American Red Caps Bow In Holiday Tilt 13-8

Brooklyn Royal Giants Top Red Caps 13 to 8 In Listless Encounter Monday Before 2,000 Fans At Durham Park

Ashforth and Prince Turn In Fine Relief Hurling Exhibition

BY SAM E. WILLIAMSON

DURHAM — Playing listless ball, the American Red Caps, local semi pro nine, bowed to a superior Brooklyn Club by a 13 to 8 score last Monday before some 2,000 holiday fans, at the Durham Athletic Park.

Opening the game with a hand starting pitcher for the local nine, from the mound with a five run flurry in the two opening frames; meanwhile holding

the locals scoreless. Knuckles second local hurler to face the visitors, fared little better as he was touched for a total of five more runs by the hard slugging Giants, before being relieved by Ashford in the fifth frame.

In the next four frames, the locals, not to be denied, behind the hard hitting of Mann, stellar first sacker, touched Casey, Brooklyn mound artist, for a total of 7 hits and 8 runs, while holding the Giants to a total of 3 runs, behind the brilliant relief hurling of Ashford and Prince.

Score by innings:
Brooklyn 413 203 000—13 10 2

Leaflets Blast Joe Louis, Recent Urban League Broadcast

Atlas Power Group Strikes Sour Note; Hits Negro Spending

BY ROBERT A. ORUMP

DETROIT — While most people here are still commenting favorably about the radio program over a nationwide hookup sponsored by the Urban League Sunday, March 20, at which time a plea was made for jobs for Negroes in industry in connection with the defense program, one organization here known as the Atlas Power group strikes a sour note and severely criticizes the program in particular and the Negro in general.

The Atlas Power group, headed by Arthur Reed, is circulating leaflets entitled: "Claim Your Heritage," with a sub-head: "Don't Let Injury Follow Insult." After having made an overture of no apologies for the statements, the leaflet said of the "supposedly Negro leaders": "We heard 'Mammy' Ethel Waters, Uncle Toms and the professional flunkies, Bill Robinson, Rochester, Joe Louis and others. Such a program was the most dastardly insult and show of ignorance ever heaped upon the heads of a race or a group of people."

The pamphlet takes a slap at ministers, churches, religion and Negro business. He says Negroes have no right to even dare to approach the great industrial leaders while Negroes will spend \$35,000 to \$100,000 for amusement places for "a pleasure drunk race."

"Our most worthy champion, Joe Louis," the leaflet expounds "and even his managers have no background but that of the average poor Negro, yet thousands of the same class of which they were birthed stand by and see them squander thousands of dollars on such things as golf links, amusement farm, riding academy, club houses and petty insurance companies."

Mr. Reed, head of the Atlas Power group, is an inventor of

sorts. He has a brake which he has been endeavoring to manufacture for some time. The sale of stock in the company he represents has not been satisfactory and it seems that the group is sore with the world because the race cannot see the prospects of the company's future development. He strikes at the ministers because, as the leaflet says, the preachers would not allow him to sell the idea in their churches and solicit funds for its manufacture.

The power group has a plan to build factories and employ the masses of Negroes and wants it to be done with Negro capital, having refused white interest.

Joe Louis Slipping Authur Donovan Tells Sports Fans

"Determination Made Him Greatest Fighter Lacking"

(GALVIN'S SERVICE)

ST. LOUIS, Mo. — "Joe Louis is definitely slipping," No less an authority as Arthur Donovan who referred the Louis-Mu. to fight here last night. And Donovan should know what he is talking about, as he has referred 17 battles since the latter debut against Carnera in '35. "Louis doesn't seem to have the determination that made a great fighter," declared Donovan. "His spirit seems to be gone." "He is no longer the finished fighter that polished off Max Schmeling, Tony Galento, Max Baer and others. It isn't that Joe lacks confidence but he just seems to lack that spark or something that can't be explained."

"Unlike the Louis of old, who tried to knock your head off with the first punch of the fight, Joe must get riled up now before he cut loose. Louis is still as great a fighter as he wants to be. It is only that he has advanced so far that he no longer has the interest of the game at heart. I doubt if Louis will ever regain the form he displayed up into his second fight with Arturo Godoy."

Food and Feed Campaign To Be Started In State

With the endorsement and active participation of Governor J. M. Broughton, a "Food and Family Living" campaign is being started in rural North Carolina. Next fall farm families will be graded, and those who

have produced at least 75 percent of their food and feed requirements for the year will receive handsomely engraved certificates signed by the Governor.

Three hundred thousand enrollment cards are now being printed, and shortly each North Carolina farm family will receive one of these cards, together with a letter of explanation, from their county farm and home agents. There is

nothing compulsory or binding about signing the cards. It merely is a statement of the intention of the farm family to aid in the National Defense Program.

The main rivalry, in so far as trans-Atlantic air routes are concerned, involves acquisition of government funds to subsidize the enterprise. Churchill signs bases' pact; hopes it is Hitler's death warrant.

Attics Of Your Home May Be Of Great Use

If all the unfinished attics in America were remodeled this spring, it has been estimated that millions of square feet of extra living space would be added to thousands of homes.

Not only would extra rooms become available, but hundreds of carpenters, electricians, plumbers and other building trade workers would be given employment.

This type of work is eligible for financing under the Modernization Credit plan of the Federal Housing Administration.

DO SOME WHEELS OF A CAR EVER TRAVEL FASTER THAN OTHER WHEELS OF THE SAME CAR?

HOW HOT DOES IT GET IN YOUR MOTOR?

DOES OIL EVER WEAR OUT?

Answers to Quiz for Drivers

A.—Yes, frequently. In some cases when turning corners sharply, the inside rear wheel is almost stationary. The difference in speeds of rear wheels in normal travel requires the 'differential' on your car.

A.—A temperature of 3,000 degrees Fahrenheit is sometimes reached in the combustion chamber of your car.

A.—Strictly speaking, oil never wears out. However, alien products such as carbon, soot, sludge, varnish, water, unburned fuel, tiny bits of metal scuffed off, acid caused by oxidation of parts of the oil, and other foreign substances contaminate the oil and prevent it from properly fulfilling its lubrication job.
