(Continued from Page One) terror. The moving of the Johnson family prompted the statement by the other Negro tenants. In another action this week, the Chicago NAACP branch protested the demotion and subsequent dismissal of Miss Elizabeth Wood from her position as executive secretary of the Chicago Housing Authority. The NAACP unit questioned whether Miss Wood was dismissed from her job because of her stand for racial integration in Chicago Housing Authority projects. An NAACP delegation which called on Mayor Kennelly and Chicago Housing Coordinator James Downes to ask for an investigation into the dismissal of Miss Wood also charged the Chicago Housing Authority with not building sufficient public housing, continuing "white only" projects, and vacillating about the lawless violence against Negro families at Trumbull Park Homes.

PROGRESS is everybody's RESPONSIBILITY

There are some who have the idea that the future is of no concern. They feel that anything or everything good comes automatically. They adopt a policy of just "sit and wait."

Unfortunately, that's not the case . . . not even in America, in North Carolina, in Durham.

If we are to hope for progress, we must be willing to be a part of progress. Progress is everybody's responsibility.

Some day, we know—regardless of events—that all the fringe areas of Durham will be a part of the city of Durham. How this will be accomplished we are not sure. But the comfort, health and welfare of the community will eventually demand it.

So why wait? For a few dollars (in a great many cases, for no additional expense) you can make these services available to you now . . . services that will encourage and guarantee the orderly development, growth and progress of your neighborhood.

Will you turn your back on your children, your home, your future? We don't think so . . . not for all the septic tanks in Durham.
