

How To Get A Job
Reliable Information
JOB COUNSELOR
Dr. A. M. Donald

You get out of this world exactly what you put into it. "No more, no less." You should not go into any field of advancement until you have something to put into it. And the most important thing that you can put into any field of advancement is a Thorough Knowledge of the Field.

Knowledge, alone, however is not power. As Napoleon Hills says, "it is only potential power." It only becomes power when it is organized along definite channels directed to a definite end. To-day is the day of Specialists—The day of Experts. To-day the world demands, Competent, Efficient, Trained men and women. No matter how much you know, you can only win success To-day, when your knowledge is directed to a definite end for a Definite Major Purpose.

Would you knowingly employ a physician, dentist, architect, or an engineer until he has first obtained Thorough Knowledge in his respective lines of work? Yet some people think that they can make a success in life without the fundamental facts of success. Such people soon find out their mistakes. Starting without the Training — The Information — The Knowledge — directed to a definite goal to achieve success, they flounder about in the dark "bumping their heads," making expensive mistakes that sooner or later discourage or dishearten them.

Success does not always come to the one who works the hardest but to the one who directs his Knowledge to a Definite End. Success is not entirely the result of Effort, but the Definitely Train-

Knowledge. Not merely the Active person, but the Definitely Trained Person is the one who wins. Do you want to be a Winner?

as part of a consolidation plan which would eliminate several small school buildings. The first building was also set on fire and totally destroyed, but was rebuilt on the same spot and is now serving the northern part of the county.

According to County Superintendent Luther H. Barbour 80 per cent of the cost of the building was covered by insurance, and whether the building would be rebuilt in the same place would not be determined until a meeting of the County Board of Education next Monday.

Parker-

leader. Those close to Mr. Parker feel that he has been grossly mistreated in this unwarranted attack and that his answer will make certain revelations about those who have sought to discredit his appointment, will be history making in the annals of staid Gate City society.

Reflecting the sentiment of the citizens of Greensboro as a whole, we as older citizens of Greensboro and vicinity deeply deplore the program put on recently in our city.

We hold in high esteem Tau Omega Chapter of the Omega Psi Fraternity and would certainly want to encourage any effort on their part to cite the worthy achievement of any individual or individuals, but in a Democracy the privilege of choice is in the hands of the people, and we therefore deny the right of any fraternity or any group not representing the citizens of Greensboro as a whole to elect a first citizen without the vote of a representative group of all the citizens.

The choice of Mr. Harry K. Parker, however worthy, is not, in our judgment, the choice of the people of Greensboro for such a signal honor. We do not feel that it is within the province of any one organization to make this selection.

Be it therefore resolved by this group representing the religious, professional, industrial, and educational groups among the people whose services in this vicinity vary from fifteen to forty years, that we do not recognize this citation and we do not approve the procedure so far as recognized first citizenship is concerned.

More than 10,000,000 who received between \$3,000 and \$5,000, and not many of these were Negroes.

"We discovered that approximately 9,350,000 were receiving from \$2,000 and \$3,000, and Negroes formed a very insignificant proportion of those. Then between 44,000,000 and 45,000,000 were found to be earning between \$1,500 and \$2,000, but most of them were not Negroes. We discovered 28,000,000 drawing between \$1,000 and \$15,000, but even they were not in the Negro's category. More than 16,000,000 of our Citizens drew incomes between \$500 and \$1,000, and less than half of them were Negroes; and finally we found 8,250,000 living below the \$500 level, and nearly all of them WERE Negroes.

AME'S TO MEET

"Wings" Speaker

Cleveland. — (ANP) — As a recognition of his service to America as one of the foremost exponents of interracial good-will and understanding, the Rev. Glenn T. Settle, director and founder of "Wings Over Jordan," Cleveland's famous spiritual choir of radio and concert fame, will be publicly honored by the National Negro Insurance association on Sunday, Nov. 30, during the CBS broadcast of the chorus, 10:30—11:00 A. M.

The basis for the award to Rev. Settle and to Wings Over Jordan is the contribution which this organization is making in bringing about a better national appreciation of the cultural development and aspirations of the Negro, through the presentation of outstanding speakers on topics of interracial interest on its regular Sunday morning programs, and for the greater understanding of Negro music, as arranged by Worth Kramer.

The group was founded four years ago by Rev. Settle, pastor of Gethsemane Baptist church in Cleveland. With the aid of Worth Kramer, former program director of WGAR in Cleveland, and who now conducts and arrange all their music, the chorus has risen to national prominence in the radio and concert field, and will in January celebrate its fourth anniversary as a sustaining coast-to-coast feature of the Columbia Broadcasting system. In addition, they have presented over 300 good-will concerts in cities from the Atlantic to the Pacific coast involving 41 of the 48 states.

The award will be presented to Dr. Settle by Clarence L. Towns, secretary of the insurance association, who will represent the two and a quarter million policyholders of the association. The broadcast will originate from the CBS studios of WGAR in Cleveland.
