Marie Downing BEAUTY AND ROMANCE

Q—Your question will be answered in this column. For a Prunella Rose, send me...

The Lorraine Beauty Foundation was established by the Godfrey Manufacturing Company to study methods of preserving women's natural beauty...

Ever since the first breath of spring has been in the air, I have been receiving letters asking how to have a clear smooth skin for spring and summer.

Q—W. W. I was married 17 years and a lady last year and lately she's full of clothes with her ill health back at sent for them I write and asked her to send them to me and she sent me a letter and said she had sent my things and it was no use for me to come after them. What is best for me to do now?

Get More Sleep and Exercise The first step in getting ready for spring and summer is to work out a balanced routine of sleep, exercise and diet.

Select Make-Up With Care After you have taken care of these fundamental rules, start on your skin. As I have told you so often before, it is important that you cleanse your face at least twice a day, either with soap and warm water, or a good cream, depending on the texture of your skin.

Q—L. E. F.—I am a girl 16, and is not married. I have become a mother. Does the guy care anything about his baby? I am very much interested in the guy. Will he help with the baby? Will he and I ever marry?

Tables for dinner, and a few less potatoes and bread. And drink lots of water—at least eight glasses daily. Plenty of water will help purify your entire system.

High school students and young adults are the two groups eligible this year. All reservations are to be made as early as possible. Watch for further publicity about the camp. If further information is desired immediately, it is available at the Y. Calendar for week:

Q—Anna. The "guy" likes you well enough to marry you. The thing that keeps him from going ahead and doing this is that he thinks you are a little below him. Too common, to be frank with you. Try to make him see his mistake by living a clean, healthy life and bringing the baby up right. You can win him by setting the right example.

I hope this answers the questions of those of you who have been wondering but haven't got around to writing me personally. Follow these simple suggestions, and here's to an exciting spring and a glamorous summer.

Q—M. B. R.—My husband seems to get meaner every day. We have been married 5 years. I am not perfect but I do have a gentle heart and he is so brutish. He don't give me one penny. I have made up my mind to leave him as he has killed all my love. I can't pray but I do ask the Lord for mercy. Why do I have to suffer for such an unjust cause?

Eat Fresh Fruits and Vegetables And watch your diet. Throughout the winter you have doubtless been eating more than your quota of heavy starch foods. Now that spring is here, there is an abundance of fresh fruits and vegetables on the market. Why not try eating a spring salad for lunch instead of sandwiches or meat and potatoes? You'll find it just as sustaining and a great deal better for your health. And be sure you have a substantial helping of green veg-
