## Local Young Man Takes Own Life With Rifle

**GUESS WHAT!**—What has four legs, flies at night; two wings, and gives light? A firefly, lightning bug, or glow worm—which ever you choose to call it—such as the one Gayle Thornton caught and is holding much to the interest of her play-mates. The children are enrolled in the North Carolina College nursery school, a project of the Durham college's Home economics Department which enables majors in nursery school education and students in child development courses to observe the actions of young children from day to day.

## Bogalusa Group To Begin Mass Marches

BOGALUSA, — Ortha Peters, President, Local 624, Pulp and Sulphur Workers, AFL-CIO, Bogalusa, announced the beginning of mass marches in Bogalusa starting on July 8th. ### NCC Announces New Housing Rule for Men

Robert L. McAdams, acting dean of men at North Carolina College, announced this week that effective with the fall semester all single undergraduate NCC male students not living at home with relatives in the Durham area will be required to live in housing provided by the college on the campus. The regulation, which has been in effect generally in recent years, will be enforced more rigorously in the future following action by the college's Administrative Committee, McAdams said, adding that a new dormitory, which will accommodate 300 persons and will be ready for occupancy by September 8, will relieve somewhat the critical housing shortage for male students. If extenuating circumstances make it necessary for certain male undergraduates to live off campus, they must obtain approval from the personnel dean and live under appropriate supervision in residences approved by the college, McAdams said.
