Professor Edwards Principal Whitted School Succumbs

Prof. Gaston Alonza Edwards, beloved principal of Whitted elementary school and former president of Kittrell College, died suddenly here Tuesday morning of a heart attack. Although Prof. Edwards had been in declining health for the past several years, he was not considered seriously ill and had been about his duties as principal of his school, the day before his death.

Possibly the most beloved principal of the entire school system of Durham, Prof. Edwards had endeared himself to the community to such an extent that the announcement of his death came as a distinct blow to his many friends and acquaintances.

In speaking of his passing, C. C. Spaulding, president of the North Carolina Mutual Life Insurance Company and the Mechanics and Farmers Bank, had the following to say: "When Prof. Edwards came to Durham several years ago, he immediately fell in line with our various business institutions here by investing his money in them. He was a member of the Board of Directors of the Mechanics and Farmers Bank, the Southern Fidelity Mutual Insurance Company and the Bankers Fire Insurance Company. His wise counsel, cooperative spirit and even temperament at all times and under all circumstances made him a most important asset to every business with which he was connected here. He will be greatly missed."

Prof. Edwards was born at Belvoir, N. C., on April 12, 1875, the son of William G. and Mrs. Mary E. Edwards. He was married to Miss Catherine Ruth Norris, September 1, 1909. The deceased was a graduate of A and T College with a degree of B. S. an M. S., Cornell University in 1909. For a long number of years he was a member of the faculty of Shaw University, but resigned that position in 1917 to accept a position as president of Kittrell College.

TALLADEGA, Ala. — A committee from the board of trustees of Talladega college has been named to select new president to succeed Buell D. Gallagher who has resigned to accept a position as professor of social ethics in the Pacific School of Religion in California.

The announcement of Dr. Gallagher that he would not longer be at Talladega came as a shock to the student body as they arrived Monday for the opening day of school. Dr. Gallagher, familiarly known as "prexy," has been well nigh idolized by the students here. In explaining his leave talking at the first chapel exercise, Dr. Gallagher said that his primary interest is in putting the Christian religion to work in life as it exists today. For the past 10 years all of his efforts have been concentrated on race, as explained. Now, he said, an opportunity has come which will permit him to express himself on all fronts and
