

Keep on Scratching.  
Dig clear into the bone and the Tetter will only be the worse. There's only one way to get an irritated, diseased skin. Soothe it. Kill the germs that cause the trouble and heat it up sound and strong. Only one thing in the world will do this—Tetter's. It's 25 cents a box at drug stores or postpaid for 50 cents in stamps by J. T. Shyrtles, Savannah, Ga.

Read This.  
A prominent business man, who will not employ anyone who drinks, said to a friend: "Why will men who are addicted to drink continually apply to me for positions of trust? Why will they not first go to Greenboro, N. C., and take the Keeley treatment. Three men in my employ are graduates from there and their salaries have been doubled within the last three years."

Waterloo Ozans are noted for unequalled quality of tone and durability. Easy to pump, clean, styles in Black Walnut and Quartered Oak. The best in the cheapest. Address John E. Wright, Greenboro, N. C.

Mechanism of the Human Body.  
The human body is an epitome in Nature of all mechanics, all hydraulics, all architecture, all machinery of every kind. There are more than three hundred and ten mechanical movements known to mechanics to-day, and all of these are but modifications of those found in the human body. Here are found all the bars, levers, joints, pulleys, pumps, pipes, wheels and axles, ball and socket movements, beams, girders, trusses, buffers, arches, columns, cables and supports known to science. At every point man's best mechanical work can be shown to be but adaptations of processes of the human body, a revelation of the principles used in Nature.—Fadies' Home Journal.

A Good Trait.  
"I dunno, ez the prodigal son was so very bad, after all," said Mrs. Cornsossel.  
"He wa'n no good to his family," her husband rejoined.  
"That's a fact. But when he got home he didn't hev no more ter say. Ef he'd been like most o' the men folks nowadays the fust thing he'd of done would of been to find fault with the way the fatted calf was cooked."—Washington Star.

The average woman will forgive her husband any crime on earth so long as she has every assurance that he will never commit it.

Judicious Expenditures Cause Big Returns.

To the merchant who is happy if he can sell his goods at an increase of ten to twenty per cent, over the cost, how almost incredible a profit can be made by typewriting machines and bicycles, which cost from about sixteen to twenty-five dollars to manufacture, can be sold for \$100—or even \$200—each.

What machines are more universally used today than these two, excepting the sewing machine?  
How hard the merchant struggles for his ten per cent, profit, while the typewriting machine and the bicycle sell at a price which is from four to six times the cost of manufacture.

Judicious and continuous advertising has made this possible.

De Garay—Why is it that when a fellow is alone with a girl he loves they seldom play cards? Merritt—Because if they did she would have to hold her own hand.—Judge.

No-To-Bac for Fifty Cents.  
Over 400,000 cured. Why not let No-To-Bac regulate or remove your excesses? Saves money, makes health and manhood. Cures guaranteed. 50 cents and \$1.00 at all druggists.

She—Then papa I don't refuse to listen to you? He—Not a bit. I began by telling him I knew of a plan whereby he could save money.—Cincinnati Enquirer.

A. M. Priest, Drugist, Shelbyville, Ind., says: "Hall's Catarrh Cure gives the best of satisfaction. Can get nearly all catarrhs, as it cures every one who takes it."—Druggist.

Just try a 10c. box of Cascares, the finest liver and bowel regulator ever made.

I am entirely cured of hemorrhage of lungs by Fiso's Cure. Sold by L. O. LINDMAN, Bethany, Mo., January 5, 1891.

Fits permanently cured. No fits or nervousness after first day's use of Dr. Kline's Great Nerve Restorer. \$2 trial bottle and treatise free. Dr. R. H. Kline, Ltd., 931 Arch St., Philadelphia.

Cascares stimulate liver, kidneys and bowels. Never sick, weaker or griped. 10c.

Mrs. Winslow's Soothing Syrup for children teething, softens the gums, reduces inflammation, allays pain, cures wind colic. 32c a bottle.

When bilious or constive, eat a Cascares, candy cathartic; cure guaranteed; 10c., 25c.

Poisoned Blood Malaria  
These come from poisonous miasms arising from low marshy land and from decaying vegetable matter, which, breathed into the lungs, enter and poison the blood. Keep the blood pure by taking Hood's Sarsaparilla and there will be little danger from malaria. The millions take

Hood's Sarsaparilla  
The best—in fact the One True Blood Purifier. Hood's Pills, the best family cathartic, cure to operate. 25c.

WISCONSIN'S CURE FOR CONSUMPTION  
CURES WHERE ALL ELSE FAILS.  
Best Cough Syrup, "Lungs Good." One bottle, 50c. Six bottles, \$2.50.

Have been using Ayer's Pills for thirteen years and find that nothing equals them for indigestion. They are the only relief I have found in all these years for the suffering of dyspepsia and indigestion. Mrs. J. M. MITCHELL, Glad Hill, Va., Feb. 21, 1890.

"I have been using Ayer's Pills for years for biliousness and constipation. I find them very effective, and mild in action. They give me relief in every respect."—J. M. MITCHELL, Glad Hill, Va., July 19, 1895.

WEIGHTY WORDS FOR AYER'S PILLS.

FIFTY-FIFTH CONGRESS.

Report of the Proceedings from Day to Day.  
SENATE.

MAY 25TH.—The debate on the tariff bill began in the Senate with crowded galleries, a large attendance of Senators and the tariff leaders of the House. Senator Aldrich made the opening speech, which lasted for almost an hour and a quarter, adopting an easy conversational style. His speech was the official utterance of the finance committee, and, in a sense, of the Republican side of the chamber. Without making invidious distinction between the two bills, Mr. Aldrich clearly stated, as the belief of the finance committee, that the House bill would not yield revenue adequate for the needs of the government. Mr. Vest, one of the Democratic members of the finance committee, followed with a statement in opposition to the bill. Mr. Cannon, of Utah, a silver Republican, closed the debate for the day by urging that the protection should be so distributed as to aid the farmers.

MAY 26TH.—The first vote on the tariff bill was taken in the Senate. It came after a two-hour debate on the item of beracic acid, which, although comparatively unimportant, afforded an opportunity for the first alignment of the various elements. Mr. Vest, of this hour, a Democratic member of the finance committee, moved to make the rate on beracic acid three cents instead of five cents per pound, as provided by the committee. This presented a direct issue between the committee and its opponents of the bill. The motion was defeated, yeas, 20; nays, 34. The resolution was agreed to authorizing the Secretary of the Navy to employ any suitable ship for forwarding relief supplies to India. The final conference report in the Indian appropriation bill was agreed to.

MAY 27TH.—The Senate made good progress on the tariff bill, disposing of about ten pages. Several votes were taken during the day, the finance committee being sustained in each case by majorities varying from 9 to 15. The bill was under discussion and the debate was largely technical. Occasionally, however, it branched off to general phases of the tariff, although at no time during the day was there a speech of more than five minutes duration. Before calling up the tariff bill final conference report on the sundry civil bill was agreed to, including the provisions suspending until March 1 next the executive order creating exclusive forest reserves.

MAY 28TH.—In the Senate, Tillman, senator from South Carolina, made a sensational speech on the sugar trust in which he openly charged Senator Smith, of New Jersey, of speculation. He also presented a resolution for the appointment of a committee of five to investigate charges of speculation by Senators while the tariff bill was before the finance committee. The resolution was referred to the committee on contingent expenses, and it is thought that an investigation will be ordered. Aldrich, in charge of the tariff bill, answered Tillman in a sweeping denial of all irregularity on the part of the finance committee and a specific denial of charges that the sugar trust had dictated the sugar schedule to the tariff bill. Considerable progress was made on the tariff bill thirteen paragraphs being reported. Several votes were taken during the day, but the finance committee had a liberal majority in every instance. The Democratic members of the finance committee made a strong effort to reduce the rates of window glass, but their amendments to this effect were defeated.

MAY 29TH.—Progress on the tariff bill in the Senate was checked, the plea of glass paragraphs proved a source of controversy lasting throughout the day. As a result, little more than a paragraph was disposed of. The finance committee succeeded without difficulty in resisting proposed amendments from Democratic members of the committee, although each amendment was deleted at great length. Senator Quay succeeded in carrying a motion to adjourn over the Decoration Day celebration on Monday. The debate on the tariff bill continued until the plate glass schedule lasted two hours and on a ye and nay vote was defeated—21 to 23. Senators Hittfield, Kyle and Pettigrew voted with the Democrats, and Senator Jones, of Nevada, with the Republicans.

HOUSE.  
MAY 27TH.—The Cuban resolutions were taken up in the house and read after Lewis, (Dem.) had proven that foreign relations was always a privileged question. The resolution having been read the Speaker promptly declared it out of order, and said such a resolution could be introduced in the regular course and could be referred to an appropriate committee, after which the House adjourned until the 31st.

ARMOR CONTRACT REFUSED.  
Bethlehem and Carnegie Will Not Accept Government Prices.  
The Carnegie and Bethlehem concerns have again refused to accept the Government's proposition for the purchase of over 9,000 tons of armor plates. The Government is compelled to refer the whole subject back to Congress for further consideration.

The contractors will not furnish armor plate for less than \$425 a ton and are not quite certain if this will be acceptable. The government offers \$400 a ton and says this is a very high price to pay.

Bread is taking steps to strengthen her navy.

Grease to Destroy Lice.  
If cattle in spring are thin in flesh, with rough, staring coat, it is a pretty sure sign that lice are troubling them. It is only on thin cattle that lice can long continue to live. Grease of any kind kills them, as it closes the pores through which they breathe. It is much better to rub lard or fat of any kind on the necks of cattle and around the head than to apply large amounts of kerosene, which has usually the effect of taking off hair. If kerosene oil is used, make it into an emulsion, and use ten times its bulk of water, and using enough soap to make the oil and water thoroughly mix. This closes the pores and is just as effective as stronger doses.

APPEALED FOR PROTECTION.

Where Shall Rest Be Found, Rest for the Negro's Feet?  
THE HANDSOMEST BUILDING.

Excellent School for Colored Youth. Graduates Under Difficulties—Other Race Notes.

Relative to space to ask a few questions relative to the Negro's destiny. He lives in an atmosphere which is largely composed of oxygen destructive to his progress. He is encircled with a rope law which is destructive to civilization, a curse to Christianity and barbarous in its appliances. It is sufficient to merit the frowns of the God and of the universe. The rope is his guide and the lynchers his teachers and directors. In some places he is not allowed to complain, no matter what his treatment. Should he call on some of the officers, the instruction is: "You had better go slow." What would be the condition of affairs should a Negro get lynched in South America or some parts of Europe? These questions must be answered. What is the Negro's hope when his wife and daughter are insulted by men of another race? What is to be done when women and girls of the Negro race are kicked from sidewalks and stores? What is to be done when in a Negro's house and attempts to force his wife or daughter?

What is to be done when his church services are controlled by people aside from himself? What is to be done when ladies of another race refuse to sit at the same table as the Negro? What is to be done when a man of another race attempts to persuade his daughter to agree to his unfair proposition? What is to be done when brought before an unjust judge, the rope gang? What is to be done when a man of another race goes into a Negro's house and attempts to force his wife or daughter?

There is a colored institution in Beaufort, S. C., that has been in operation for the past four years that promises vast beneficial influences to the race for whose education and training it has been founded, under the auspices of the Presbyterian Board of Christian Freedmen, with headquarters at Pittsburgh, Pa., where are stationed the board of directors. The school is called "Harbison Institute," after Mr. P. H. Harbison, its first president and one of the directors. The Rev. G. M. Elliott, a colored man of character and education, is principal, and with a corps of 100 assistants, four departments—a primary, grammar, normal and high school to which is to be added an industrial school and conducted most admirably and successfully. The institution is building a new building as well as a day school, and the attendance during the past year was 150 pupils, divided among the several departments. It opened four years ago with twenty-one scholars and has been steadily increasing its attendance every year since. The assessed valuation of the property only partially occupied as yet by buildings in contemplation is about \$8,000, and covers one and a half acres in a central and excellent part of the town.

The Indianapolis Dispatch of the 25th says: "Carrie Parker, the only colored school girl in Vermillion High School, graduated last night at the graduation ceremony. She was practically ostracized by her fellow pupils during her entire course, and on two occasions when she resented insults she was expelled from the school, not because she was in the wrong, but as the trustees said, 'to keep peace in the family.' She made a good record despite her discouragements, and a triumph last night over all others in her class when she delivered her graduating essay. The girl's father is a laborer. She will apply a piece in the mission field and devote her life to teaching the heathen."

The Perry (Okla.) Dispatch of the 25th says: "The colored people of Tennessee have appealed to the Governor for protection from white caps. Nearly every colored family in that town have received letters of warning to leave the country immediately. It is supposed that the white caps are white laborers and do not want Negro competition. For several days white caps have been threatening vengeance on Negroes if they did not leave the territory. Norton, a city of 2,000 inhabitants, has not a Negro in town, all having been kept out by a vigilance committee. Tennessee is the county seat of Pottowatomi county."

The question of "Negro Education" is vigorously discussed by T. H. Martin in the current number of "Dixie." The path of his argument is that the one hundred endowed schools and colleges now in the Southern States, devoted to Negro education, should be converted into industrial training schools. He declares that "there are two or three institutions of this character now in operation, and it is quite within the limits of truth to say that they are of greater material benefit to the race than the combined influence of all the colleges in the land."

The Negro building of the Tennessee Centennial is the handsomest building on the grounds and occupies one of the most beautiful and desirable places among many other magnificent buildings, now in the Southern States, designed by one of the principal lakes on the grounds.—The Progress.

The entire stock of the Glen Lincoln Coal and Coke Company, of Norton, West Va., is owned by Negroes. The company employs 200 hands, all Negroes.—Weekly Guide.

Many of the "race" papers are now endeavoring to encourage their editors to give up so much activity in politics and use the same amount of energy in business enterprises.—The Republican.

The Cedar Rapids Gazette says: "Mobs make fewer mistakes than the courts." But their mistakes are not so easily corrected.

Mr. J. W. Bush, a prominent colored man, has been elected mayor of Mason, Tenn.

PHYSICIANS BAFFLED.

Prof. R. S. Bowman, Instructor of Natural Science in Hartsville College, Cured of a Severe Illness by Dr. Williams' Pink Pills for Pale People After Physicians Failed.

From the Republican, Columbus, Ind.  
Prof. R. S. Bowman, the able instructor of natural science in the famous Hartsville (Ind.) College, is well and favorably known, not only as an educator, but also as a minister of the gospel, as for a number of years he was pastor of the United Brethren church at Charlotte, Mich., before coming to Hartsville.

Some time ago he had a severe illness which was cured almost miraculously. A reporter hearing of this, interviewed him regarding his experience. Prof. Bowman was in the midst of his work when the reporter called, but he cheerfully gave him a hearing.

"A year ago last fall," said the professor, "I broke down with nervous exhaustion, and was unable to properly attend to my duties. I tried different physicians but with no relief, and also used many different proprietary medicines, spending almost fifty dollars for these medicines alone. I then succumbed to a seige of the grip in the middle of winter, and was left in a much worse condition. My kidneys were fearfully disordered, and my digestion became very poor. I was indeed in a bad condition."

"A minister in conference learning of my condition advised me to try Dr. Williams' Pink Pills for Pale People. I had heard much about the wonderful curative powers of this medicine, but it was with reluctance that I was finally persuaded to try it, as it seemed that nothing could do me any good. However, I procured three boxes of pills and took them strictly according to directions. By the time the last dose was taken I was almost cured, and in better health than I had been for years. I continued using the pills while longer and was entirely cured. I can cheerfully recommend Dr. Williams' Pink Pills for Pale People.

Such was Professor Bowman's wonderful story, which was fully endorsed by the following affidavit:  
HARTSVILLE, Ind., March 16, 1897.  
I affirm that the above records with the facts in my case.  
R. W. BOWMAN.

Subscribed and sworn to before me this 16th day of March, 1897.  
LYMAN J. SCUDDER, Notary Public, STATE OF INDIANA.

Dr. Williams' Pink Pills for Pale People contain all the elements necessary to give new life and richness to the blood, and restore shattered nerves. They are sold in boxes (never in loose form, by the dozen or hundred) at 50 cents a box, or six boxes for \$2.50, and may be had of all druggists or directly by mail from Dr. Williams' Medicine Co., Schenectady, N. Y.

A Nose Party.  
A nose party is the latest. It came off in Bucksport, Me., the other evening, and is thus described by a participant: Holes were made in a sheet large enough to admit a good-sized nose. Half of the party got behind it, and for a moment or two there was a wide variety of assortment of protrusions on exhibition, ranging from the turn-up pug to the needle-pointed creation searched. The party on the outside selected noses, each choosing the particular nose that suited his ideas, and the owner thereof was his partner for the evening. It was a solemn occasion.

German Land Owners.  
Germany's largest land owners own between them over 100,000 acres of German soil. Prince Wittgenstein has 3,000,000 acres, next comes the Duke of Arenberg with 800,000, then in order the Prince of Thurn and Taxis, the Duke of Brunswick, Prince Salm Salm, the Prince of Talleyrand-Sagan, who is a French subject; the Prince of Pless, the Duke of Leuchtenberg, Prince Bentheim, Prince Lowenstein, the Prince of Wied (father of the Queen of Roumania), and Prince Fenger. Many of these have large estates outside of Germany.

DRUNKARDS CAN BE SAVED.  
The craving for drink is a disease, a morbid condition for which has been discovered called "Anti-Jag," which makes the habitable law of abstemiousness a strong drink without knowing why, as it can be cured by the use of "Anti-Jag" and the like. "Anti-Jag" is not kept by your druggist; send one dollar to the Chemical Co., 65 Broadway, New York, and it will be sent postpaid in plain wrapper, with full directions how to give security. Information sent free.

The popular will expressed in the deplorable form of riots seems to be making headway against the toll gate system in Kentucky. Bourbon County has expended about \$5,000 on road-making machinery, and last week nearly 100 miles of roads were thrown open to free travel. The county will acquire the remaining 200 miles in a few weeks.
