

# HORNETS AWAIT BOWL GAME

## Hillside, Booker Washington To Clash Jan 1

The Hillside Hornets, after winning one of their easiest championships, a forfeit game, started their drills Wednesday with the "Tobacco Bowl" classic to be played here on new year's day.

The Classic, which will be an equal classic, is to be played this year on the O'Kelly Field of the N. C. College for Negroes. The opponents of the Hornets this year will be the highly publicized, well tutored, eleven Booker T. Washington High School of Norfolk, Va. For several years, Booker T. has played through a tough schedule and won the championship of Virginia. This year, however, they were defeated in the championship game by Peabody High of Petersburg, Va. a team which has been inferior in every department to the Booker

T. eleven would win the championship that they were invited to play against the Hornets before the season was over. Rumor has it that they should have won the championship this year but being football, anything can and did happen.

The Booker T. eleven consists of practically the same team with which they have been winning numerous championships. In size, the team has the average height and weight of a college team and is well tutored for the classic.

The Hornets have been kept in condition since the close of their season by taking short laps around the athletic field each day. This week, however, Coach Riddick put them back into heavy togs for a more concentrated drill especially fitted to offset the charges of the Virginians.
