Reconstruction and of the Negro's struggle to regain the ballot. He also pointed out the responsibility of the labor movement in the civil rights crisis.

"Because the racial policies of trade unions are often the decisive factor in determining the employment status of Negro workers in major sectors of the economy," he said, "it is hoped that the national leadership of the AFL-CIO will soon proceed to eliminate anti-Negro practices in the ranks of affiliate unions."

Fats Domino Gets Lotsa Moola Riot Unsolved

San Francisco, Calif. Fats Domino, current singing sensation, leaves this town with his take of \$104,000 gross which was \$16,405, for a 30 day tour of California and neighboring areas. Cited as a clean cut show, promoter Manny Schwartz says there were no incidents on the tour. "It could have been a Sunday School group" he commented. Domino received a guarantee of \$1,000 against 50 per cent for every night of the week.

However, new reports are different. A bloody knife and gun fight in Dallas, Texas, following one of Domino's performances, reported 6 persons stabbed or beaten. The fights occurred when patrons were leaving the auditorium. Police have not determined the cause.

King Blames Ike For Weak C-R Legislation

WASHINGTON, D. C. The weakness of the Civil Rights Bill is being blamed on President Eisenhower's weak stand, according to Rev. Martin Luther King. "If Eisenhower had taken a stronger stand on the bill, no matter how sincere his doubts, the bill would have had a good chance to pass without change. If we don't get a strong positive stand from him on the jury trial amendment, this fight will be lost, too," said King in determined words.

King stated "there is a possibility that the Tuskegee boycott could spread but I don't think so", he added. "Conditions and circumstances must be right for a boycott to succeed."

Rest Key Word For Vacation

CHICAGO Here are some thoughts on late summer vacations:

An employer's and an employee's conception of a vacation differ considerably. The employer emphasizes rest and relaxation for the vacationers. The employee thinks in terms of fun and activity.

Possibly more attention should be given to rest in connection with vacations. Too many people returning to work after their two weeks off sigh wearily and say "I'm glad to get back to the office for a rest."

The annual vacation in the United States has become an actual necessity for health and well-being. But for maximum benefits it should be restful above all.

Rest the mind, rest the eyes, rest the body, is good advice to the late summer and early fall vacationists.

The annual "rest period" should be spent so that you return refreshed rather than fatigued.

Here are some tips on taking vacations for rest and relaxation:

Don't get into a cross-country driving marathon. Realize that you can't see the whole United States in two weeks. Settle for a leisurely sightseeing trip if

you spend the time in travel. Rest the mind with books if you are going to settle down somewhere; if traveling visit historical places on the way. This kind of visiting will take your mind off present-day worries and troubles.

You use your eyes more on vacation than you do normally. They are also subjected to unusual strain. For tired eyes use sun glasses that are most restful. It is also a good idea to carry a bottle of Murine in the car dashboard compartment. Move off the road when you feel tired and take a nap.

Keep the body relaxed by mild exercise. Don't attempt a strenuous athletic program. If you are going to do a lot of walking, do it in easy stages. Unless you are in really good condition and few vacationers are—start your sports activities in mild doses until your muscles are limbered up.

And, finally, remember that the sun will burn the pale city dweller's skin. Use sun tan lotions and don't stay out too long. A sunburn isn't relaxing. Remember, let the word "rest" rule your vacation at all times.
