It Can Be Done-Guilford County Farmer Gets Dr. R. P. Daniel Much Out Of Small Acreage

Farmers with small acrethe experience of Mr. and structed an excellent storage Mrs. W. T. Bigelow, Guilford
County who have gone a long County, who have gone a long way towards finding a solu-tion to the small farm prob-

Recent studies in the coun ty reveal that the average Ne-gro farm is just a little more than 42 acres, but the Bige-lows have only 21 acres, less than one-half of the county average. Leading farm eco-nomists maintain that a farm of less than 200 acres is like ly to be unprofitable under modern agricultural standards.

termination, have refused to face defeat with their space limita-tion. They have taken what they have to get the most out of it They have not only made a liv-ing out of the small farm for themselves and nine children but one has completed college, two others have entered. Their children are their greatest joy "We want to give them opportunity to succeed," they say.

Careful planning and manage occupied by their modest home one or two out-buildings and small yards, back and front, about every foot of the land is put to productive use. Several of the acres have been used to produce as many as three crops per

they all had to hustle to accomplish what many would call im-possible. They worked out a system of farming and arrived at a list of crops which would fit their

He reduced his workstock to one able animal which allowed a reduction in feed cost, labo and space necessary for the ani-mal. He turned his emphasis to truck crops rather than general farming, concentrating on small crops for market and home use

These included: sweet potaes, strawberries, peaches, corn,

his potatoes on the "high marages may get lot of hope from ket," the Bigelows have con-

> quirements, Bigelow follows clean cultivation practices. One such example is that he seeds his tobacco bed with a hay crop for the future which also keeps weeds under control. Just as he harvests the talls crops, between row crops are well on the way to development.

The Bigelows follow the practice of sharing the crop returns, over prodution costs, with family members.

Here is how the Bigelows

used their 21-acres during the past year: corn, 6; tobacco, 2.9; wheat, 2; lespedzea, 2; water-

credit for his success for the splendid cooperation he has re-ceived from; Mr. and Mrs. W. A. Goldsborough, local teachers of Vocational Agriculture and ment have been the secret of Home Economics, respectively; their success, in spite of these Mrs. Rosa T. Winchester, home their success, in spite of these almost insurmountable odds. With the exception of the space both, with the N. C. Extension Service.

Other Papers

(Continued from Page Two) of the kind of policeman no town ever neds. He also serves as a warning to any towns which have policemen with records for killing and lawbreak-ing. Such men may seem to be protecting the towns from rough elements. They remain a threat to all decent people and law-abiding people, too. would be safer to keep a rattlesnake in the city hall.
