

EAGLES

(Continued from page 6)

Collough and raced fifty yards for the second touchdown and for the longest run of the evening. Gaines drop-kicked for the extra point.

Coach W. F. Burghardt of N. C. State sent a host of new men into the game at this point including Lightner who added on yard after yard for the Eagles with his superb running and passing.

Johnny Soldier Will Be Well Fed During Maneuvers

Fort Jackson, S. C.—If mothers are worrying about how well Johnny will be fed during the two months he will be in the field on maneuvers this Fall they can stop right now.

Most troops of the 30th Division, with men from the Carolina, Georgia and Tennessee, are equipped with large, gasoline burning field ranges that will be set on trucks and carried up to the fighting areas.

Three ranges will supply approximately 200 men. Large field bakeries will be established in the rear for bread making. The bread will have a thick, hard crust but soft center, and will stay fresh nearly 2 weeks.

Negro Flyer Says Russians Match For Nazis In The Air

The Luftwaffe has met its match in Russia's air force, with more than 31,000 sturdy, well-built fighting planes, declares James L. H. Peck, famous Negro war flyer and observ-

Hampton Hopes

on Pirate teams in the past to wear their letters at all games this season. Hundreds of oldsters who were C. I. A. A. immortals as far back as the turn of the century are dusting out a big "H" and getting ready to cheer Hampton on to a spectacular season.

The Varsity Club has elected William F. Grice, Jr., of Kinston, N. C., regular end on the squad, as its president and Joseph B. Williams, of Annapolis, Md., halfback, vice-president. J. Cuthrell Payton of Norfolk, Va., halfback, was elected secretary and John T. Brown of Winna-

er, in an exclusive article in the October issue of the well-informed Flying and Popular Aviation magazine.

"It may well turn out that Stalin's ace is his great reserve strength of capable pilots." So, Peck predicts, adding that, contrary to recent reports, there is no shortage of neither ground personnel or aircraft factory workers.

"After having met both Germans and Italians in combat, I would rather take on either than do battle with a Red pilot," asserts the American flyer, who piloted Russian ships while serving with the Republican air force during the Spanish Civil War. A resident of Jumel Hall, 421 West 162nd Street, New York City, the 27-year-old Negro military aviation expert is the author of several books, including Armies and So You're Going To Fly.

The Reds have three new fighters in service that compare most favorably with the best Nazi combat planes, he reveals—the 1-21, two-seater monoplane with two 1,300 h. p. engines and speed of over 400 m. p. m., carrying two 20 mm. cannon and six machine guns, and the 1-18, single-seater monoplane with 1,250 h. p. engine and speed of 340 m. p. h., armed with one 20 mm. cannon and six machine guns.

"Research is responsible for the manner in which a fundamental agricultural nation has come to produce fine airplanes in quality and quantity," Peck explains. "The Soviet system has been to modify foreign designs or copy them outright rather than to develop their own planes and engines, although there are few domestic products."

American planes or modifications form a large part of the Red air army, he discloses in the featured Flying and Popular Aviation article. Vultee attack planes and a Russian modification of a Vultee are used as dive bombers; a somewhat smaller adaptation of a Douglas DC-3 is used as a bomber, and the back-

bone of the Independent Bombing Force are the heavy bombers, one of them "an accurate modification" of our four-engine Flying Fortress and another a cross between the Douglas B-18 and Martin "106," with two gun turrets, great range and fair speed.

"The procurement of personnel to fly these airplanes does not appear to be much of a problem," states Peck, explaining that gliding and parachute associations, part of the Osaviakhin (Society for Cooperation in Defense and Aviation-Chemical Development) teach boys and girls the rudiments of flying, supplying 90 per cent of the Red air force personnel (in 1938). A 150,000-pilot training program was launched in December, 1936, and the goal was reported attained by the spring of 1938. An equal number probably have been turned out since.

The Red air force, a semi-autonomous body, is divided into 16 military districts, corresponding roughly to the Soviet republics or states, Peck reports. Each district has a commander and, immediately subordinate, a district chief of air force. The Independent Bombing Force—similar to our Combat Command—consists of "a huge and highly mobile striking force of heavy, medium and dive bombers complemented by a fighter force and reconnaissance."

QUIZ FOR DRIVERS

Answers to Quiz for Drivers

A.—There are many claimants to this honor but the most valid claim seems to be that of St. Louis where a station was operated in 1895; until then gasoline was sold only at stores and garages. A.—A survey revealed that upwards of \$200,000,000 is the motorists' annual refreshment bill. A.—New York leads the nation with 5,494 miles of streets; but Los Angeles with 4,974 miles is a close second.

Bertie County Man To Die Fri.

RALEIGH, (CP)—The State Supreme Court Wednesday dismissed the appeal of George Peel of Bertie county, convicted of murdering E. W. Gray in a store hold-up last February and he is scheduled to die in State gas chamber October 11.

The court dismissed the case after it found no error in the Bertie court procedure and it was discovered that Peel had not filed notice of appeal.

Peel was tried before Judge J. Parker in the February term of the Superior Court of Bertie County and following a verdict of guilty of murder in the first degree judgement of the death penalty of saphyxiation as provided by law was entered against him. The defendant excepted and appealed.

Peel had been permitted to appeal the case, the Supreme Court decision said, but he failed to file a brief and Attorney General Harry McMullan moved to dismiss the case.

As is the custom with the high court in cases involving the death penalty, before acting on the motion of the attorney general the record of the case was carefully examined, the decision said, but no material defects could be found.

In considering the exceptions appearing in the case on appeal the court said it was found that the rights of the defendant were carefully safeguarded by the trial judge, and therefore the motion to dismiss the case was allowed.

REA Borrowers Pay Back In Advance

Fifty-five REA systems in 20 States repair \$291,279.93 to the Federal Government in July and August before it was due, Harry Slattery, Administrator of Rural Electrification, announced today. These pre-payments are in addition to the regular payments of interest and amortization payable by the REA systems in accordance with their loan contracts. Moreover, they are in addition to substantial purchases of Government bonds, especially defense bonds, made in accordance with recommendations from REA. (At the end of the last reporting period, on June 30, 42 borrowers had

bought \$230,759 in defense bonds and 36 others had indicated their intention of buying bonds worth \$161,000.)

Indiana borrowers led in the pre-payments for two months, 9 of them remitting a total of \$59,734.66.

Three borrowers in North Carolina repaid \$11,500.

Durham Found Not Guilty of Violating Compensation Law

Raleigh, N. C., Oct. 2.—A Durham contractor, C. A. Herin, was found guilty of violating the provisions of the State Unemployment Compensation Law in three counts before County Recorder A. H. Borland last week. Prayer for judgment was continued on condition that the defendant pay court costs, file all reports required and pay any taxes due to the Unemployment Compensation Commission.

The three counts included the failure to keep accurate records of names, wages paid and periods of employment of his workers; making false representations in reporting no operations for certain months, failure to make proper reports and pay unemployment contributions on his payroll in 1940; making false statements and failing to report earnings of one employee for three-quarters in 1939.

Five Douglas Attack Bombers Visit N. Y. Flown by Norsk

Five Douglas attack bombers of the Royal Norwegian Air Force visited New York Friday, piloted by ten Norwegian flyers from "Little Norway," the N.N. A. F. training center near Toronto, Canada. The planes were on a training and good-will air flight which begins Thursday, when they will fly from Toronto to Bolling Field, Washington.

Treat Hamburgers To Lavish Flavoring

Practically everyone likes hamburgers, but dressed up, treated to an imaginative twist, they can be made even more appetizing.

If hamburgers mean only meat cakes to you, here are some recipes, prepared by Charlotte Scripture and appearing in the October Good Housekeeping magazine, that will prove an eye opener to you. They are lavish with flavor, but easy to prepare.

HAMBURGERS DIABLO

1 1/2 lb. ground round or chuck beef
1 c. evaporated milk
1 tsp. minced onion
1 clove garlic, minced
2 tsp. minced parsley
2 tsp. salt
1/4 tsp. pepper
6 thin tomato slices
6 thin slices American cheese

Blend together first 7 ingredients; shape into 6 patties and place in shallow baking pan. Bake in moderately hot oven of 400° F. for 30 min. Lay a slice of tomato, then a slice of cheese on top of each patty, and continue baking for 10 min. longer. Serves 4 to 6.

QUICK-SEARED HAMBURGERS

1 tsp. butter or margarine
1 tsp. salad oil
1 1/2 lb. ground chuck or round beef
2 tsp. softened butter or margarine
Salt
Pepper

Combine butter and oil in large skillet, and heat slowly until fat begins to smoke. Shape beef into 6 patties about 1/2" thick. Quickly brown 3 or 4 patties at a time on 1 side; turn, and brown other side. (This takes about 2 to 2 1/2 min. on each side.) Remove to hot platter; spread surface of each with 1 tsp. of the softened butter, and sprinkle with salt and pepper. Serves 4 to 6.

Badge of Honor Designates The Quartermaster Corps

A badge of honor and one, designed to symbolize the Quartermaster Corps, a wheel bearing

For Lawn Seeding

The greatest cause of lawn failure is not the kind of seed sown but the poor fertility or wrong fertility and physical condition of the soil. If the seed bed is poor and especially if it is lacking in humus, a crop of peas or beans should be grown and turned under to improve fertility of the soil.

Unless the land is very fertile a one-to-two-inch layer of well-rotted manure should be worked into the soil.

Where top soil has eroded, it should be replaced, the humus will collect and hold moisture in hot dry summers. To stimulate quick growth, from 500 to 600 pounds per acre of some commercial fertilizer should be added.

September and October are the better months for sowing.

The public is generally getting the idea that there are too many useless strikes and if the idea sticks, it will be too bad for labor.

You Too Can Have Beautiful Hair

LET THE NU-HAIR BESEGO FORMULA HELP YOU AS IT HAS HELPED THOUSANDS OF OTHERS!

How You Can Grow Long, Healthy Hair
Certain parts of the body grow to a certain size and no further, whereas, Hair Grows always if you keep your scalp healthy. An itching scalp causes itching. When you scratch your scalp you make sores and scars.

HAIR WILL NOT GROW FROM A SCAR
There are no sweat glands in sores or scars. The body is given power by nature to make certain outgrowths of skin which we all know very well. Hair is produced by our scalp skin. Each Hair Grows from a special little place in the true skin. If you destroy or mutilate this true skin you may feel all right, but nothing will ever form another true skin.

A scar is not skin. You will never find a hair growing from a scar or sore. Hair grows from the cells of the hair bulbs. If you do not look after these hair bulbs, hair will become brittle and break off. There are two glands to each hair to produce oil that keeps it soft and pliable, keeps it from becoming dry and cracking. Every hair has a muscle which is attached to the root. In order to have attractive, healthy hair, you must help nature Grow Hair by keeping your scalp in good condition. Keep it clean, soft and eliminate itching and dandruff.

If you are suffering with head sores or scars do not delay taking our complete treatment or you will lose your hair. To keep your hair cells working properly and guarantee yourself a healthy, beautiful head of long growing hair, give yourself a complete Nu-Hair Treatment.

Complete Nu-Hair Scalp Treatment consists of:
Nu-Hair Besego Formula
Nu-Hair Pressing Compound
Nu-Hair Special Shampoo
