SPENDS VACATION IN MORGANTON
Mr. and Mrs. Lucian Johnson accompanied by their son in law and daughter Mr. and Mrs. Hancock are spending their vacation in Morganton, with relatives and friends. They were also accompanied by their son, Erwin Johnson.

African Visits

AFRICAN MAGNATE VISITS BOSTON
BOSTON — A. S. Wynter-Shackelford of Lagos, Nigeria, owner of the largest bakery in British West Africa, recently visited this city. He was accompanied by his wife. For 26 years Mr. Shackelford, who is a native of Jamaica, British West Indies, and the son of a well-known family there, has resided in Nigeria.

Resident

NEGRO ONLY CENTRAL PARK RESIDENT
NEW YORK, (ANP) — A census enumerator recently discovered that the sole resident of spacious Central park was James Carter, 27, who came from Charleston, S. C. five years ago and has been occasionally employed as a fruit handler. When he is not living in the park, Carter lodges at Keeney's garage. The enumerator found him sleeping soundly on top of a huge rock near 77th street and Central Park west.

Reveal Nazi Activities In Arkansas

ST. LOUIS, (ANP) — After signing of an agreement between the Terminal Railroad association and the Brotherhood of Railroad and Steamship Clerks here last week, \$1300.16, April profits of the 10-cents a bag luggage carrying plan, was divided between 74 Red Caps at the Union Station.

Total profits of the plan's first 30 days, the sum was distributed in proportions based on the amount turned in. The highest dividend paid was \$62 more than the employee's basic wage of \$57.60 for the four week period. Thirteen men failed to earn more than the minimum wage of \$42.40 a day, it was revealed.

"Of course," one red cap said, "tips used to amount to more than \$2.40 a day, but a lot of people still give a little extra."

Red Caps Report

LITTLE ROCK, Ark., (ANP) — "Fifth Column" activities in an East Arkansas county were reported this week after Atty. Gen. Jack Holt received a letter charging the Nazi party with launching a membership drive among Negro sharecroppers. Turning the letter over to the Federal Bureau of Investigation Atty. Holt revealed its contents which said that "Nazi literature was being distributed among sharecroppers and field hands."

Speakers at one of the meetings last week, the letter said, told the Negroes that they were

Colleges Plan Summer Safety Campaign

RALEIGH, N. C. — With seven teen colleges including N. C. College for Negroes participating, the North Carolina Highway Safety Division will launch the most ambitious college summer safety program ever begun in North Carolina, according to an announcement Friday by Ronald Hockett, Director of the Division. Working with the Center for Safety Education of New York University the State Department of Public Instruction and the Directors of North Carolina College summer schools, a competent staff of safety specialists will visit twelve white colleges and five Negro institutions during the month of June.

"It is our considered opinion," declared Mr. Hockett, "that this series of college safety institutes, stretching from Elizabeth City to Asheville and Boone, and reaching thousands of North Carolina teachers, will mark a new era in helping to develop a safety consciousness throughout the state. The enthusiastic reception accorded the proposal for these safety institutes by every college administrator approached, testifies both to the urgency of the problem and to a widely felt need to do something practical about it. We may confidently expect great results from this part of our summer's work."

The three major questions to be discussed at the institutes are: What is the Accident Problem? What is the State Doing About the Accident Problem; and what the schools are doing and can do about the accident problem.

Dr. Walter Cutter and Mrs. Bill P. Flythe, field representatives of the Highway Safety Division, will be assisted in the first institute series by Milton D. Kramer, instructor in traffic safety and driver education in the Center for Safety Education, New York University. Also participating will be Miss Hattie Parrott, Charles Spencer and David Miller of the State Department of Education.

During the first period, June 10-14 inclusive, the safety institutes will be held as follows: Elon College, June 10; Atlantic Christian College, Wilson, June 11; East Carolina Teachers College, Greenville, June 12; High

"nothing but slaves" and that Adolph Hitler would free them. Hitler was further cited as a leader of the common people, one who "should be leading the Nation."

There were other acts in the letter that I wouldn't dare make public because it would cause the leaders to flee before the FBI could investigate, Atty. Holt declared.

Bishop McConnell Delivers Bennett College Finals

GREENSBORO, — The sixty-seventh annual commencement at Bennett College, Greensboro, closed one of the most successful years in the history of the institution, the season having been climaxed by the commencement address of the Right Rev. Francis John McConnell, resident bishop of the Methodist church, New York City, and the conferring of the degree of Doctor of Humane Letters upon Mrs. Ida Haslup Goode, Sidney, Ohio, president of the Woman's Home Missionary Society, and vice-president of the board of trustees of Bennett College. Forty-two young women received bachelor's degrees.

Of special significance was the breaking of ground for the new Memorial chapel, gift of Mrs. Mrs. Henry Pfeiffer of New York City and Carrie B. Goode hall the gift of the Woman's Home Missionary Society on Sunday afternoon following the baccalaureate address by Dr. C. Y. Trigg pastor of the Metropolitan Methodist church, Baltimore.

Hospital Measure Passes

WASHINGTON — For the time in 78 years an amendment, providing for an equitable proportion of a federal appropriation being given to Negroes on the basis of need in places where separate facilities are required by law, passed the Senate last week through dogged persistence and grim determination of the National Non Partisan Council on Public Affairs of Alpha Kappa Alpha Sorority. Not only did the amendment pass the Senate, but it passed without a dissenting vote, so thorough had been the contacts, presentation and organization of the fight by the Council of the Alpha Kappa Alpha Sorority.

The modified amendment that the Council has succeeded in getting Senator Warren Barbour of New Jersey to introduce was passed, which provided for the hospital facilities which will be made available on the passage of this bill and will be made available to all persons residing in the territorial area, without regard to the financial ability of the person to pay, without discrimination on account of sex.

DOWN ON THE FARM

POISONS CONTROL TOBACCO INSECTS
Protection of this year's tobacco crop against preying insect enemies is being urged by F. O. Rowell, entomologist of the State College Extension Service.

Various insecticides or poisons applied in a well timed and persistent program of defense will assure the leaf farmer of a better crop, the State College man said.

For instance, the flea beetle may be controlled with a mixture of paris green and arsenate of lead. One pound of paris green to five pounds of arsenate of lead is the recommended proportion.

For small or newly set plants, three pounds of this mixture For small or newly set plants, three pounds of this mixture will treat an acre. For half-grown or larger plants, four to six pounds will be necessary. Because of the defense growth of tobacco and the necessity of applying the poison on the underside of the leaf, the mixture is most effective when dusted. Horn worms also are controlled with mixture.

The best known control for bud worm, another common enemy of North Carolina's No. 1 cash crop, is poisoned corn meal bait. When used on a large scale one pound of arsenate of lead should be mixed with 50 pounds of corn meal. For smaller amounts, six heaping tablespoons of poison to one peck of meal is recommended.

Applications should be made only in the morning when the tobacco buds are open, and the

treatment should be repeated every week until the crop is topped. One peck, or 12 pounds, is sufficient for one application per acre. A small pinch of the bait is dropped into each bud, Rowell pointed out.

COTTON AND TOBACCO FACE REAL TROUBLE

Cotton and tobacco are two great export crops in which North Carolina farmers are vitally interested and, according to experts of the United States Department of Agriculture, those farmers who produce crops of which a substantial portion go for export are going to be in trouble this fall.

This makes it absolutely necessary that the three point Agricultural Extension program of 1, food for man and beast; 2, a more fertile soil, and 3, a balancing of cash crops with livestock be widely adapted in the State.

Right now, the Nation is moving as fast as it can in organizing towards a defense program to protect this country against onslaughts and conquests of totalitarian nations. State College is aiding in this program as its facilities permit and while the Nation attempts to put idle men, money and factories to work to produce the needed munitions of war, the College Extension Service is calling upon its county agents, specialists and other trained experts to foster the production and conservation of all kinds of food and Feed-stuffs.

It is, of course, expected that the preparedness program will

eventually make up for the loss of foreign markets for Farm produce but as Secretary Wallace has pointed out, until the preparedness program is sufficiently underway to have this effect, farmers should be careful that they are not victims of the war's interference with world trade. In other words, College officials believe that security for North Carolina farmers lies in their definite adoption of a safe and feed crops to be saved for use on the farm no matter what happens.
