## Never again—with flameless electric comfort heating

(The heating system that's trouble-free!)

You can tear up those fall check-up reminders when you switch to flameless electric comfort heating. You can say good-bye to costly service calls, because the only moving parts are in the thermostats. It's the carefree modern way to heat — and Carolinians like it!

"The lack of seasonal maintenance... adds to the convenience and continuous reliability of electric heat. We have had no service calls or any upkeep expense on our heating system."

Mr. and Mrs. Joseph L. Morton, DURHAM, N. C.

Start enjoying flameless electric heating soon — in your present home or your new one. Your Duke Power Residential or Commercial Representative will give you helpful information, although Duke Power neither sells nor installs electric comfort heating.
