#### CHRISTMAS IN NAME ONLY

Today is Christmas in name only. The spirit of the are returning wounded from occasion has been blasted from the far of the earth by the battle fronts say it is a men drunk with might and power, by m 1 who after near sordid and bloody business ly two thousand years of hearing the cotrine of "Peace this business of subduing Geron Earth and Goodwill" preached, are sill trying to defy mans and Japanese. In recent Him who was its author. Thus instead if the true Christ- news accounts it was said that mas spirit men are bleeding and dying, women and chil- not only were the Japanese dren are being murdered and the tramp of marching armies are heard throughout the world.

Here in America hundreds of thousands of churches doing it "Brilliantly." have been erected on practically every hillside and in every valley, with their spires pointing upward while man- our people realize that in the kind continues to look downward where hatred, revenge, Japanese they have in ememy deceit, envy, malice and what-not abound. For nearly two thousand years the songs of Zion have been sung, the prayers of the saints have been uttered and the gospel has been preached to men with no avail.

Here in our own country factories, mines, railroads and | belittle the Japs instead of all known devices are being used to manufacture more fighting them with respect for engines of destruction with the hope that puny men may their military prowess, "Superbe able to establish a permanent peace with the sword, ior fellings" are strictly limit-The futility of it all, when closely studied, stamps man ed when Japanese are our lower than the most ravenous beast, in this conquest of blood.

So we shall sing our Christmas carols, our church bells will ring and music will be played in an attempt to drown the blasts of war guns and make ourselves believe that dened with war activities, we we actually are disciples of the doctrine of "Peace on could well sit down and count Earth and Goodwill toward men."

We refuse to whistle in the dark, we refuse to indulge in the hypocrisy of our time and on this Christmas day dedicate these columns anew to fighting hatred, revenge, deceit, malice and the rest of the hellish traits of men, that the Babe of Bethlehem may be born again in the hearts of those who refuse to accept His doctrine which the cost. With great advantage taught "As ye would that men do to you, do ye even so could we ponder on the way of to them."

### ABUSE OF POWER

The attempt of the principal of Hillside High School to coerce the members of his faculty into voting their approval which, he the principal, wrote endorsing the superintendent of the Durham City Schools, does not have the war is the first world war of institutions of various kinds sanction of the thinking Negro citizens of this city. The racism. World War I was a undermisleading names and move itself was uncalled for and carries with it the abuse war of imperialism; World titles. But if the Negro citizen of executive power, the final reaction of which will abound War II is the first world war with damage to the cause of the principal as well as the of rasism. The notion of race

The unfortunate predicament in which the superintendent of the city schools and the Board of Education find themselves today was brought about solely by the asinine methods of them both, and not by any action on It has been flying around and the best minds, the best prothe part of Negro teachers, citizens or pupils attending lying around these many years ple and some of the most powthe city schools. The whole affair is by act and deed one of the opposite group and should be allowed to remain within the confines of that group.

Durham is no place for Negro stool-pigeons and any the notion prevailed in its most respect the Negro and who are man who practices that pernicious art within the borders of this city or county is certain to reap the grave consequences. The principal of Hillside High School has moved once too often in the wrong direction, and so far as intelligent Negroes of this city are concerned, his usefulness in these parts has reach its bitter end. We think the principal of Hillside High School should resign.

There was a time when a Negro holding such a position had only his white constituency to satisfy to hold his job, regardless of his attitude toward the community or malfeasance in office. Times have changed and with it have come about changes in the attitude of Negro patrons of schools and citizens in general. A person holding a position that carries with it the responsibility of shaping the destiny of Negro youths should of necessity It is safe to say that hereafter spread two-page ad carried the look to his Negro constituency, as well, for assistance and advice on how to deal with certain problems that are sure to arise within his school from time to time.

The coercion used on the Negro pupils of Hillside High School by the school board and the principal in forcing them to sign the pledge cards that did not concern them, was a wound that might have healed with the passing of time. This last and foolish act of the principal, perpetrated against his faculty and which he insisted that they not divulge, had no stamp of approval of that faculty, as of men. Egen if we longed as fic. was evidenced by the readiness with which they promiscuously told it to those they thought might bring an end to the Hitleristic methods under which they have been forced to work at the school.
