everything, indeed, you should know on this subject to make it profitable.
