An esti-mated 7.000 to 8.000 persons crowded into a muddy field about five miles northeast of Durham. After a 3-judge federal district court dismissed the SCEF appeal for relief from this action, a complaint was filed in the U.S. Su preme Court.

A 5-2 ruling handed down by Justice Brennan, recently declared "void on face" sections of the Louisiana law which defined a subversive organization, and which made it an offense not to register as a member of a "com-

munist front organization." "This overly broad statute

creates a 'danger zone' within which protected expression may be inhibited." the majority decision declared.

So long as the statute remains available to the state, the threat of prosecution of protected expression is a real and substantial one Even the prospect of ultimate failure of such prosecution by no means dispels its chilling effects on protected expression."

The high Court sent the case blick to district court with directions for "prompt framing of a decree restraining prosecution of pending indictments against the individual appellants, ordering immediate return of all papers and locuments seized and prohibiting further acts enforcing the section of the Subversive Activities and Communist Control Acts here und void on their face.

#### The May 1 Primary

Negro citizens of Durham who vote in the Primary to be held here. Saturday, May 1, will have decidely more at stake than the mere matter of retaining a representative of their race on the City Council. The election of a Negroto the office is not half as important as the election of the best qualified one that is available, in so far as training and experience are concerned. We think, therefore, that this is no time to allow ourselves to be influenced by the extravagant and reckless charges which are being, circulated against the present Negro member of the City Council. To allow such unfounded propaganda to influence the actio no fNegro voters on the matter of a choice on May 1 for the lone Negro representative of the Third Ward, is to risk having no representative on the Council at all or one who is inexperienced and minus the influence among the other members of the City Council as well as among those of his own race in Durham.
