NINETY-THREE THOUSAND KILLED

Few of us realize that during the year 1939, NINE-THREE THOUSAND people met death from accidents in America . . . one person every five and one-half minutes, eleven persons every hour, two hundred and sixty each day, eighteen hundred each week.

Sixty-two per cent of all fatal accidents fall under two headings . . . motor vehicles 34% and falls 28%. With the holiday season approaching, travel will be in full swing. What would be the picture in your home should you be one of the victims?

Insurance will not bring back a loved one, but there is satisfaction in the thought that the future of those left behind is financially secure. Can you afford to gamble with a need so vital?
