

THE SUPREME COURT DECISIONS

Several months ago we said in these columns that they are wrong who say that truth is forever on the scaffold and wrong is forever on the throne...

philosophy that the color of one's skin is the only badge necessary for acceptance into full citizenship.

In Texas the verdict of the Supreme Court has already been accepted as a matter of fact and Negroes are being admitted to the graduate school...

Here in North Carolina, in spite of those who think to the contrary, there are also enough sensible, down-to-earth persons in both races to conform to the demands of the Supreme Court...

With malice toward none; With charity for all; With firmness in the right As God gives us to see the right, Let us strive on to finish the work we are in.

—Abraham Lincoln

THE BIG IDEA IN GREENVILLE, SOUTH CAROLINA

From Greenville, South Carolina, where Willie Earl was lynched backed in February 1947 and the State followed by acquitting the confessed lynchers...

The Negroes, we are afraid that the work being done in Greenville will be to little or no avail. In most instances lynchings and other racial conflicts are committed by poor and ignorant whites...

After all it was the poor white element that lynched Willie Earl, as it is usually the poor whites who are responsible for most of the offenses against Negroes...

We think the motive behind the Greenville effort is a splendid one, but we would also like to see an investigation made of the poor white element to ascertain just why they have such a belligerent attitude toward Negroes.

FEPC: A TRUE TEST OF DEMOCRATIC INCLINATIONS

Current figures released by several statisticians point up anew the problem of unemployment in this country. Although most of all the figures released agree that employment is at a new high...

At this juncture. Another solution, although synthetic, consists in the reactivation of the draft so that some of the labor force could be absorbed by the armed forces.

Looked at in any light, the unemployment situation is, needless to say, most distressing for Negroes. The Negro, always the marginal man in the economic structure...

Spiritual Insight

By REV. HAROLD ROLAND Pastor, Mount Gilead Baptist Church

"SLEEK CONTENTMENT"

"Woe to them that are at ease in Zion." Amos 6:1. Sleek contentment is one of life's perilous pitfalls. Amos recognized this in his dramatic warning to Israel.

ment is that we grow fat and lazy. It saps our ambition, character and takes the power out of our punch. Sleek contentment makes us a prisoner of decay.

in the harbor where there were one hundred shrimping vessels. There around the wharf the food was obtained with ease. No longer did they fish.

There are dangers in too much security. Israel had come to this danger point. We as a nation are almost at this critical, pivotal point in our history.

Sleek contentment is the beginning of death. The life process itself is a continuous struggle between the vital and decadent in the organism.

Among our people we are beginning to witness the grim and tragic perils of sleek contentment. We want too much ease and comfort.

Liberia On Road To Self-Sufficiency Of Food Supply; U. S. Aids Effort

Largely as a result of farm demonstration work now being carried out by the Republic of Liberia with the cooperation of the U. S. Economic Mission...

marketed, as compared with only 50 tons in 1948. Through the adoption of improved farming methods coupled with the introduction of foreign strains of plants and animals...

Mission's agricultural production program, is providing a large part of the technical direction for Liberia's demonstration work. He is assisted by Lamar Fort, and a staff of Liberian agriculturists whom he has trained in demonstration methods.

NEW YORK CITY Since a 10 day vacation to Bermuda is now less expensive than Miami, Mexico or any of the other famed holiday havens...

tourist trade in Bermuda will be the means of strengthening our economy, of providing more and greater opportunities for ourselves and our children...

HOLLYWOOD IN BRONZE

By Ruby Berkley Goodwin

It will be old home week in Europe this summer what with Lena Horne, the Eddie "Rochester" Andersons and the Paul Williams family doing the continent.

folk as well as the urban people in the countries she will visit.

Meanwhile her agents are waiting the shake of her head or a nod as to whether she will do the musical George Jessel has lined up for her at 20th Century Fox.

While the Paul Williams' are going to do the continent in a leisurely way, the show people are combining business with pleasure.

The Dust, "The Reckless Moment," "The Jackie Robinson Story," "No Way Out" and "The Breaking Point," Hollywood shouldn't be afraid to let la Horne try her wings.

Rochester and Mamie will spend a week in Paris before the Benny troupe opens in London. They will fly across the channel so that they can spend the entire week seeing the sights.

It is estimated that "Pinky" will gross over \$400,000,000 in U. S. box office alone. Never again can Hollywood come up with the lame excuse that serious pictures with a Negro theme don't pay.

Before Mamie sails, she will be surprised by a short visit from Millie Bruce, her cute little sister, who in winning a place for herself in television. Millie is as excited as a sixteen year old with her first formal.

Don't get too alarmed about Dotty Dandridge's recent illness. She was singing and dancing at Larry Potter's Supper Club until the wee small hours and working with Rochester doing the radio test for his own show by day.

That Horne girl has figured out the type of vacation we all dream about. Lena will work two weeks then loaf two weeks. She will visit London, Paris, Milan, Oslo, Edinburgh, Lucerne and a hundred out of the way places to get a glimpse of the peasant

NCC Prof. To Make Trip Around Globe

Dr. Harry E. Groves, instructor in North Carolina College's Law School is one of the 51 persons selected by Virginia Union University for its Round the World Study Project.

ENGLISH DON'T UNDERSTAND OUR BASEBALL

New York City (CNS) — A ruffled Dodger fan had a heck of a time explaining Jackie Robinson's 'miracle plays' to an untrained Englishman this week out at Ebbets Field.

The group will leave Richmond, Va., by plane June 25. The itinerary includes Hawaii, Japan, Formosa, the Philippines, Thailand, Burma, India, Pakistan, Arabia, Ethiopia, the Sudan, Egypt, Israel, Greece, Italy, France, Belgium, England and Canada.

Rome — Duke Ellington's arranger, Billy Strayhorn, here with the band, was granted an audience with the Pope last week. Strayhorn, in a subsequent transatlantic phone call to friends in New York, described the event as "the one thrill in my lifetime which will never be equalled."

ISN'T THERE ANY END TO THIS?

The output of cassava, Liberia's second most important food crop, has increased by an estimated 50,000 tons since 1947. Last year production stood at about 460,000 tons. Cassava is a tuberous starch root product that is best known in the United States as tapioca.
