

Groundbreaking Held for \$3.1 Million PS 327 Brooklyn, N. Y.

NEW YORK — Groundbreaking ceremonies for the \$3.1 million P.S. 327 at Chester Street near Pitkin Avenue, Brooklyn, which the Board of Education has named for Boileau Sylvanus Dent, late minister and civic leader of the district which the school will serve, will be held on Sunday, June 13, beginning at 2:00 p.m.

City, borough and educational leaders have been invited to take part in the program arranged by a school-community committee headed by Rev. Samuel R. Johnson, Jr., member of Local School Board 41-42.

Mrs. Bleeker Dent, widow of the Rev. Dent, will turn the first spadeful of earth to mark the occasion.

Among the scheduled speakers are Brooklyn Borough President Abe Stark; Dr. Aaron Brown, Member of the Board of Education; Jack Zimmer, chairman of Local School Board 41-42; Assistant Superintendent of Schools M. B. Meyers, and Dr. Sandy F. Ray, president of the General Baptist State Convention of New York.

Two separate school organizations, one for kindergarten-grade 2 children and the other for grade 3-6 pupils, will make up the 1,900-pupil school expected to be completed within 18 months.

In addition to a full complement of classrooms, the school will have a library, auditorium, gymnasium and combination lunch-room-playroom, as well as sound-absorbing operable walls in some areas to allow for easy rearrange-

ment of pupils into small and large groupings.

3 N. Carolinians Graduate In Lincoln U. Finals

LINCOLN UNIVERSITY, Pa. — George Washington Holliday, son of Mr. and Mrs. Willie McClain of 2213 Chataqua Street, Durham; Gregory Pride K Kyle, son of Dr. and Mrs. G. T. Kyle, of 1203 Southern Boulevard, Durham; and Mr. James DeWitt Woods, son of Mr. and Mrs. James Woods, Rte. 2, Box 13, Washington, N. C., received the A.B. degree from Lincoln University (Pa.) at the university's commencement exercises held on the campus on June 6.

Holliday majored in Mathematics, Kyle majored in Political Science, and was recently awarded the Journalism Key for outstanding work on the staff of THE LINCOLNIAN, a student newspaper.

Woods, a Biology major, was recently awarded the William S. Quinlan, Jr. Memorial Prize in Biology and the Samuel Robinson Scholarships, Shorter Catechism Prize.

Lincoln University is an international, interracial liberal arts college. It numbers among its alumni the presidents of two African nations and several graduates holding ambassadorial or cabinet rank.

OLD NORTH STATE MEDICS TO MEET IN CHARLOTTE

CHARLOTTE — An outstanding array of prominent physicians, surgeons and dentists will appear as clinicians and guest lecturers at the annual conventions of the Old North State Medical, Dental and Pharmaceutical Societies, and their Women's Auxiliaries to be held simultaneously here at the Queen Charlotte Hotel June 15-17.

Heading the list appearing before the medical group are: Dr. Walter Booker, professor of pharmacology, Howard University, Washington, D. C., and Dr. Clarence L. Gantt, assistant professor, University of Illinois Medical Center, Chicago.

Other clinicians are: Dr. Claude A. Frazier, allergist, Asheville; Dr. James B. Landis, clinical investigator, Smith, Cline and French Laboratories, Philadelphia; Dr. John A. Gergen, assistant professor, Department of Psychology and Neurology and Mrs. Ethel M. Nash, assistant professor of preventive medicine and associate in obstetrics and gynecology, both of the Bowman Gray School of Medicine, Winston-Salem; and Dr. Wm. A. Whiteside, Dr. Monroe F. Gilmore and Dr. Robert Payne, all internists, and Dr. Malcolm McCall, cardiologist; Dr. Francis Robison, cardiac surgeon; and Dr. Fred H. Allen, Jr., neurologist; Dr. Fred N. Mitchell, pediatric cardiologist, and Dr. Paul Sanger, cardiac surgeon, all of Charlotte.

The convention will be enlivened with the appearance of Harry Golden, Charlotte, editor of the North Carolina Israelite, who will speak at the mid-day luncheon and Lt. Governor Robert W. Scott of North Carolina, who will speak at the Awards Dinner, at 7:00 P. M., both joint sessions for all of the groups on Wednesday, June 16.

The meetings are expected to draw 400 persons, medics, dentists, pharmacists and their wives.

The sessions open on Tuesday evening, June 15 with business meetings.

PLANETARIUM TO HOLD ASTRONOMY CLASSES JUN. 14-25

CHAPEL HILL — Donald S. Hall, Assistant Director of the Morehead Planetarium, has announced that the Planetarium's Summer Science Series is rapidly filling. Each summer for the past several years the staff at the Planetarium has offered special classes in astronomy for children and this year the response is greater than ever. "All parents who wish to enroll their children should do so immediately," Hall said.

There will be two courses taught on two age levels. Children between ages 8 and 11 may take "Astronomy of the Solar System" at 9:30 to 10:15 a.m., Monday through Friday mornings June 14 through 25. Also, for this age group the Planetarium is offering "Astronomy Beyond the Planets" at 9:30 to 10:15 a.m. July 5 thru 16. These same courses on these same dates are offered for young people age 12 through 16 from 1:00 to 2:00 p.m.

"Astronomy of the Solar System" will give class meetings of discussion to the sun, moon, planets, comets, asteroids and meteoroids. "Astronomy Beyond the Planets" will devote the same amount of time to the constellations, stars, galaxies, nebulae and

UNCF Distributes \$3 Million to Its 32 Members

NEW YORK — The distribution of \$3 million by the United Negro College Fund to 32 of its member colleges and universities was announced last week by Dr. Frederick D. Patterson, the Fund's president.

The money—derived from the proceeds of a one-year development fund campaign launched by President Kennedy in 1963—will be used by the institutions to help construct campus buildings and renovate obsolete structures.

A part of the allocation will also be used to strengthen basic curriculum, and supplement endowment funds for faculty expansion and scholarship aid.

To date, the Fund has received and distributed \$10 million in unrestricted capital gifts obtained from the development campaign—the \$3 million distributed today and \$7 million in 1964. One-third of this total sum came from a Ford Foundation matching grant and two-thirds from contributor payments on pledges obtained during the campaign year.

The predominantly Negro institutions receiving the capital funds are located in 11 Southern states and enroll 80,000 students. The distribution includes: \$554,300 to seven institutions in Georgia; \$506,670 to six institutions in North Carolina, and \$1,053,900 to ten institutions in Alabama, Tennessee and Virginia.

Other colleges and universities receiving funds are in Arkansas, Florida, Louisiana, Mississippi, South Carolina and Texas.

The current distribution is part of the \$33 million subscribed to the development campaign, initiated in the fall of 1963 and completed one year later. The bulk of this money was given directly to selected UNC member colleges by corporations and foundations for specific projects.

These capital-market funds and the structure and nature of the universe. All classes will meet in the Planetarium chamber and employ the Zeiss Planetarium projector.

The cost for each course for each child is \$5. Write the Morehead Planetarium, Chapel Hill, N. C. for complete information.

are used primarily for plant improvement. Teacher's salaries and other operating expenses are supported by the Fund's annual drive. The 1965 appeal for \$5,174,000 is now under way—and the proceeds from this drive will supply approximately 10 per cent of the total operation costs of the institutions.

In outlining utilization of the capital fund monies, Dr. Patterson reported that last year's disbursement of \$7 million was used in the following ways:

- Major emphasis has been placed on the construction of new science and foreign language buildings, and the erection of multi-purpose buildings housing science and language laboratories.
- Ten such projects are now in the final planning stage, and government loans and matching grants have been applied for most of the projects.

- Three of the institutions are undertaking the construction of new libraries, or plan to renovate existing library structures.

- Five colleges and universities have built or are planning to build dormitories, student centers and physical education buildings.

- Two of the institutions have purchased additional land, and two others are planning to construct facilities for student nurses and nursing education.

- One university will use its share of the proceeds to help construct a graduate school of education, and other institutions are utilizing the distributed funds in a variety of ways—as part of major development programs.

"And," asks Hano, "how is it from taking illegal payment for playing ball to taking illegal payment for shaving points?"

CORE and MFDP Stage Freedom March in Rankin County, Miss.

BRANDON, Miss.—Rural Rankin County, which set Mississippi's county record for the number of Negro churches burned within the past year (five), was the scene of a Freedom March May 28-29 by some 300 Negroes and whites.

Aimed at protesting the seating of Mississippi's five congressmen and the voter discrimination which made this possible the march was sponsored jointly by CORE and the Mississippi Freedom Democratic Party. One of the demonstration's leaders was CORE Task Force Worker George Raymond. "We want to let them know we're not afraid," commented R. Lee Myers, a marcher from Haynes Chapel. But on this particular occasion there was little grounds for fear since state and county officials were anxious to avert the kind of terrorism which has prevailed in this Klan stronghold. State and county police accompanied the marchers for the entire 15 miles from Fannin to Brandon, the county seat.

When the marchers arrived at the courthouse, Mayor C. J. Harvey promptly met with their leaders. About 50 of the marchers were guided to the registrar's office to take registration tests and the remainder were escorted to an upstairs courtroom where they sang freedom songs until the start of the rally, in front of the courthouse.

The main speaker at the rally was CORE National Director Jas. Farmer, who predicted that as an

outcome of the new Voting Bill, from one to two million southern Negroes will be registered to vote within six months.

At present only 94 of Rankin county's 6,944 Negroes of voting age are registered in contrast to over 12,000 of its 13,264 whites.

Shrinks Hemorrhoids Without Surgery Stops Itch—Relieves Pain

For the first time science has found a new healing substance with the astonishing ability to shrink hemorrhoids and to relieve pain—without surgery. In case after case, while gently relieving pain, actual reduction (shrinkage) took place. Most amazing of all—results were so thorough that sufferers made astonishing statements like "Piles have ceased to be a problem!" The secret is a new healing substance (Bio-Dyne)—discovery of a world-famous research institute. This substance is now available in suppository or ointment form called Preparation H®. At all drug counters.
