**Wife Preservers**

Many a housewife wonders how she can cool a hot dish and at the same time protect it from insects and dust. A piece of cheesecloth slipped between embossed frames can be used as a cover, allowing the steam to escape and at the same time keeping dust, etc., out.

**Household Hint**

Sandwich fillings of ready-to-use chopped or sliced ripe olives and finely minced green pepper, celery or crisp cabbage, moistened with salad dressing or mayonnaise, make good flavor fillings for most sandwiches. Or use the mixture to dress up the meat sandwich and make it tastier.
