ENLARGEMENT OF PRESIDENT'S COMMITTEE FAIR EMPLOYMENT MEETS MUCH OPPOSITION

BY A. E. WHITE

By Associated Negro Press Washington - Settling the moot question of who is to be the Negro "top man" once and for all, the proposed enlargement of the President's Committee on Fair Employment Practice, which is being widely discussed in certain circles here, hardly meets the 190 per cent approval of certain men who have heretofore, been regarded as "close to the President,"

Opponents to this plan, of whom there were plenty, quickly countered in another manner, and according to general reports, submitted through various means the name of Charles Houston to the White House, asking that Mr. Houston be named as an executive secretary at the White House and the Negro group in America.

New York - "We greatly fear that soldiers do not slough all previous prejudices when they don their uniforms," the NAACP told Secretary of War Henry L. Stimson last week, in reply to his statement that no lecture courses were needed to insure respectful treatment of colored soldiers by white soldiers.

The Association sai dit is convinced that the attahment of democracy during and after the war "depends on teaching those who are fighting the war that the four freedoms enunciated by President Roosevelt must apply to all people of all races, creeds and colors."
