Kyles, left, upon his selection as the only Negro among 15 outstanding college students in North Carolina to work for the state this summer in a program designed to attract highly-qualified persons to careers in state government. A native of Scotland Neck, Robinson, an honor student, will work in the Prisons Department for about 60 days at \$75.00 per week, according to an announcement yesterday from the office of Governor Terry Sanford. Other students selected are from the University of N. C., State College, Woman's College, and East Carolina College.

## Four Texas Oil Companies are Accused of Jobs Discrimination

WASHINGTON — Charging racial discrimination by four Texas oil and chemical companies, the National Association for Advancement of Colored People on Thursday, June 21, filed complaints on behalf of more than 100 workers with the President's Committee on Equal Employment Opportunity.

Named in the complaints submitted by Herbert Hill, NAACP labor secretary, are the Socony Mobil Oil Company refinery at Beaumont, and the Texas I. S. Chemical Company, Goodrich Gulf Chemicals, Inc., and the Neches Butane Products Company, all of Port Neches.

In addition to complaints filed on behalf of 55 Negro employees at the Socony Mobil refinery, Hill filed a complaint in the name of the executive board of the all Negro Local 4-299 of the Oil, Chemical and Atomic Workers' International Union, AFL-CIO. The local charged collusion between the company and Local 4-299, composed exclusively of white workers.

The company, the complaints allege, refuses to promote Negro workers on a nondiscriminatory basis, pays them lower wages, and systematically violates their seniority rights.

The Socony Mobil Oil Company, Hill pointed out, has signed a "Plan for Progress" agreement with the President's Committee on Equal Employment Opportunity.

These conditions, Hill told John Field, executive director of the President's Committee, are typical of the pattern of racial discrimination in most of the oil refining and chemical plants operating with Government contracts in the Gulf area.

Back in the good old days when the family packed up for a stay at the beach, Mama tucked the family savings into her "boodle bag" and considered it safe. But that practice is as out of date as these venerable beach costumes. Today, Mama's a lot wiser. She knows that the only safe way to protect the family's life savings is to put it in a bank. A bank provides a convenient, safe and thrifty method of protecting your savings. All deposits up to \$10,000 are insured by the Federal Government. And banks earn interest on your money for you! Just as beach wear has changed through the years, wise families have found that banks are much better than "boodle bags" for their savings.
