North-Carolina Register

UNITED STATES CALENDAR.

for the year 1823, was compiled by the subscriber, and published last winter at the printing office of Messrs. Jos. Gales & Son. In the preface it was announced that should sufficient encouragement be given, a similar publication might in future be annually expected. The design of this ication was, to furnish the citizens rally with a convenient book of reand at a moderate price, much local nformation which could not without considerable trouble, be obtained from any other source. From the favorable opinion very generally expressed respecting the uncommon utility of this work, the compiler was led to believe, that public patronage would have equaled his ex. pectation. This expectation, however, so far from being realized, has been more than disappointed. More than six months have elapsed since the Register has issued from the press and the sale has not vet defrayed the expences of printing. Thus, nstead of being remunerated for their labor, the Editor and the Printer are both out of pocket. A very moderate compensation would have satisfied both; but neither of them can think of continuing a publication which must subject them to a loss. Preparations have been made for the publication of a Register for 1824; and for presenting it to the public in a state of considerable improvement; embracing the correction of several errors which could not well have been avoided in the first Register, together with an accession of valuable information, which assurance of a more extensive sale can be secured, the project of continuing a Register for N. Carolina must be entirely abandoned. If such assurance can be obtained in a reasonable time, the work, now preparing will, in due season, be committed to the press. In such an event. it will appear by the time fixed for the meeting of the Legislature of this state : and such copies as may be engaged will be sent to the several counties by the return of their respective representatives. I hose who feel interested in encouraging the Work here referred to, are requested to inform the subscriber by letter, free of postage, of the number of copies they are willing to take; and it is desirable that this should be done with as little delay as possible—as the work, if printed at all, ought to be in the press before the 1st of
