

Government Equal Job Agency Says Progress Made In Fair Employment

WASHINGTON, D. C. President Eisenhower today made public a "Five Years of Progress" Report on the Equal Job Opportunity Program from the President's Committee on Government Contracts. The period 1953-1958 is covered, with emphasis on 1958, to meet the annual report requirement.

Vice President Nixon, Committee Chairman, called the report "a highly encouraging record of progress in employer recognition of the value of minority group members in responsible positions in American industry."

"Records of important employers in all parts of the country show breakthroughs from the old restrictive patterns of employment," the President is told by the report.

1958 issue of the "Review & Herald" there appeared an article by a Vice President of the General Conference, which contained a lengthy appeal to right the program. As late as October 16, 1958 one of their most prominent evangelists said, "Really isn't it about time we stopped worrying so much about what others think about us and cease our fanciful prophetic interpretations and get back on the old paths?"

As one studies these quotations, one is impressed by the fact that Mr. Miller is pointing his finger or accusation at the wrong people. In conclusion, to those who are looking for the Lord's appearing comes this text, "Hear ye the Word of the Lord, ye that tremble at His Word; your brethren that hated you, that cast you out for my name's sake, said, Let the Lord be glorified; but He shall appear to your joy, and they shall be ashamed." Isa. 63-5.

Many A Truth Spoken In Jest Did it ever occur to you that Gov. Faubus of Arkansas and Almond of Virginia may really want to keep the schools closed? Why? Well it could be they figure it's a sure way to get themselves re-elected for life? If they can keep voters in their states ignorant enough, couldn't that be the result?
