8. Hallelujah chorus from Handel's "Messiah." 9. Doxology. The Doxology will be sung by the chorus under Frank Damrosch, and the assemblage in the vicinity of the monument are invited to join.

CONGRESSMAN HOLMAN DEAD. The "Watchdog of the Treasury" Succumbs to Spinal Meningitis.

William Steele Holman, of Indiana, the oldest member of Congress in point of service, died at Washington, Thursday, after an illness of several weeks. Spinal meningitis was the direct cause of death, and the venerable statesman had been unconscious for days preceding the end.

Congressman Holman was nearly seventy years of age, his birthday falling in September. He was serving his sixteenth term. Mr. Holman would have been called "the Father of the House" during late years were it not for the fact that for twenty years he was known, both in and out of the House, as "the Watchdog of the Treasury."

THE LATE W. S. HOLMAN.

William Steele Holman was born in Dearborn, Mo., in 1828. He had a common school education, supplemented by a two-year course at Franklin College. Then he taught school to support himself while he studied law. When twenty-one years of age he was elected Probate Judge. He served also as a prosecuting attorney, was member of the constitutional convention of 1850.

He entered the Legislature, and later on was re-elected to the same body. His career commenced with the Thirty-sixth, and out of the twenty sessions of that body which have followed he has been absent from but four, the Thirty-ninth, Forty-fifth, Forty-sixth and Forty-fourth, a record unparalleled in American public life.

Methods of his practice at the bar were of course, large and roomy, but every exhibit will be placed under the one roof. There will be no long, tiresome walks past exhibit after exhibit of one section. Each and every display is selected, and then made complete in every detail so far as possible.

TURPENTINE DRIPPINGS. Four companies of Infantry, at Charlotte, Asheville, Stateville and Winston have notified the adjutant general they will go to Nashville Tenn. There will be no encampments of any kind in this State during 1897 so far as now known.

The revenue act taxes drimmers \$50 each, but this is the only tax allowed. No cities, towns or counties can levy any tax on them.

Various points are competing for the State conventions of sheriffs. Asheville wants it and makes a proposition. So do Morehead City and Wrightsville.

Governor Russell appoints as delegates to the Tennessee centennial exposition Theodore F. Davidson, John W. Miller, private secretary to Colonel B. A. Andrews, Thomas R. Robertson, Graham Daves, H. A. Whiting, W. R. Capelhart, W. A. Graham, J. B. A. Capelhart, Mrs. Lindsey Patterson, J. S. Morrison, G. W. Conley and A. G. Brady, Colonel Davidson is chief of the delegates and all information can be obtained from him.

The Secretary of State discovers that some insurance companies are fraudulently doing business in this State under the guise of benevolent organizations. He has detected two and notices the solicitors of this violation of law.

Currituck county has a boy, Lewis T. Lewark, 13 years and six months old who, on the 6th inst., weighed 430 pounds.

Owing to a hitch about the new law, convicts in Mecklenburg are not sentenced to the roads, but to the penitentiary. Twelve have recently been taken to the penitentiary, and it cost the State \$135 for expenses.

The State Superintendent has received a check for \$900 from Dr. Curry, general agent of the Peabody fund to be distributed as follows: Fayetteville, \$190; Franklinton, \$290; Plymouth, \$290; Elizabeth City, \$130.

The State superintendent of public instruction has appointed the following scholarship students to Peabody normal colleges at Nashville: Katie Bagley, of Littleton; William G. Reeves, of Lee; Sally C. Smith, of Scotland Neck, and Leander W. Trivitt, of Net. There are five other vacancies to be filled by competitive examinations, which will be held about July 20th.

Sewall for Hawaii. President McKinley has nominated Harold M. Sewall for Minister to Hawaii. Mr. Sewall is the son of Arthur Sewall, who was the Democratic candidate for Vice-President last fall.

MAY 11th IS THE DAY

Of the Opening of the Woman's Exposition of the Carolinas.

REDUCED RAILROAD RATES.

Mrs. Sallie Southall Cotton Will Deliver the Opening Address. Everything to Be in Readiness.

The greatly reduced rates which the Southern States Passenger Association has accorded the Woman's Exposition makes the success of the enterprise, which already was assured, now doubly sure, for hundreds of people will avail themselves of this opportunity to travel, and visit the exposition and other events which take place in Charlotte during the month of May. This rate is the exceedingly low one of one fare for the round trip from any point in North and South Carolina with a five days limit, and upon May 19th and 20th the unprecedented rate of one cent per mile is given with three days limitation.

This is indeed cheap traveling and as May is the most delightful month in the year, and the Exposition thoroughly attractive, every one will attend. The building is rapidly nearing completion, and that no time may be lost in which to have all in perfect readiness for the opening, the arrangements for an electric light plant within the building are now being perfected, so that if necessary work can go on at night, that all the exhibits may be in place at the opening. The opening is announced for the evening of Tuesday, May 11th, when a reception will be held to which all are cordially invited. Mrs. Sallie Southall Cotton, of Falkland, N. C., will deliver the opening address. Mrs. Cotton's address before the Mothers' Convention at Washington in the early spring was a fine effort, and one which won for her the esteem of not only the prominent presence of Washington but the other large cities as well. Day by day fresh exhibits are arriving, which insure every department a complete and splendid display when the time arrives for throwing open the doors to visitors. The art department, with its many fine exhibits, cannot be described. It must be visited and studied if one would comprehend the wealth of its exhibits. "Breaking the Home Ties," the canvas of which everyone has heard, and all want to see, will arrive on the morning of the opening. This is to-day the most popular picture in America and the manager of the Exposition feels that a deep sense of gratification over its security for their exhibit. The admission rate has been made equally as low as the railroad fare, as it was the earnest desire of the committee to cover the pleasure and profit of a visit, in fact, several visits to the exposition. So for this reason the admission was placed within reach of the masses. As a further inducement the committee have reduced the price of tickets to 25 cents, commutation tickets to five for \$1.00. Individual season tickets, not transferable, but good for any number of admissions, \$3.50. Children of 12 and under, 15 cents. The pleasure to be derived from the Art department alone is well worth the admission price, but when it is considered that every exhibit in the department of science and industry, educational, historical, etc., is equally replete and satisfying then can one arrive at some idea of the scope of the Exposition. And yet the exhibits are comprehensive and every department is complete, of course, large and roomy, but every exhibit will be placed under the one roof. There will be no long, tiresome walks past exhibit after exhibit of one section. Each and every display is selected, and then made complete in every detail so far as possible.

This rate is the exceedingly low one of one fare for the round trip from any point in North and South Carolina with a five days limit, and upon May 19th and 20th the unprecedented rate of one cent per mile is given with three days limitation.

This is indeed cheap traveling and as May is the most delightful month in the year, and the Exposition thoroughly attractive, every one will attend. The building is rapidly nearing completion, and that no time may be lost in which to have all in perfect readiness for the opening, the arrangements for an electric light plant within the building are now being perfected, so that if necessary work can go on at night, that all the exhibits may be in place at the opening. The opening is announced for the evening of Tuesday, May 11th, when a reception will be held to which all are cordially invited. Mrs. Sallie Southall Cotton, of Falkland, N. C., will deliver the opening address. Mrs. Cotton's address before the Mothers' Convention at Washington in the early spring was a fine effort, and one which won for her the esteem of not only the prominent presence of Washington but the other large cities as well. Day by day fresh exhibits are arriving, which insure every department a complete and splendid display when the time arrives for throwing open the doors to visitors. The art department, with its many fine exhibits, cannot be described. It must be visited and studied if one would comprehend the wealth of its exhibits. "Breaking the Home Ties," the canvas of which everyone has heard, and all want to see, will arrive on the morning of the opening. This is to-day the most popular picture in America and the manager of the Exposition feels that a deep sense of gratification over its security for their exhibit. The admission rate has been made equally as low as the railroad fare, as it was the earnest desire of the committee to cover the pleasure and profit of a visit, in fact, several visits to the exposition. So for this reason the admission was placed within reach of the masses. As a further inducement the committee have reduced the price of tickets to 25 cents, commutation tickets to five for \$1.00. Individual season tickets, not transferable, but good for any number of admissions, \$3.50. Children of 12 and under, 15 cents. The pleasure to be derived from the Art department alone is well worth the admission price, but when it is considered that every exhibit in the department of science and industry, educational, historical, etc., is equally replete and satisfying then can one arrive at some idea of the scope of the Exposition. And yet the exhibits are comprehensive and every department is complete, of course, large and roomy, but every exhibit will be placed under the one roof. There will be no long, tiresome walks past exhibit after exhibit of one section. Each and every display is selected, and then made complete in every detail so far as possible.

REDUCED RAILROAD RATES. The greatly reduced rates which the Southern States Passenger Association has accorded the Woman's Exposition makes the success of the enterprise, which already was assured, now doubly sure, for hundreds of people will avail themselves of this opportunity to travel, and visit the exposition and other events which take place in Charlotte during the month of May. This rate is the exceedingly low one of one fare for the round trip from any point in North and South Carolina with a five days limit, and upon May 19th and 20th the unprecedented rate of one cent per mile is given with three days limitation.
