Trouble between Kelly and Henderson has its inception when the safe man refused Kelly's demand that his entire personnel join Local 444. There followed a long period of picketing and a series of court battles in which Kelly and other members of the union haled into court on a variety of charges, but without infliction of penalties. The court strife was temporarily halted when Henderson obtained a court injunction restraining the union from interfering with his customers, but picketing was kept up until the safe was jined last Tuesday.

DONT TAXES TAKE THE CAKE?

MOTOR TAXES

The auto owner has to bear a whole lot more than his just share of taxes, we maintain. Whenever legislative gents need cash to liquidate expenses, they hasten to ordain another levy on the man who owns a new or antique van that burns up gasoline. Right now it takes most all the pay a chap can earn from day to day to sponsor a machine. Did Uncle Sam grab off a few jacks every time a new car's sold and Michigan takes three per cent of what one pays after he's labored hard to raise the price of a sedan. And no small portion of the cost of fuel by gas stations tossed into one's tank is tax. No other thing could bear the load that taxing units have bestowed upon our gasoline hawks! Though vigorously we protest the robbery that soon divests us of our hard-earned dough, the chaps who have authority to jack folks like you and me and fill our souls with woe, refuse to stop their practice vile. But, on the contrary, they pile more burdens on our backs—Some day, we hope, our sovereign state will grow much more considerate about the auto tax! (Reprinted from Port Huron, Mich., "Herald")

NEWS ITEM: "February 25, 1937 is the 18th anniversary of state gasoline taxes, which have cost motorists more than \$6,000,000 since first levied at a gallon in 1919. The cost for 1936 alone is estimated at \$685,000,000. Federal gasoline taxes have cost an additional \$772,658,000 since 1932, making the grand total cost from 1919 through 1936 about \$6,169,876,693. Efforts now are being made to eliminate the duplicating federal gasoline tax, to reduce excessive state taxes to reasonable rates, and to assure expenditure of all revenue for highways only."

Point Up Summer Menus With Salad Spears

There's a point to this story of banana and pineapple spears!

PIQUE your appetite and peak up your reputation—take a peek at the picture shown above—and perk up your meals with this banana and pineapple salad.

Bananas are popular all the year round, but seem to rise in popularity with the rise in temperature, they're so cool to eat, so easy to prepare! This salad ensemble in four tones, pictured above, offers you juicy pineapple spears, creamy points of ripe banana, ruddy, rich cherries and fresh green mint! It's all served on a bright blue plate—and notice the "cooking" new table mat!

Chequer with "Spears"

To assemble your own salad ensemble, just cut a peeled ripe banana lengthwise into quarters. Place two of the quarters on each individual salad plate, crossing one quarter over the other. Cut through one side of a slice of pineapple and twist into S-shape; stand pineapple slice upright across quartered banana "spears." Place a cluster of cherries beside the banana, garnish with mint. Serve with French dressing or whipped cream mayonnaise.

... And a New Dressing!

Three minutes to make it—and even your "regular" fruit salad becomes a "cheer" salad! When you serve it with Banana Cream Dressing, to make it slice 1/4 ripe banana into a bowl and beat until creamy. Add 1/4 cup unwhipped heavy cream and whip until stiff. Add 1/4 cup mayonnaise and 1 teaspoon salt to taste. Makes about 1 cup.
