At the white department of the Deaf and Dumb and Blind Institution there are 127 children as against 97 last year and 142 in the colored department as against 111 last year, and more came in for each of the departments this week, There is an increase in the two departments of about 65 children. That does not look like the people take much stock in the falsehoods of the News and Observer about the institution being in the hands of incompetent men. Not only in this institution has there been an increased attendance, but the same is true of every one of the other educational institutions aided by the State, and as a rule these increases come from among the plain people who seemed heretofore to think that these institutions were for the rich people. The Populists and Republicans are making a record in this educational business of which they need not be ashamed, and which the falsifying Democratic press cannot blot out. The people are watching these days for themselves.

The face of the genial Barnum, however, is yet dead walls, although his body rests in the sepulcher, and his executors have disposed of the interest in the show which was held by his estate. The object of this enterprise is to stimulate industry, skill, economy and thrift among the negroes of this section of our State, known as "The Dark Belt."
