6th Grades Of Lyon Park School Make Education Tour Of City Businesses

The sixth grades of the Lyon Park School made their first educational tour on November 16th. Our first visit was to the North Carolina Mutual Life Insurance Company. There we were led through all the various departments of this magnificent institution by two of the Mutual's expert guides, Misses Julia Spencer and Virginia Southerland. We listened to a speech by the firm's president, C. C. Spaulding. We were also given explanations by the guides and heads of all departments.

We also visited the Mechanics and Farmers Bank. We were amazed and surprised at the size of the big money vault. On our departure we went by the information clerk's desk and received many useful souvenirs.

Our next visit was to the United States Postoffice. Mr. Bowles acted as our guide and explained to us in detail every minute operation of how mail is handled and delivered to its destination. We thanked Mr. Bowles for the valuable information concerning mail service.

We then journeyed on to the Service Printing Company, where Miss Morrison acted as our guide, explaining the complicated work of the various printing machines. We were grateful to her for the helpful explanations and illustrations.

Our last visit was made at the Stanford L. Warren Library. Here we were introduced to many new books in "Key Corner," the children's library. Mrs. Hugley, the librarian gave us some useful book markers. Miss Tucker led us to the auditorium, and told us a beautiful story. After the story, she played a record for us on the origin of Book Week.

We thanked the library staff

and left for school. When we arrived we were tired but wiser.

The following pupils made the trip with their teachers, Miss R. B. Grisson and A. M. Coward:

Robert Brown, Charlie Burt, Bishop Council, Charles Dunham, James Green, Clyde Hargraves, Thurl Isley, Arthur James, George Purefoy, Ellis Smith, Claren Walker, Louis Williams, James Yarborough, Willa Adams, Mary Alice Brandon.

NCC Gridders Name Ernest Warlick Captain

Ernest Warlick, NCC's top offensive end, was named to captain the 1951 North Carolina College football team and Sophomore tackle Robert Mason received the nod for the "Most Valuable Player" award in selections held here last week by the Eagle gridders.

William Coward, sophomore quarterback, was given special recognition by his teammates in the election. The Washington, D. C. native was cited for "contributing most to the overall development of the varsity squad."

Warlick, 235 pound junior from Hickory, led Eagle flankers in offense this season. He caught a total of 22 passes for 379 yards and six touchdowns.

The six feet, three inch, 19 year-old Physical Education major is a two-sport letterman. After the gridiron season is over, "Hands", as he was dubbed by his NCC teammates as a freshman, turns his attention to the hardwood where he has starred for the past two seasons, with coach J. B. McLendon's eagles. He has been a member of the starting five for the past two seasons and was the second highest scorer last season, racking up 296 points in 21 games.

Fisk Univ. Bulldogs To Open Season Against Talladega

Nashville, Tenn. — The Bulldogs of Fisk University open their basketball season Saturday night at 8 o'clock when they clash with Talladega College in the new Fisk Gymnasium.

Bolstered by the return of 5 lettermen, Herbert Collier, Fred Bland, James Harvey, Robert Matthews and William Smith, the Fiskites have displayed in practice a bite that may equal the bark of the basketball hungry student body.

The Bulldogs have been working out daily since early November, and have recently begun bi-weekly scrimmages against outside competition to sharpen their team play.

The new basketball coach, H. B. "Bus" Thompson, begins his career at the University with hopes of building a basketball dynasty at Fisk. He comes to Fisk fresh from a Morris Brown team which he coached to two consecutive SIAC championships in 1949 and 1950, and in 1949 was number two team in the national ratings.

"I'm glad to see these five letter men returning to form, they'll help plenty," Coach Thompson said. "They give the new men the confidence they need. This team will be alright."

TB X-Rays Urged By Local Ass'n.

Tuberculosis is the most formidable of the infectious diseases. It kills over 40,000 Americans a year and is responsible for the deaths of more people between 15 and 35 than any other disease.

When the National Tuberculosis Association was organized in 1904 the death rate was 188 per 100,000 people. It's now approximately 30 per 100,000 — decrease of 85 per cent. If the death rate had continued at the rate it was in 1904, nearly 5,000,000 more people would have died of tuberculosis than actually have.

Of the money raised in Durham County, 80 per cent is kept here to carry on a year around program of health education, case finding and rehabilitation. Fourteen percent goes to the State Association and 6 per cent to the National Association, the latter to aid over 20 scientific studies on tuberculosis.

Durham County death rate (per 100,000):
 1929 132.9
 1939 76.0
 1949 31.0

Parisians Gone On Sugar's Performance

PARIS — Through French fight fans, who put their famous middleweight, Jean Stook, on the spot to get Ray Robinson to come to Paris to fight were overjoyed at the brilliant performance Sugar Ray showed, they were reared back in their seats expecting an exciting fiasco, Ray stopped Jean in 2:33 of the second round. The ten round fight was a non-title one.

Stook, however made a poor showing. He was downed three times in the second round and was downed on his feet at the finish. The referee stopped the match.

Ray is reportedly so confident over the easy fight, he has slackened in training. Instead he's spending the time touring nightclubs and seeing sights. He's weighing 156 pounds, about 5 pounds in excess to his usual weight.

The survey made by the local TB Association at North Carolina College in September. There were 1,100 free chest X-rays made of students and faculty. Last year, our X-ray unit took 28,000 free chest X-rays. This unit is available at all times for free X-rays in the Health Department Building. Everyone should have an X-ray once a year.
